Over the past few years, search engine optimization has developed into something of a science as webmasters and business owners try to figure out how to trick the internet search engines into listing THEIR sites near the top of the search results list. A number of big, pricey books have been written on the subject. But it really is not that complicated! We've boiled it down to FIVE SIMPLE STEPS that just about anybody can follow. It's so simple that this book is fewer than 50 pages long! You won't get bogged down with boring, technical descriptions and geek-speak; this book is written in easy-to-read plain English, with plenty of examples and clear descriptions of technical terms where they are absolutely necessary. "But I'm not a web designer!" You don't need to be. You just need to be able to create simple web pages. "I don't have a budget for paid ads!" This book is not about paying for "sponsored links," adwords, or any other kind of paid

advertising. The technique we describe will cost you nothing other than the price of this book and some of your time.

365 Sports Cars You Must Drive puts you in the driver's seat of a century's worth of sports car legends (and a few rather less legendary), each presented with a fun and informative profile and fact-and-spec box. It's the ultimate gearhead's bucket list and poses the challenge: How many have you driven? Whoever coined the phrase "getting there is half the fun" must have owned a sports car. And the wag who suggested that "it's the journey not the destination"? Probably driving a Lotus or MG at the time. From towering icons like Ferrari, Lamborghini, Porsche, and Corvette to everyman sportsters from Triumph, MG, Sunbeam, and Miata to oddballs like Crosley, Sabra, and DB, sports cars inspire passion and strong opinions as few other vehicles on the road can. In one beautiful book, long-time Road & Truck magazine chief photographer John Lamm, along with other top motoring contributors, gives the reader illustrated profiles of every sports car you've ever dreamed of driving! Now, imagine if you could drive a different sports car—any sports car—every single day for a year. Which would you choose?
