Viata unui om singur este volumul de memorii al regretatului carturar Adrian Marino o autobiografie ce se opreste la anul 1999. Autorul rememoreaza sase decenii de existenta cu represiunea deportarea in Baragan si insingurarea morala de dupa 1989. Manuscrisul face parte din fondul „Adrian Marino" al Bibliotecii Centrale Universitare „Lucian Blaga" din Cluj-Napoca. Autobiografie indelung asteptata volumul ce apare conform dorintei autorului la cinci ani de la moartea sa captiveaza prin traseul unei vieti de exceptie ca si prin valoarea culturala a marturiei pe care o aduce. „In cateva cuvinte: de sase decenii cel putin gandesc mereu altfel aproape in toate domeniile. Scara mea de valori incepand cu valorile culturale si ideologice este net deosebita de a mediilor sociale si culturale pe care le-am strabatut obligat sau nu. Iar o astfel de singuratate – care nu este nici sentimentala nici sociala – este greu de suportat. O suferinta abstracta rece. O revolta permanenta si fara solutie. Mai totdeauna inexprimabila si incomunicabila. Nu doresc nimanui o astfel de contrarietate si uzura interioara. Fara iesire si fara o adevarata consolare. Incerc totusi s-o pun pe hartie s-o definesc si s-o descriu cu maxima claritate. Doresc sa scriu totusi «cartea» vietii mele in toate sensurile cuvantului. Sa-mi afirm identitatea «personalitatea» buna rea asa cum a fost." (Adrian Marino)

Nevoia de a spori eficiența activităților de tip militar, la nivel individual, de grup și organizațional, a dus la apariția psihologiei militare, un domeniu complex, în care se regăsesc elemente de psihologie organizațională, a personalității, clinică și experimentală. Volumul abordează psihologia militară ca pe un corp de aplicații ale diverselor ramuri ale psihologiei în contextul categoriilor de forțe militare (trupele terestre, aviația, marina) și al situațiilor în care se află personalul militar (selecție, instruire, adaptare la misiuni reale de luptă etc.). Alături de problemele clasice, sînt analizate cele pe care le generează relația tot mai complexă om-mașină, prezența femeilor în armatele actuale, războiul psihologic cu mijloace moderne sau terorismul. Impresionantă prin numărul și varietatea temelor tratate, rigoare și spirit științific, Psihologie militară se impune ca o lucrare de referință în domeniu. Din cuprins: Psihologia militară: definirea domeniului, scurt istoric • Condițiile extreme de mediu și efectul lor asupra performanței militare • Sistemul om-mașină și performanța militară • Oboseala operațională • Stresul de luptă • Adaptarea militară • Conducerea în mediul militar • Selecția psihologică • Războiul psihologic: operațiunile psihologice și terorismul

f The short-sighted adolescent is a passionate reader who takes various cultural figures as models, trying to emulate both their lives and their works. The pupil protagonist is a poor student, who likes science and reads a lot of books, sometimes staying up all night to do so. At the age of 15, he decides to write a novel to demonstrate to his teachers that he is not as mediocre as all the other students, and is prepared to give up everything he holds dear for his art. The novel is written in a number of notebooks--the "diary" of the title--but our myopic hero ultimately fails in three subjects and is too lazy to learn and has to repeat the school year. Diary of a Short-Sighted Adolescent was written by the young Mircea Eliade, one of Romania's greatest writers and intellectuals. The book can be viewed as an early 20th century Catcher in the Rye, and allows us an intimate view of the developing genius--his teachers, his classmates' academic and amorous rivalries, his first sexual experiences--and an introduction to the themes of religion, self-knowledge, erotic sensibility, artistic creation, and otherness; ideas which would preoccupy him until the end of his life.
