At it's simplest, aquascaping is the craft of arranging aquatic plants along with rocks, stones and driftwood in an aesthetically pleasing manner within an aquascape aquarium. There are many different styles of aquascape. In the past the garden-like Dutch style was popular.

Aquascaping: Aquarium Landscaping Like a Pro, Second ...

In gardening, landscaping is all about designing your surroundings. With aquascaping, you're simply doing the same thing but in an aquatic setting – typically in aquariums. This can be a fun way to create an underwater landscape with plants growing in natural curves and slopes. Fish and other aquatic creatures can be included too.

Aquascaping is the craft of arranging aquatic plants, as well as rocks, stones, cavework, or driftwood, in an aesthetically pleasing manner within an aquarium—in effect, gardening under water. Aquascape designs include a number of distinct styles, including the garden-like Dutch style and the Japanese-inspired nature style. Typically, an aquascape houses fish as well as plants, although it is possible to create an aquascape with plants only, or with rockwork or other hardscape and no ...
