Includes such activities as connecting-the-dots, making holiday decorations and cards, coloring, and making paper models.

The Law Times Reports Elsevier

After a day at the track of zipping and zooming, a race car is tired and ready for bed. He washes his rims, fills his tummy with oil, and chooses a book that is all about speed. All toasty and warm, he drifts off to sleep, he shifts into gear . . . and dreams of the race!

Kirigami Menagerie All about Sounds

An Introduction to Modern Vehicle Design provides a thorough introduction to the many aspects of passenger car design in one volume. Starting with basic principles, the author builds up analysis procedures for all major aspects of vehicle and component design. Subjects of current interest to the motor industry, such as failure prevention, designing with modern materials, ergonomics and control systems are covered in detail, and the author concludes with a discussion on the future trends in automobile design. With contributions from both academics lecturing in motor vehicle engineering and those working in the industry, "An Introduction to Modern Vehicle Design" provides students with an excellent overview and background in the design of vehicles before they move on to specialised areas. Filling the niche between the more descriptive low level books and books which focus on specific areas of the design process, this unique volume is essential for all students of automotive engineering. - Only book to cover the broad range of topics for automobile design and analysis procedures - Each topic written by an expert with many years experience of the automotive industry

Dinosaur dinosaur big or small? Are you short or are you tall? Flip the flap to find out fun facts about different prehistoric animals.

Modifying the Aerodynamics of Your Road Car Macmillan

Introduces shapes and things that go -- trains, fire trucks, and more --

Auto Motor Journal John Wiley & Sons

Want to improve handling, straight-line performance or fuel economy? In that case, you'll achieve best results by modifying your vehicle's aerodynamics. This handbook is a must-read that takes you from testing the standard car through to making sophisticated aerodynamic modifications that have real impact.

Away We Go! Tuttle Publishing

It is the dream of many to own the world's most beautifully designed automobiles, but most often only a handful of collectors ever come close. Now, The Impossible Collection of Cars makes that dream come true, showcasing the one hundred most exceptional cars of the twentieth century in ASSOULINE's third volume in the Impossible Collection series. Each luxury automobile—from the 1909 Blitzen Benz to a 1996 McLaren F1—was chosen for its revolutionary engineering, magnificent lines, and head-turning capabilities. Assouline is pleased to announce this exquisite tome, which features cars owned by celebrities like Marlene Dietrich, Ralph Lauren, Greta Garbo, Pablo Picasso, and Elvis Presley. This Impossible Collection volume is presented on cotton paper in a beautiful black rubber clamshell box with a cutout metal plate.

The Bulletin of the American Iron and Steel Association Routledge

This festschrift volume, published in honor of Manfred Nagl on the occasion of his 65th birthday, contains 30 refereed contributions, that cover graph transformations, software architectures and reengineering, embedded systems engineering, and more.

This work has been selected by scholars as being culturally important, and is part of the knowledge base of civilization as we know it. This work was reproduced from the original artifact, and remains as true to the original work as possible. Therefore, you will see the original copyright references, library stamps (as most of these works have been housed in our most important libraries around the world), and other notations in the work. This work is in the public domain in the United States of America, and possibly other nations. Within the United States, you may freely copy and distribute this work, as no entity (individual or corporate) has a copyright on the body of the work. As a reproduction of a historical artifact, this work may contain missing or blurred pages, poor pictures, errant marks, etc. Scholars believe, and we concur, that this work is important enough to be preserved, reproduced, and made generally available to the public. We appreciate your support of the preservation process, and thank you for being an important part of keeping this knowledge alive and relevant.

Resistant Materials Penguin Random House South Africa

This book, originally published in 1993, addresses the issues surrounding the teaching of mathematics in primary school at the time. The author considers the issues that had arisen through the introduction of the National Curriculum, both in terms of the current "state of the art" and new developments.

Dinosaur, Dinosaur Koala Books

A new series of bespoke, full-coverage resources developed for the 2015 GCSE Mathematics qualifications. Approved by AQA and created specifically for the GCSE Mathematics Higher tier specification for first teaching from 2015, this Student Book covers the new GCSE Mathematics qualification. With a strong focus on developing problem-solving skills, reasoning and fluency, it helps students understand concepts, apply techniques, solve problems, reason, interpret and communicate mathematically. Written by experienced teachers, it also includes a solid breadth and

depth of quality questions set in a variety of contexts. GCSE Mathematics Online - an enhanced digital resource incorporating progression tracking - is also available, as well as Problem-solving Books, Homework Books and a free Teacher's Resource.

If You Can Cut, You Can Collage is specially designed for people who feel like they can't make art. Want to know a secret? You can You just need a little inspiration, instruction, and confidence.

Collage is a wonderful creative outlet, particularly for people who want to make art, but don't feel they have the skills or confidence for other endeavors. You can still explore and experiment with color, composition, and various themes and end up with exciting and often unexpected results. If you Can Cut, You Can Collage takes some of the mystery out of collage through easy illustrated pages that show you the basic techniques of collecting and cutting imagery, composing and adhering compositions, and then provides a wealth of exercises that get readers going on their own creative projects. We'll get you started with simple, focused, projects like making a collage with only circles, where you'll learn important concepts like how to create a focal point, how to use repetition successfully, how to achieve contrast, balance, symmetry, and more. You'll be incorporating vintage ephemera, typography and lettering, and even urban and found materials in no time

Creative Scrapbook Piecing 4 with Marina du Plessis Assouline Publishing

Make decorative, simple do-it-yourself projects with this friendly guide to paper crafting. You and your family will love to spend hours making beautiful paper art, jewelry, and decorations with All Things Paper. This easy paper crafts book comes with simple-to-follow instructions and detailed photos that show you how to create colorful and impressive art objects to display at home--many of which have practical uses. It is a great book for experienced paper craft hobbyists looking for new ideas or for new folders who want to learn paper crafts from experts. Projects in this papercrafting book include: Candle Luminaries Citrus Slice Coasters Mysterious Stationery Box Everyday Tote Bag Silver Orb Pendant Fine Paper Yarn Necklace Wedding Cake Card Perfect Journey Journal And many more... All the projects in this book are designed by noted paper crafters like Benjamin John Coleman, Patricia Zapata, and Richela Fabian Morgan. They have all been creating amazing objects with paper for many years. Whether you're a beginner or have been paper crafting for many years, you're bound to find something you'll love in All Things Paper. Soon you will be on your way to creating your own designs and paper art.

Railway Locomotives and Cars Cambridge University Press

There is no end to scrapbooking as a craft, or to the popularity of Marina du Plessis's scrapbook piecing. Back with a fourth collection of scrapbook layouts in Creative Scrapbook Piecing 4 with Marina du Plessis, the author provides designs for a host of special occasions and reasons to preserve memories of family and friends. Using mostly paper, each of the 42 full-colour layouts includes easy-to-understand instructions and templates for making the frames, letters, titles, tags, envelopes and the three-dimensional figurines. Elements may be mixed and matched, or adapted, to

personalise your own layouts. There are themes to suit boys and girls (from babies to adults) and these include birthdays, weddings, special festivals and events, weddings, memories, pets and good times. Projects are suitable for advanced and beginner scrappers.
