Secrets of Astrology tells you all you want to know about astrology, from the meaning of zodiac signs, to how to read a birth chart. Simple, readable text clearly explains the origins of astrology, the role of the planets, and the significance of the 12 Houses. Young astrologers are guided through all of the different zodiac signs, and can learn more about themselves in the process. Bold, colorful illustrations bring key concepts to life, and make this the perfect addition to your bookshelf. This book is the perfect gift for budding astrologers, or those who love the night sky.

**Lunar Nodes** Llewellyn Worldwide As the indicator of transformation and the starting point for understanding all factors in the natal chart, Pluto is one of the most important planets to focus on in chart analysis. Inspired by the bestselling Pluto

Volumes 1 and 2 by the author's father, Jeffrey Wolf Green - renowned astrologer and founder of Evolutionary Astrology - this groundbreaking book takes that original work to new heights and makes the study of Evolutionary Astrology clear and practical for modern-day use. This inspiring book teaches you the key essentials of chart interpretation by focusing on Pluto and the locations of your north and south nodes, so you can figure out the steps you need to take in order to grow-and ultimately discover your soul's karmic mission. Essays on Evolutionary Astrology The Wessex Astrologer Explore Your Past Lives, Life's Purpose, and Beyond with a New Approach to Lunar Nodes Harness the power of the Lunar Nodes with this book's groundbreaking system of archetypes and celestial interactions. The North and South Nodes of the moon represent a gateway, not just to your past lives, but also to the relationship between human consciousness and the universe. This book investigates how your life is affected when the planets aspect the Nodes and how you can use this knowledge to live with

greater purpose and confidence. Wendell C. Perry shares the planet archetypes on a chapter-by-chapter basis, making it easy for you to look up each one and how it functions when aspecting the Nodes. You'll also learn about transiting aspects, archetype pairings, and Lunar Nodes in relation to the houses and sun signs. Featuring thorough research and hundreds of examples, this book shows you how to best utilize the cosmic connection between planets and Lunar Nodes. **Postcolonial Astrology** North Atlantic Books One of the most radical and unorthodox interpretations of retrograde planets yet published. Disregarding the traditional "good" or "bad" explanation, the author gives instead a system which explains the three vibrational moods in which these planets may be expressed. Each planet is discussed thoroughly in all signs and houses. There is also an examination of the esoteric and karmic symbolism begun in his best selling "Karmic Astrology Volume I: The Moon's Nodes and Reincarnation." *The Lunar Gospel* Bantam This is the long awaited

follow-up to *Astrolocality Astrology* - in which the author starts with the history of locality astrology, telling its story from ancient Babylonia to modern times. He then introduces essential works from contemporary astrologers who are utilising locality techniques today. This is a brilliant opportunity to learn from notable astrologers like: Bernadette Brady, Kathryn Cassidy, Faye Cossar, Donna Cunningham, Robert Currey, Dennis Flaherty, Arielle Guttman, A.Tad Mann, Chris McRae, David Meadows, Dale O'Brien, Angel Thompson and Maya White.

Lunar Nodes American Federation of Astr Tapping into the political power of magic and astrology for social, community, and personal transformation. In a cross-cultural approach to understanding astrology as a magical language, Alice Sparkly Kat unmasks the political power of astrology, showing how it can be channeled as a force for collective healing and liberation. Too often, magic and astrology are divorced from their potency and cultural contexts: co-opted by neoliberalism, used as a

force of oppression, or distilled beyond recognition into applications that belie their individual and collective power. By looking at the symbolic and etymological histories of the sun, moon, Saturn, Venus, Mercury, Mars, and Jupiter, we can trace and understand the politics of magic--and challenge our own practices, interrogate our truths, and reshape our institutions to build better frameworks for communities of care. Fearless, radical, and fresh, Sparkly Kat's *Postcolonial Astrology* ushers in a new wave of astrology revival, refusing to apologize for its magickism and connecting its power to the spirituality and politics we need now.

Intersectional, inclusive, and geared towards queer and POC communities, it uses our historical and collective constructs of the planets, sun, and moon to re-chart our subconscious history, redefine the body in the world, and assert our politics of the personal, in astrology and all things. Grief Simon and Schuster Few understand the power of Transiting Lunar Nodes - yet all of us experience the impact of these transits in our lives.

Planets transiting through the Zodiac form aspects to our personal charts, and happenings occur. How or why you feel a certain way about a situation is indicated by the transits of the Lunar Nodes. Author Diane Ronngren introduces you to this unique study and helps you explore the energy of the transiting Lunar Nodes in your life. *Astrology for the Soul* The Wessex Astrologer "This book presents the ancient Hindu astrology in its occult and esoteric aspects. Traditional practitioners often failed to defend the veracity of the subject and dispel the scepticism of modern intellectuals. The ancient revelations have been restated here to meet contemporary requirements. The ancient seers presented Vedic Astrology under various assumptions and in allegorical and symbolic languages. They assumed polydimensional extension of human consciousness which was closely related with planetary impulses. Apart from the general approach to this ancient science, the study presents in depth the astrological description of the nature of man. It also provides deeper

implications of various planetary combinations. Advanced practitioners as well as general readers will find the book informative, illuminating and highly rewarding.

Every month the Moon above comes back to where it was exactly when you were born. Called the Lunar Return, the chart cast for this instant tells the tale of the next 27 1/2 days to come. It paints your emotional landscape day by day and reveals the tides that wash over your life as the Moon drives her daily course. Once a primary tool of every professional astrologer, this invaluable technique has often been neglected because of its demanding subtlety and complexity. In this book, long-time astrological innovator John Townley has cut to the core of how and why to use the Lunar Return, giving the student or professional astrologer the keys to the heart and the pulse of each and every month.

All the Sun Goes Round

The Wessex Astrologer Panchanga is an ancient vedic technique which has disappeared from current practice. It is used to discover the strength of

the different sources of 'light' in the natal chart which show one's response to the challenges of life. This book shows how relevant this technique is to life.

Bringing together some of the most recognized and influential researchers and scientists in various space-related disciplines, Lunar Settlements addresses the many issues that surround the permanent human return to the Moon. Numerous international contributors offer their insights into how certain technological, physiological, and psychological challenges must be met to make permanent lunar settlements possible. The book first looks to the past, covering the Apollo and Saturn legacies. In addition, former astronaut and U.S. Senator Harrison H. Schmitt discusses how to maintain deep space exploration and settlement. The book then discusses economic aspects, such as funding for lunar commerce, managing human resources, and commercial transportation logistics. After examining how cultural elements will fit into habitat design, the

text explores the physiological, psychological, and ethical impact of living on a lunar settlement. It also describes the planning/technical requirements of lunar habitation, the design of both manned and modular lunar bases, and the protection of lunar habitats against meteoroids. Focusing on lunar soil mechanics, the book concludes with discussions on lunar concrete, terraforming, and using greenhouses for agricultural purposes. Drawing from the lunar experiences of the six Apollo landing missions to the many American and Soviet robotic missions to current space activities and research, this volume summarizes the problems, prospects, and practicality of enduring lunar settlements. It reflects the key disciplines, including engineering, physics, architecture, psychology, biology, and anthropology, that will play significant roles in establishing these settlements.

Do you know the Bowl from the Basket shape in a natal chart? Did you realise just how much information you can gain

from examining the actual pattern of the planets in the chart? No matter how knowledgeable we are about astrology, natal chart analysis can still present a challenge - however, understanding chart shapes could make all the difference. In this fascinating study, Wanda Sellar pinpoints an effective route into the astrological labyrinth using a concept which was pioneered by Marc Edmund Jones and then followed by Robert Jansky in the last century. Each chart shape has its own central theme: a Locomotive shape has its starting point with the leading planet which may be in any house or sign, a See-Saw shape begins with the core opposition, a Wedge with the confining trine. Not all charts fit neatly into one of the idealised patterns, and those that take a little coaxing are still a revelation in interpretation. Sometimes it is the planet that stands outside the idealised shape that reveals the core of the personality. This treasure trove includes a multitude of worked case histories, including Arnold Schwarzenegger, Mata Hari, George Blake, Bobby Fischer, Harrison Ford and

Agatha Christie. This fascinating and accessible book is suitable for all levels.

**Lunar Nodes Red Wheel**  
When Jeffrey Wolf Green retired and went into seclusion he left his daughter Deva with everything that he had ever written which included drafts of various manuscripts which he had intended to publish at various points. This also included every audio tape, video, dvd, and transcript of his lectures delivered over a lengthy career. He also gave Deva his business and asked her to carry on with it. This book reflects her desire to continue to disseminate his work as widely as possible. In *Essays on Evolutionary Astrology: The Evolutionary Journey of The Soul* there is a combination of transcribed lectures with parts of various manuscripts, most of which has never been in print before.  
*Shodasha Varga* The Wessex Astrologer  
The Shodasa Vargas or sixteen divisional charts are an essential technique that is studied in vedic astrology in order to understand the true nature of an individual. Each varga focuses on a

*Chart Shapes* Pan Grief doesn't discriminate. It will touch all of us at some point; an uninvited guest that can't be shown the door, that takes over our lives and changes us forever. In this gut-wrenchingly beautiful book, Darrelyn Gunzburg shows us how knowing the shape of grief and its consequences over time give edges and boundaries to this dark

pathway, revealing that through the prickly branches and the mist, life awaits us at the edge of the forest, dressed in cloths of gold and sustained with love and warmth. Helping ourselves first means we gain the wisdom that grief gives us to help others on their unique journey to encounter a changed future with focus, determination, and understanding when grief comes to call. To allow someone in grief to give voice to their experiences is not just being kind. It is saving their life.
