Ce recueil bilingue consacré à l'écrivain canadien Margaret Atwood, reconnue comme l'une des figures dominantes de la

littérature d'expression anglaise, contient l'intervention qu'elle a prononcée à Rennes en novembre 1998 sur son roman *The Handmaid's Tale* (La Servante écarlate) et sur le genre auquel il appartient. Le roman, inscrit aux programmes 1999 du CAPES et de l'Agrégation d'anglais, a été l'un des plus grands succès littéraires des années 80 aux Etats-Unis, au Canada et en Grande-Bretagne. Utopie, dystopie, satire, ou fiction spéculative, ce texte au scénario terrifiant s'inscrit à l'intérieur du courant

postmoderne. Cet ouvrage rassemble des études du roman qui ont été présentées en décembre 1998 au Colloque Margaret Atwood organisé par le Centre d'Etudes Canadiennes de Rennes. Les auteurs analysent le texte sous différents éclairages : ils explorent les rapports entre littérature et société, politique et poétique, langage et organisation de la cité, et examinent les stratégies de détournement mises en œuvre. This bilingual collection devoted to Canadian writer Margaret Atwood, one of the best-known figures in the field of English language literature, contains the address that she pronounced in Rennes in November 1998 on her novel *The Handmaid's Tale* - one of the greatest literary successes of the 80's in the United States, Canada, and Great Britain - as well as on the genre to which it belongs. Whether it be a utopia, dystopia, satire, or else speculative fiction, the text with its terrifying scenario belongs to the postmodernist movement. This volume brings together studies of the novel that were presented in December 1998 at the Margaret Atwood Conference organised by the Centre d'Etudes Canadiennes of Rennes. The authors analyse the work

from different perspectives - they explore the relationship between literature and society, politics and poetics, communication and community, and they study the strategies of resistance and displacement set up by the writer.

At the heart of this book is the controversy over whether Inca history can and should be read as history. Did the Incas narrate a true reflection of their past, and did the Spaniards capture these narratives in a way that can be meaningfully reconstructed? In *Reading Inca History*, Catherine Julien finds that the Incas did indeed create detectable life histories. The two historical genres that contributed most to sixteenth- and seventeenth-century Spanish narratives about the Incas were an official account of Inca dynastic genealogy and a series of life histories of Inca rulers. Rather than take for granted that there was an Inca historical consciousness, Julien begins by establishing an Inca purpose for keeping this dynastic genealogy. She then compares Spanish narratives of the Inca past to identify the structure of underlying Inca genres and establish the dependency

on oral sources. Once the genealogical genre can be identified, the life histories can also be detected. By carefully studying the composition of Spanish narratives and their underlying sources, Julien provides an informed and convincing reading of these complex texts. By disentangling the sources of their meaning, she reaches across time, language, and cultural barriers to achieve a rewarding understanding of the dynamics of Inca and colonial political history.

is the first of three on Church History and the Doctrine and Covenants. It covers Church history and the revelations in the Doctrine and Covenants from the birth of Joseph Smith in 1805 through the beginnings of the Kirtland and Missouri periods. We learn concerning the First Vision, the coming forth of the Book of Mormon, the restoration of the priesthood, and many early revelations given to individual members of the Church. We study the organization of the Church in 1830 and the migration of the Saints to Kirtland, Ohio, where the law and order of the Church is given, the law of consecration begins, and spiritual gifts are manifested. We also read concerning the early events in Missouri, where the land of Zion is dedicated for the gathering of the Saints. In all, it covers 27 years of Church History, and covers sections 1-99 of the Doctrine and Covenants and the Joseph Smith History in the Pearl of Great Price. The cover features "Young Joseph," a painting of the Prophet Joseph Smith pondering in the Sacred Grove, by Walter Rane. 1805-1832 University of Iowa Press Experiential exercises tap into students'

History Alive! Pursuing American Ideals centers on the five founding ideals from the Declaration of Independence: equality, rights, liberty, opportunity, and democracy. Each generation has struggled

with these ideals. Some have made little progress toward achieving them. Others have made great progress. This book invites students to become engaged in this struggle, from establishing an American republic to the making of modern America. --Website.

The handmaid's tale Routledge

The American Crisis is a collection of articles by Thomas Paine, originally published from December 1776 to December 1783, that focus on rallying Americans during the worst years of the Revolutionary War. Paine used his deistic beliefs to galvanize the revolutionaries, for example by claiming that the British are trying to assume the powers of God and that God would support the American colonists. These articles were so influential that others began to adopt some of their more stirring phrases, catapulting them into the cultural consciousness; for example, the opening line of the first Crisis, which reads "These are the times that try men's souls." This book is part of the Standard Ebooks project, which produces free public domain ebooks.
A Practical Guide to Studying History
Oxford University Press

A much-needed and delightful book. It shows how history can be taught with the meaningful experiences of each child at its centre, making connections between the child, the locality and community, the national and global past and concepts of time. Throughout the authors empower teachers to adopt their philosophy, by showing them how to plan, select resources and strategies and reflect on ideas and case studies. Hilary Cooper, Emeritus professor of history and pedagogy, The University of Cumbria, UK. Bringing History Alive through Local People and Places puts the local environment and community at the heart of history, showing how it can be used as the context for successful history teaching across the primary age range. It considers how to develop children's concepts and skills through local history, how to link local, national and global aspects of history, and helps you develop your own historical knowledge, understanding and confidence in teaching the subject. Practical topics explored include: Investigating children's cultural and geographical roots through fieldwork Finding and visiting local museums,

archives and heritage sights Choosing and using resources Using significant people, events and buildings to link with national history Environmental education and sustainable development through local history Understanding the links between history and everyday life Planning and assessing history. Based on the latest research and practice in the field, *Bringing History Alive through Local People and Places* offers an exciting template of creative ideas and activities to show teachers how they can make history relevant to all children.
