Real Help for the Toughest Talks Most parents dread talking about sex with their children. Anne Marie Miller loves giving "the talk." As she has shared her personal story and talked about God's gift of sex with almost half a million young people, she's noticed some disturbing patterns: · Google is how kids learn about sex · Kids are learning about sex and viewing pornography earlier than parents think · The sexually abused often don't tell anyone for fear of getting in trouble · Sexual messages are being consumed daily through mainstream and social media · Most parents think their child is the exception Instead of sweeping this topic under the rug, Miller wants to change the narrative. In this immensely practical and well-researched book, she equips parents to have meaningful and age-appropriate conversations with their children about sex, pornography, and sexual abuse. She advises parents on how to keep the lines of communication open so that their children know they can trust them with their fears, struggles, and mistakes. Most important, she offers hope to worried parents that their children can grow up with a healthy biblical view of sex as a gift from God.

Modern research is uncovering more and more detail of what our brain is and how it works. We are living, thinking creatures who carry around with us an amazing organic supercomputer in our heads. But what is the relationship between our brains and our minds-and ultimately our sense of identity as a person? Are we more than machines? Is free-will an illusion? Do we have a soul? Brain Imaging Scientist Sharon Dirckx lays out the current understanding of who we are from biologists, philosophers, theologians and psychologists, and points towards a bigger picture that suggests answers to the fundamental questions of our existence. Not just "What am I?", but "Who am I?"- and "Why am I?" Read this book to gain valuable insight into what modern research is telling us about ourselves, or to give a sceptical friend to challenge the idea that we are merely material

beings living in a material world.

The field of copywriting is large and continues to expand every year. A way to describe copywriting is putting a creative message in front of a consumer. In the book, Copywriting, it is mentioned that copywriting is based upon three fundamental principles. When you are writing to a customer, there has to be an involvement between the customer and the seller. You must then make sure that you explain the rewards as far as when the customer is purchasing a product. The final piece is achievement and that is what you as the writer will be focusing on. A magical story about a boy's love for his dying father and his journey to the mythic Train of Lost Things, where beloved lost objects are rescued and protected until they can be returned. Perfect for fans of The Phantom Tollbooth, The Bridge to Terabithia, and Lost in the Sun. Marty cherishes the extra-special birthday present his dad gave him -- a jean jacket on which he's affixed numerous buttons -- because it's a tie to his father, who is sick and doesn't have much time left. So when his jacket goes missing, Marty is devastated. When his dad tells him the story of the Train of Lost Things, a magical train that flies through the air collecting objects lost by kids, Marty is sure that the train must be real, and that if he can just find the train and get his jacket back, he can make his dad better as well. It turns out that the train is real -- and it's gone out of control! Instead of just collecting things that have been accidentally lost, the train has been stealing things. Along with Dina and Star, the girls he meets aboard the train, Marty needs to figure out what's going on and help set it right. As he searches for his jacket, and for a way to fix the train, Marty begins to wonder whether he's looking for the right things after all. And he realizes that sometimes you need to escape reality in order to let it sink in. In this achingly beautiful adventure, it is the power of memories, and the love between a father and son, that ultimately save the day. Praise for The Train of Lost Things: "Paquette writes with compassion and a childlike sense of belief, and Marty's journey--both personal and fantastic--will speak to readers on many levels." --Booklist "Marty's inner dialogue will appeal to readers of Gordon Korman, Jeff Kinney, and Dav Pilkey." --School Library Journal "Marty's pain at the imminent loss of his father is keenly felt, and Paquette deftly balances the emotional weight of his fear and grief with his fantasy journey on a train flying through the universe." --Bulletin of the Center for Children's Books "Kids everywhere can relate to the sorrow of losing a cherished item, giving this narrated adventure story a wide appeal [and] readers will connect with the unconditional love and hope that exists between parent and child." --School Library Connection

"This book will challenge you to rethink your vision of a good life. With sharp insights and lucid prose, Paul Bloom makes a captivating case that pain and suffering are essential to happiness. It's an exhilarating antidote to toxic positivity." —Adam Grant, #1 New York Times bestselling author of Think Again and host of the TED podcast WorkLife From the author of Against Empathy comes a different kind of happiness book, one that shows us how suffering is an essential source of both pleasure and meaning in our lives Why do we so often seek out physical pain and emotional turmoil? We go to movies that make us cry, or scream, or gag. We poke at sores, eat spicy foods, immerse ourselves in hot baths, run marathons. Some of us even seek out pain and humiliation in sexual role-play. Where do these seemingly perverse appetites come from? Drawing on groundbreaking findings from psychology and brain science, The Sweet Spot shows how the right kind of suffering sets the stage for enhanced pleasure. Pain can distract us from our anxieties and help us transcend the self. Choosing to suffer can serve social goals; it can display how tough we are or, conversely, can function as a cry for help. Feelings of fear and sadness are part of the pleasure of immersing ourselves in play and fantasy and can provide certain moral satisfactions. And effort, struggle, and difficulty can, in the right contexts, lead to the joys of mastery and flow. But suffering plays a deeper role as well. We are not natural hedonists—a good life involves more than pleasure. People seek lives of meaning and significance; we aspire to rich relationships and satisfying pursuits, and this requires some amount of struggle, anxiety, and loss. Brilliantly argued, witty, and humane, Paul Bloom shows how a life without chosen suffering would be empty—and worse than that, boring.
