Nonprofit leadership is messy Nonprofits
leaders are optimistic by nature. They
believe with time, energy, smarts,
strategy and sheer will, they can change
the world. But as staff or board leader,
you know nonprofits present unique

challenges. Too many cooks, not enough money, an abundance of passion. It's enough to make you feel overwhelmed and alone. The people you help need you to be successful. But there are so many obstacles: a micromanaging board that doesn't understand its true role; insufficient fundraising and donors who make unreasonable demands; unclear and inconsistent messaging and marketing; a leader who's a star in her sector but a difficult boss... And yet, many nonprofits do thrive. Joan Garry's *Guide to Nonprofit Leadership* will show you how to do just that. Funny, honest, intensely actionable, and based on her decades of experience, this is the book Joan Garry wishes she had when she led GLAAD out of a financial crisis in 1997. Joan will teach you how to: Build a

powerhouse board
 Create an impressive and sustainable fundraising program
 Become seen as a 'workplace of choice'
 Be a compelling public face of your nonprofit
 This book will renew your passion for your mission and organization, and help you make a bigger difference in the world.

MANAGING NONPROFIT ORGANIZATIONS

This essential resource offers an overall understanding of nonprofits based on both the academic literature and practitioner experience. It shows how to lead, manage, govern, and structure effective and ethical nonprofit organizations. *Managing Nonprofit Organizations* reveals what it takes to be entrepreneurial and collaborative, formulate successful strategies, assess performance, manage change, acquire resources, be a responsible financial steward, and design and implement solid marketing and communication plans. "Managing Nonprofit Organizations is the only introductory text on this subject that manages to do three critical things equally well: It's comprehensive, covering all the key topics leaders of

NPOs need to know about; it's practical, providing lots of examples, case incidents, and experiential exercises that connect the content to the real world; and, best of all (and most unique compared to others), it's research-based, drawing on the latest and best empirical studies that look into what works and doesn't work in the world of nonprofit management." —Vic Murray, professor, School of Public Administration, University of Victoria "This book is a rarity—a text that can be used both as the focus for academic study and as a source of stimulating ideas for those practitioners who want to explore theories about management and how they can be applied so they can do a better job. Tschirhart and Bielefeld have explained all aspects of nonprofit

management and leadership in a way that will stimulate as well as inform." —Richard Brewster, executive director, National Center on Nonprofit Enterprise, Virginia Tech University "Managing Nonprofit Organizations presents a comprehensive treatment of this important topic. The book satisfies the competencies and curriculum guidelines developed by NASPAA and by NACC and would be ideal for instruction. The book maintains its commitment to informing management and leadership throughout the nonprofit sector." —Jeffrey L. Brudney, Albert A. Levin Chair of Urban Studies and Public Service, Cleveland State University "This is an important book, written by two of the leading scholars in the nonprofit studies field. Nonprofit managers, board members,

fundors, educators, and others will find *Managing Nonprofit Organizations* extremely valuable." —Michael O' Neill, professor of nonprofit management, University of San Francisco "Here's the book that my students have been asking for—just the right mix of theory presentation, research findings, and practical suggestions to serve the thoughtful nonprofit management practitioner. It will inform, instruct, and ultimately, inspire." —Rikki Abzug, professor of management, Anisfield School of Business, Ramapo College *Improving Leadership in Nonprofit Organizations* AMACOM/American Management Association "Working from research conducted over six years with hundreds of charities and donors, 'Donor-Centered Fundraising'

paints a candid picture of why donors stop giving to charities they once supported, and what it will take to preserve their loyalty in the future. In clear language and backed by statistical evidence, Penelope Burk explores the pitfalls of our traditional approaches to donor communication and recognition and articulates what donors want but seldom get from the charities they support. The book features straightforward and accessible calculations that show how much money charities are failing to raise, and offers a step-by-step procedure for testing a donor-centered alternative and gaining its acceptance in any organization."-- From publisher description.

A Complete and Practical Guide for Leaders and Professionals John Wiley & Sons

In an environment of increased interdependency and collaborations among non-profits, for-profits, and governmental organizations, researchers and practitioners have begun to identify the need for a distinctive set of values, skills, and competencies for effective non-profit management. Underlining the relationship between these two sectors, *Effective Non-Profit Management: Context, Concepts, and Competencies* clarifies the emerging links between the public and non-profit sectors at the local, national, and global levels. Each chapter concludes with a discussion of a recent issue and a case study. They include discussion questions, a listing of Web

The introductory chapter discusses non-profit organizations, their phenomenal growth, the different categories of non-profits, and the scope and significance of this sector. The second chapter focuses on explaining the linkages among non-profits, for-profits, and government organizations. The next couple of chapters provide a detailed discussion of essential non-profit law, non-profit governance, human resource management, resource acquisition and management, marketing, technology, nongovernmental organizations (NGOs), and effectiveness. Discussing four major developments in the non-profit environment that have implications for the future of this sector, the book:

Nonprofit organizations need smart, informed managers. This comprehensive introductory textbook aims to expose students to the range of responsibilities expected from modern nonprofit organizations and their boards, executive management, frontline staff, and community volunteers. Section 1

focuses on the characteristics of a nonprofit organization, with an explanation of the specific attributes of both charitable and member-serving nonprofits. It considers the historical development of the nonprofit sector as a whole and of the human services subsector in particular, culminating with a review of the political and economic climate in which nonprofits operate. Section 2 considers theories of leadership. The multiple roles of the nonprofit professional leader are delineated, to recognize that the same person may serve as manager and administrator, motivated by different priorities when functioning in each capacity. Ethical issues are also considered, along with the theoretical and practical aspects of decision-

making, and the relationship between organizational culture and organizational change. Sections 3 and 4 address the specific skills of the nonprofit leader involved in securing material resources and managing human resources, respectively. The book concludes with a focus on the role of volunteers and the need for organizations to provide them good experiences if they want volunteers to keep coming back. Featuring an extended case study, this book is a useful guide for students and professionals new to the workplace on topics such as successfully managing change, strengthening programs, nurturing a dynamic board of directors, diversifying revenues, and building a strong, committed staff and volunteer corps.
