Ann Charters has an acute sense of which stories work most effectively in the classroom and knows that writers, not editors, have the most interesting and useful things to say about the making and the meaning of fiction. For those who want a smaller, less expensive anthology, the compact edition of *The Story and Its Writer* is the most comprehensive, diverse — the best-selling — introduction to fiction available, notable for its student appeal as well as its quality and range. To complement the stories, Charters includes her lasting innovation: an array of the writers'

own commentaries on the craft and traditions of fiction. For in-depth, illustrated studies of particular writers, her Casebooks provide unparalleled opportunities for discussion and writing. For a shorter, more affordable option, the compact edition offers all the editorial features of the full edition with about half the stories and commentaries.

Responding to the "increasing mobility of texts," MLA now encourages writers to focus on the process of crafting the citation, beginning with the same

Literature: The Human Experience, Shorter Edition The
Floating Press

Over his long and distinguished teaching career, whenever Edgar Roberts taught literature and composition he dedicated a substantial amount of his class time to explaining to students how they should go about effectively completing their writing assignments. He found that, the more time he spent demonstrating how to write clearly, strategically, and persuasively about literary works, the better the students' final essays were. Over the years, he tried and tested hundreds of assignments on hundreds of literary works in his own classes and came up with many valuable suggestions for how to improve students' ability to write about literature. To enable him to share his experience and his successful teaching strategies, Professor Roberts attempted to create his ideal resource for literature and composition classrooms; it had to include both a rich anthology of diverse classic and contemporary works and a thorough, practical presentation of writing skills and strategies to use in analyzing these works. *Literature: An Introduction to Reading and Writing, Compact Sixth Edition* is founded on these principles of writing about literature. First, students should learn how to engage deeply and critically with a broad selection of stories, poems, and plays. Second, the writing process must be carefully and thoroughly integrated into the presentation of all literary genres, elements, and major writers throughout the entire text, not relegated to a single separate chapter or appendix. Complete

coverage of writing about each literary element, "casebooks" that allow for deeper exploration of important writers in each genre, and a total of 53 exemplary student essays and paragraphs with accompanying commentary ensure that students gain a thorough comprehension of the conventions, strategies, and organizational patterns to allow them to think critically about literature and to produce thoughtful and compelling essays, paragraphs, documented research papers, and examination responses.

J. Kennedy and Dana Gioia. Some of the changes to the new edition include conversations between Dana Gioia and celebrated fiction writer Amy Tan, U. S. Poet Laureate Kay Ryan, and contemporary playwright David Ives; the addition of new writers including Naguib Mahfouz, Virginia Woolf, Sherman Alexie, Mary Oliver, Bettie Sellers, and Anne Deavere Smith; and every chapter concludes with a review of key terms for easy reference. The Writing section has been thoroughly updated to reflect MLA's latest guidelines.
