things: the  
cause of  
human  
sorrow, and  
the way to  
become free  
of it."Garrett  
Hardin -  
Thinking

without limits about living ...Garrett James Hardin was an American ecologist who warned of the dangers of human overpopulation. He is most famous for his exposition of the tragedy of the commons, in a 1968 paper of the same title in Science, which called attention to "the damage that innocent actions by individuals can inflict on the environment". He is also known for Hardin's First

Law of Human Ecology: "We can never do merely one thing. Any intrusion into nature has numerous effects, many of which are unpredictable." He is Garrett Hardin - WikipediaSimple Living Trees and Forests : Living within Limits Ecology, Economics and Population Taboos by Garrett Hardin 339 pages, paperback, Oxford University Press, 1993 . Living within Limits makes a forceful case

for dramatically changing the way we live in the world. Discussing the wide range of economic and ecological illusions we use to support our unworkable theories of sustainable population growth and resource consumption, Hardin points out the hard choices that will be thrust upon us. **Hardin - Lifeboat Ethics**  
[Living Within Limits](#)  
[Summary - eNotes.com](#)  
 A prominent biologist, ecological philosopher, and keen student of human population control, Hardin now offers the finest summation of his work to date, with an eloquent

argument for accepting the limits of the earth's resources-- and the hard choices we must make to live within them. In *Living Within Limits*, Hardin focuses on the neglected problem of overpopulation, making a forceful case for dramatically changing the way we live in and manage our world.
