KENT DAPHNE

A Retrospective, 1972-1992 Simon and Schuster
 The first graphic novel from #1 New York Times and USA Today bestseller Marissa Meyer! In her first graphic novel, bestselling author Marissa Meyer extends the world of the Lunar Chronicles with a brand-new, action-packed story about Iko, the android with a heart of (mechanized) gold. When rogue packs of wolf-hybrid soldiers threaten the tenuous peace alliance between Earth and Luna, Iko takes it upon herself to hunt down the soldiers' leader. She is soon working with a handsome royal guard who forces her to question everything she knows about love, loyalty, and her own humanity. With appearances by Cinder, Cress, Scarlet, Winter, and the rest of the Rampion crew, this is a must-have for fans of the bestselling series.

Here's a book that will open your eyes and fascinate you with the many guises of evil in our times. It's also a book that will usefully disturb you, as you find these evil processes at work in your own life. Ultimately, it's a book that will reward your efforts as you look at evil through the eyes of Ian Fleming's James Bond. Like bond, you too might be roused to take on the dragons of evil in our midst. Great for individual reflection or small group study. Includes a complete study guide and other extras to help you quickly spark discussion in your group.

Taschen's inventive layout is effective in presenting the provocative works, words, and biographies of the nearly 100 women artists gathered here. Grosenick, a freelance art historian in Germany, has selected women artists working in Germany, the US, South Africa, Japan, Poland, France, Scandinavia, and Spain, among other countries. The entry for each artist is six pages, with much of the space devoted to good-quality color photos of her work. c. Book News Inc.

The Facts on File Companion to American Drama HarperCollins

"For the last year I've been on the road with a solo performance. Every night another theater, another hotel room. Gradually my dreams became wild, vivid, more and more relentless. Headless singing squirrels, vast empty spaces, bizarre clatterings and invasions. My own dark and private theatre was slowly taking over. I began to draw these dreams literally out of self-defense. I kept the computer drawing tablet next to the bed and tried to capture them in their most raw state. After many months of drawing my dreams I was drawn into the odd language and logic of the images. Often I drew my own head in the foreground. What did that mean? Who's watching who? Often the dreams were alternate versions of the day's events. Sometimes they were heavily charged atmospheres, sensations, emotions. Depictions of bewilderment, ecstasy, weightlessness, abandonment, freedom." Laurie Anderson
Night Life is Laurie Anderson's diary of dreams and their literal recreation as works of art. In her new book Anderson uses the language of dreams to investigate the dream itself. The resulting pieces drawings and text, draw on her work in theater, lyrics and narrative.

Digital Currents explores the growing impact of digital technologies on aesthetic experience and examines the major changes taking place in the role of the artist as social communicator. Margot Lovejoy recounts the early histories of electronic media for art making - video, computer, the internet - in this richly illustrated book. She provides a context for the works of major artists in each media, describes their projects, and discusses the issues and theoretical implications of each to create a foundation for understanding this developing field. *Digital Currents* fills a major gap in our understanding of the relationship between art and technology, and the exciting new cultural conditions we are experiencing. It will be ideal reading for students taking courses in digital art, and also for anyone seeking to understand these new creative forms.

Banned Questions About the Bible Univ. Press of Mississippi

The birth of Jesus has been well chronicled, as have his glorious teachings, acts, and divine sacrifice after his thirtieth birthday. But no one knows about the early life of the Son of God, the missing years -- except Biff, the Messiah's best bud, who has been resurrected to tell the story in the divinely hilarious yet heartfelt work "reminiscent of Vonnegut and Douglas Adams" (Philadelphia Inquirer). Verily, the story Biff has to tell is a miraculous one, filled with remarkable journeys, magic, healings,

kung fu, corpse reanimations, demons, and hot babes. Even the considerable wiles and devotion of the Savior's pal may not be enough to divert Joshua from his tragic destiny. But there's no one who loves Josh more -- except maybe "Maggie," Mary of Magdala -- and Biff isn't about to let his extraordinary pal suffer and ascend without a fight.

Taking seriously Guillaume Apollinaire's wager that twentieth-century poets would one day "mechanize" poetry as modern industry has mechanized the world, Carrie Noland explores poetic attempts to redefine the relationship between subjective expression and mechanical reproduction, high art and the world of things. Noland builds upon close readings to construct a tradition of diverse lyricists--from Arthur Rimbaud, Blaise Cendrars, and René Char to contemporary performance artists Laurie Anderson and Patti Smith--allied in their concern with the nature of subjectivity in an age of mechanical reproduction.

Intriguing and eye-opening interpretations of the most scandalous Bible stories that are puzzling and even shocking, maybe not even worthy of being in the Bible. A serious and sometimes whimsical taking of readers into the most awkward and even repulsive biblical narratives to find answers to the difficult questions facing believers today. Here is an outstanding resource for young adults, Sunday school classes, and quest groups that will provoke real conversations about the Bible and how the faithful should be living their lives. These twenty-eight Bible stories, strictly for adults, would make great sermon material for the pastor who has the courage and wisdom to try. They surely are in the Bible for some important reason. You are warned to approach with caution.

Cancer sucks, death sucks even more. But we humans don't have the power to stop either of them from messing with our lives. They enter our lives whenever and wherever they choose to. Cancer is so common that each one of us have known someone who has dealt with the disease; some of us have lost a loved one to cancer. Common does not always mean simple, and it also does not mean we know everything about it. The diagnosis of cancer, regardless of the disease's curability, is almost always nerve-wracking, even for healthcare providers like the main character of this book who is a veteran nurse. This book is written in first person; the subject is a middle aged woman who had been separated from her boyfriend some thirty years ago and then after three decades when she searches for an oncologist for treatment of an aggressive cancer that she was recently diagnosed, she finds her ex-boyfriend's name and decides to see him. That brings back the memory of their past together, and she starts going through her old diary she had written some thirty years in the past. Part of the story is set in Nepal (from the diary) and the other part is set in the USA (this takes place after her cancer diagnosis). The main character of the story was born with 'Manglik' cosmic influencer, meaning that the planet Mars "mangal Graha" was in such position in the solar system at the time of her birth that it would have strong negative effect on her husband if she married a man who was non-Manlik (a person born at the time when the planet Mars was not in such position.) What happens next changes the lives of the main characters.
