What is steampunk and why are people across the globe eagerly embracing its neo-Victorian aesthetic? Old-fashioned eye goggles, lace corsets, leather vests, brass gears and gadgets, mechanical clocks, the look appears across popular culture, in movies, art, fashion, and literature. But steampunk is both an aesthetic program and a way-of-life and its underlying philosophy is the key to its broad appeal. Steampunk champions a new autonomy for the individual caught up in today's technology-driven society. It expresses optimism for the future but it also delivers a note of caution about our human role in a world of ever more ubiquitous and powerful machines. Thus, despite adopting an aesthetic and lifestyle straight out of the Victorian scientific romance, steampunk addresses significant 21st-century concerns about what lies ahead for humankind. The movement recovers autonomy from prevailing trends even as it challenges us to ask what it is to be human today.

The Moral of the Story: An Introduction to Ethics Business Plus

Following the Pulitzer prize-winning collection *Stag's Leap*, Sharon Olds gives us a stunning book of odes. Opening with the powerful and tender "Ode to the Hymen," Olds addresses and embodies, in this age-old poetic form, many aspects of love and gender and sexual politics in a collection that is centered on the body and its structures and pleasures. The poems extend parts of her narrative as a daughter, mother, wife, lover, friend, and poet of

conscience that will be familiar from earlier collections, each episode and memory burnished by the wisdom and grace and humor of looking back. In such poems as "Ode to My Sister," "Ode of Broken Loyalty," "Ode to My Whiteness," "Blow Job Ode," and "Ode to the Last Thirty-Eight Trees in New York City Visible from This Window," Olds treats us to an intimate examination that, like all her work, is universal, by turns searing and charming in its honesty. From the bodily joys and sorrows of childhood to the deaths of those dearest to us, Olds shapes the world in language that is startlingly fresh, profound in its conclusions, and life-giving for the reader.

Amelia Kurt was different. And she knew it. That didn't stop her from loving her best friend, Annabelle Johnson. They spent an entire summer making love, and growing into what was promising to be the only relationship either ever knew. Then, one day, the unexpected happens. Anna disappears. No reason, no forwarding address, no number. She was simply gone. Eleven years later, Anna returns. Her truth is heartbreaking but it's only the beginning of their journey to recovery.

Guide C: Reference Data contains the basic physical data and calculations which form the crucial part of building services engineer background

reference material. Expanded and updated throughout, the book contains sections on the properties of humid air, water and steam, on heat transfer, the flow of fluids in pipes and ducts, and fuels and combustion, ending with a comprehensive section on units, mathematical and miscellaneous data. There are extensive and easy-to-follow tables and graphs. ·Essential reference tool for all professional building services engineers ·Easy to follow tables and graphs make the data accessible for all professionals ·Provides you with all the necessary data to make informed decisions

First Abbess of Kildare, Special Patroness of Kildare Diocese, and General Patroness of Ireland Springer Science & Business Media

Enacting History is a collection of new essays exploring the world of historical performances. The volume focuses on performances outside the traditional sphere of theatre, among them living history museums, battle reenactments, pageants, renaissance festivals, and adventure-tourism destinations. This volume argues that the recent surge in such performances have raised significant questions about the need for, interest in, and value of such nontraditional theater. Many of these performances claim a greater or lesser degree of historical "accuracy" or "authenticity," and the authors tease out the representational and historiographic issues related to these arguments. How, for instance, are issues of race, ethnicity, and gender dealt with at museums that purport to be accurate windows into the past? How are politics and labor issues handled in local- or state-funded institutions that rely on volunteer performers? How do tourists' expectations shape the choices made by would-be purveyors of the past? Where do matters of taste or censorship enter in when reconciling the archival evidence with a family-friendly mission? Essays in the collection address, among other subjects, reenactments of period cookery and cuisine at a Maryland renaissance festival; the roles of women as represented at Minnesota's premiere living history museum, Historic Fort Snelling; and the Lewis and Clark bicentennial play as cultural commemoration. The editors argue that historical performances like these-regardless of their truth-telling claims-are an important means to communicate, document, and even shape history, and allow for a level of participation and accessibility that is unique to performance. Enacting History is an entertaining and informative account of the public's fascination with acting out and watching history and of the diverse methods of fulfilling this need.

Concepts and Cases, Global Edition Penguin

Now in its eighth edition, *The Moral of the Story* continues to bring understanding to difficult concepts in moral philosophy through storytelling and story analysis. From discussions on Aristotle's virtues and vices to the moral complexities of the *Game of Thrones* series, Rosenstand's work is lively and relatable, providing examples from contemporary film, fiction narratives, and even popular comic strips. The Connect course for this offering includes SmartBook, an adaptive reading and study experience which guides students to master, recall, and apply key concepts while providing automatically-graded assessments. McGraw-Hill Connect® is a subscription-based learning service accessible online through your personal computer or tablet. Choose this option if your instructor will require Connect to be used in the course. Your subscription to Connect includes the following: • SmartBook® - an adaptive digital version of the course textbook that personalizes your reading experience based on how well you are learning the content. • Access to your instructor's homework assignments, quizzes, syllabus, notes, reminders, and other important files for the course. • Progress dashboards that quickly show how you are performing on your assignments and tips for improvement. • The option to purchase (for a small fee) a print version of the book. This binder-ready, loose-leaf version includes free shipping. Complete system requirements to use Connect can be found here: <http://www.mheducation.com/highered/platforms/connect/training-support-students.html>

International Industrial Networks and Industrial Restructuring in Central and Eastern Europe University of Alabama Press

This book is dedicated to Aristid Lindenmayer on the occasion of his 60th birthday on November 17, 1985. Contributions range from mathematics and theoretical computer science to biology. Aristid Lindenmayer introduced language-theoretic models for developmental biology in 1968. Since then the models have been commonly referred to as L systems. Lindenmayer's invention turned out to be one of the most beautiful examples of interdisciplinary science: work in one area (developmental biology) induces most fruitful ideas in other areas (theory of formal languages and automata, and formal power series). As evident from the articles and references in this book, the interest in L systems is continuously growing. For newcomers the first contact with L systems usually happens via the most basic class of L systems, namely, DOL systems. Here "0" stands for zero context between developing cells. It has been a major typographical problem that printers are unable to distinguish between 0 (zero) and 0 (oh). Thus, DOL was almost always printed with "oh" rather than "zero", and also pronounced that way. However, this misunderstanding turned out to be very fortunate. The wrong spelling "DOL" of "DOL" could be read in the suggestive way: DO L. Indeed, hundreds of researchers have followed this suggestion. Some of them appear as contributors to this book. Of the many who could not contribute, we in particular regret the absence of A. Ehrenfeucht, G. Herman and H.A. Maurer whose influence in the theory of L systems has been most significant.

More Food: Road to Survival History Press (SC)

Modern information for ancient remedies! In a time where conventional medical treatments comes with serious side effects its time to look towards a more natural approach with thousands of years of historical backing and current scientific review. Join Dr. Josh Axe, Jordan Rubin, and Ty Bollinger as they team up to show you the astounding and complex nature of essential oils and how they can positively affect your health. Essential oils represent a gentle, supportive approach to healing. There are countless essential oils available to you with a varied host of holistic benefits that it may be hard to know where to begin and which essential oil is right for you. In this pocket guide edition of *Essential Oils, Ancient Medicine* you will learn the chemical compounds and benefits of essential oils as well as how to properly use them. A selection of oils included in this book: Frankincense Wintergreen Sandalwood Roman Chamomile Lemongrass Peppermint Rosemary And many more Pick up this book today and start your healthy healing journey!

The Australian Official Journal of Trademarks Andesite Press

Princess Lu knows that the throne of the Empire of the First Flame rightfully belongs to her. After all, she is the late Emperor's firstborn and has trained for the role all her life. And she can't forget made a promise to shapeshifter Nok, the boy she came to love, to win justice for his now powerless people. But even with an army at her side, Lu will need to face down a major obstacle: the current sitting Empress, her once beloved

younger sister, Min. Princess Min used to live in Lu's shadow. But now she can control a powerful, ancient magic, and she's determined to use it to forge her own path and a strong future for the Empire, even if that means making enemies in court. But Min's magic isn't entirely under her control, and she must learn how to tame it before it consumes her . . . and the entire realm. Lu and Min are set for a confrontation that can't be stopped. But the Empire faces threats greater than their rivalry, and even if they choose to stand together, it could cost them both the throne-or their lives.

The Ford Transit Story Page Publishing Inc

White Van Man' is a larger-than-life presence on Britain's road, but he's no fool. Given the choice, he inevitably opts for a Ford Transit...and indeed he has been doing so, more than for any other van, for the past 45-plus years. Why? Because the Transit better suits the needs of working drivers than anything else around.

Odes McGraw-Hill Education

International Industrial Networks and Industrial Restructuring in Central and Eastern Europe analyses the role of international industrial networks in industrial restructuring and corporate growth in central Europe, Russia and Ukraine. It shows that two distinct patterns of international industrial integration - domestic vs. foreign led modernisations - have developed in these two regions which have significant effects on patterns of growth and integration of these economies. *International Industrial Networks and Industrial Restructuring in Central and Eastern Europe* is based on a number of industry and firm case studies which are analysed and interpreted within the current international business and political economy literature. The publication provides valuable insights to managers and policy-makers who are interested in understanding different strategic options for business activity in Central and East European countries. For the academic reader, it offers a new perspective on international, industrial networks in which theories on strategic management and on industry restructuring and corporate growth are merged into a new view of growth and transformation process.

Visible Repairs for the Perfectly Imperfect Things We Love! Tuttle Publishing

When restoration artist Gretchen Birch discovers the owner of the Mini Maize dollhouse shop dead and covered with miniature boxes, she, with the help of the Phoenix Dollers Club members, must follow the tiny clues to catch a killer.

Recipes and Stories from the Slap Ya Mama Family Knopf

Dark. Powerful. Dangerous James Maxwell is one of the billionaire elites who rules Las Vegas City with an iron fist. This is his story. My name is Mia Donovan, a twenty-two-year-old, small-town girl who has signed a contract with the billionaire in exchange for my brother's freedom and protection. My world has changed—both for better and worse. James Maxwell is the man behind this. I'm fascinated, mesmerized by this charm that binds me to him, entrapping me in his embrace. I've fallen in love with him, which hurts because it is unrequited. What's worse, my life is at risk because I'm too close to the powerful man who has too many enemies. And so our story continues... *Entwined with You* contains *Chained to You: Volumes 3 & 4* of the *Chained to You* serial. *Vegas Billionaires Series: 1 - Chained to You [James and Mia Book 1] 2 - Entwined with You [James and Mia Book 2] 3 - Loved by You [James and Mia Book 3] 4 - Chained by Love [William and Savannah]* Keywords: romance ebook, sexy romance, steamy contemporary romance, steamy romance, steamy billionaire romance, sexy billionaire romance

Advances in Plant Microbiome and Sustainable Agriculture Cambridge University Press

More Food: Road to Survival is a comprehensive analysis of agricultural improvements which can be achieved through scientific methods. This reference book gives information about strategies for increasing plant productivity, comparisons of agricultural models, the role of epigenetic events on crop production, yield enhancing physiological events (photosynthesis, germination, seedling emergence, seed properties, etc.), tools enabling efficient exploration of genetic variability, domestication of new species, the detection or induction of drought resistance and apomixes and plant breeding enhancement (through molecularly assisted breeding, genetic engineering, genome editing and next generation sequencing). The book concludes with a case study for the improvement of small grain cereals. Readers will gain an understanding of the biotechnological tools and concepts central to sustainable agriculture *More Food: Road to Survival* is, therefore, an ideal reference for agriculture students and researchers as well as professionals involved sustainability studies.

Volkswagen Beetle, Karmann Ghia Official Service Manual, Type 1 Destiny Image Publishers

Microbes are ubiquitous in nature, and plant-microbe interactions are a key strategy for colonizing diverse habitats. The plant microbiome (epiphytic, endophytic and rhizospheric) plays an important role in plant growth and development and soil health. Further, rhizospheric soil is a valuable natural resource, hosting hotspots of microbes, and is vital in the maintenance of global nutrient balance and ecosystem function. The term endophytic microbes refers to those microorganisms that colonize the interior of the plants. The phyllosphere is a common niche for synergism between microbes and plants and includes the leaf surface. The diverse group of microbes are key components of soil-plant systems, and where they are engaged in an extensive network of interactions in the rhizosphere/endophytic/phyllospheric they have emerged as an important and promising tool for sustainable agriculture. Plant microbiomes help to directly or indirectly promote plant growth using plant growth promoting attributes, and could potentially be used as biofertilizers/bioinoculants in place of chemical fertilizers. This book allows readers to gain an understanding of microbial diversity associated with plant systems and their role in plant growth, and soil health. Offering an overview of the state of the art in plant microbiomes and their potential biotechnological applications in agriculture and allied sectors, it is a valuable resource for scientists, researchers and students in the field of microbiology, biotechnology, agriculture, molecular biology, environmental biology and related subjects.

Enacting History Pearson College Division

Japan's greatest seer, the blind prophet Hinoto, has foretold the end of the world. At the center of her prophecy is a young man named Kamui Shiro, who possesses startling psychic powers. Although Kamui's future seems to have been predetermined from his birth, he has a choice--save the earth, or destroy it.

Buttons the Basset Gollancz

Most people know that there are 70 million Baby Boomers in America today....but what is less known is that there are approximately 100 million people in America between the ages of 16 and 30. This generation has just entered, or will soon be entering the work force. And they have no idea how to invest, save, or handle their money. Young people today come out of school having had little or no formal education on the basics of money management. Many have large debts from student loans looming over their heads. And many feel confused and powerless when their pricey educations don't translate into high paying jobs. They feel that their \$30,000-\$40,000 salary is too meager to bother with investing, and they

constantly fear that there will be "too much month left at the end of their money." Douglas R. Andrew has shown the parents of this generation a different pathway to financial freedom. Now Doug and his sons, Emron and Aaron - both of whom are in their mid-20s - show the under-30 crowd how they can break from traditional 401k investment plans and instead can find a better way by investing in real estate, budgeting effectively, avoiding unnecessary taxes and using life insurance to create tax-free income. With the principles outlined in Millionaire by Thirty, recent graduates will be earning enough interest on their savings to meet their basic living expenses by the time they're 30. And by the time they're 35, their investments will be earning more money than they are, guaranteeing them a happy, wealthy future.
