The Study Text has been reviewed by the examiner and takes account of their advice on approaching the paper. Ethics, which have an impact on all aspects of financial reporting, are introduced at an early stage, as is corporate social responsibility. The accounting standards coverage combines revision with extension into more advanced areas. Later, more advanced consolidation topics are covered. Current issues are reflected throughout and also summarised in their

own chapter. The question bank contains practice at the case study-style question you will encounter in the real exam. The Study Text is suitable for both International and UK streams. Additional topics relating to the UK are covered in an online supplement.

Building a Sustainable World through Mass  
Collaboration John Wiley & Sons

Open innovation enabled through crowdsourcing is one of the hottest topics in management strategy today. Particularly striking – and of vital importance to the world – are the pioneering efforts to apply crowdsourcing technology and open innovation to solve social, environmental, and economic sustainability challenges. CrowdRising sets out these challenges as context and then highlights the experiences of leaders and

early adopters, identifies implementation guidelines, critical success factors and lessons learned, and finally projects where the field is going in the future. With a strong focus on the applications of crowdsourcing for innovation, engagement, and market intelligence, the book profiles the initiatives of companies, NGOs, and technology providers using crowdsourcing to develop these solutions to global problems. It addresses the key challenges impacting organizations: 1) identifying more sustainable ways to design, distribute, transport, recycle, and repurpose products; and 2) discovering and implementing the systems needed to transform global economic growth, drive human prosperity, and replenish the planet's resources.
