In 1967, after a twin baby boy suffered a botched circumcision, his family agreed to a radical treatment that would alter his gender. The case would become one of the most famous in modern medicine—and a total failure. As Nature

Made Him tells the extraordinary story of David Reimer, who, when finally informed of his medical history, made the decision to live as a male. A macabre tale of medical arrogance, it is first and foremost a human drama of one man's—and one family's—amazing survival in the face of terrible odds.

To millions, he was the rebellious Man in Black, the unabashed patriot, the redeemed Christian—the king of country music. But Johnny Cash (1932-2003) was

also an uncertain country boy whose dreams were born in the cotton fields of Arkansas and who struggled his entire life with a guilt-ridden childhood, addictions, and self-doubt. *Johnny Cash: The Biography* explores many often overlooked aspects of the legend's life and career, uncovering the origins of his songwriting and trademark boom-chicka-boom rhythm and delving into the details of his personal life, including his drug dependency, which dogged him long after many thought he'd beaten it. Scrupulously researched, passionately told, *Johnny Cash: The Biography* is the unforgettable portrait of an enduring American icon.

theories in twentieth-century African literature.

The Battlefield Vintage

This collection of 30 unintentionally kitsch postcards from yesteryear contains classic adverts, information announcements, and army, navy, and air force recruitment posters that are perhaps hiding a deeper meaning.

Army Camp Alfred a Knopf Incorporated Poetry criticism is a subject central to the study of literature. However, it is laden with technical terms that, to the beginning student, can be both intimidating and confusing. Philip Hobsbaum provides a welcome remedy, illuminating terms ranging from the iambus to the bob-wheel stanza, and forms from the Spenserian sonnet to modern 'rap', with clarity and comprehensiveness. It is an essential guide through the terminology which will be invaluable reading for undergraduates new to the subject.
