When NBA Jam dunked its way into arcades in 1993, players discovered just how fun basketball can be when freed from rules, refs, and gravity itself. But just a few years after the billion-dollar hit conquered the world, developer Midway, publisher Acclaim, and video arcades themselves fell off the map. How did a simple two-on-two basketball game become MVP of the arcade, and how did this champ lose its title? Journalist Reyan Ali dives deep into the saga, tracking the people and decisions that shaped the series. You'll get to know mischievous Jam architect Mark Turmell, go inside Midway's Chicago office where hungry young talent tapped into cutting-edge tech, and explore the sequels, spin-offs, and tributes that came in the game's wake. Built out of exhaustive research and original interviews with a star-studded cast—including Turmell and his original development team, iconic commentator Tim Kitzrow, businessmen and developers at Midway and Acclaim alike, secret characters George Clinton and DJ Jazzy Jeff, Doom co-creator John Romero, and 1990s NBA demigods Glen Rice and Shaq—Ali's NBA Jam returns you to an era when coin-op was king.

"Jimmy Lee was the best shooter from 15-feet I have ever seen. If he got his shot, he made it. Early, middle, or late in games – it did not matter when. Jimmy had great fundamentals, he worked hard and he shot the ball with great confidence. He was so consistent; if he missed a shot you thought it was an accident. His thoughts and techniques can help anyone improve their free throw shooting" Jim Boeheim – Head Coach at Syracuse University, Naismith Basketball Hall of Fame, Class of 2005; 2008 Olympic Gold Medal, Team USA, 2010 World Championship Gold Medal, Team USA; 2010 Division I Coach of the Year "Jim Lee and I were contemporaries at Syracuse. He played in the games – I talked about them. I remember him as a clutch shooter (in the 1975

NCAA Tournament, his 18-footer with 3 seconds left upset North Carolina, and paved the way for Syracuse's first trip to the Final Four). Since Jimmy was pretty close to automatic from the foul line, just about every player, at every level, can benefit from his advice and proven approach." Bob Costas – NBC Sports "This is a rare book, because Jim is able to weave together invaluable skills instruction with a very personal and informative story about his relationships with teammates, coaches, and most importantly his family. Jim's father, as both a veteran and a person with disabilities, clearly served as an exemplar for Jim with regard to how he approached basketball – and how he approached life. This is clearly illustrated by the fact that Jim has committed to leverage the proceeds from sales of this book to improve the lives of this generation of veterans with disabilities. On so many levels, Jim's book is powerfully positioned to impart lessons about basketball and life that are meaningful and timeless." Mike Haynie, PhD – Executive Director, Institute for Veterans and Military Families, Syracuse University; Barnes Professor of Entrepreneurship, Whitman School of Management, Syracuse University "Fifteen Feet For Free is an easy read for all ages. It can be very helpful for kids just beginning their basketball days, and I can see a great benefit for more experienced players. The fundamental instructions in this book can easily improve a player's free throw percentage." Morgan Wooten – 1,274 wins as Head Basketball Coach at DeMatha HS; Naismith Basketball Hall of Fame, Class of 2000; National Coach of the 20th Century; Four-time recipient of National Coach of the Year; 10-time recipient of Coach of the Year in the Washington D.C. Area "The fundamentals of great free throw shooting are in complete alignment with the values of practice, repetition, goal setting, and mental calm that successful business people employ. Jim gets this and writes about it in an amazingly real and compelling way." Mike Perlis – President and CEO, Forbes Media [Feeding the Dragon](#) Triumph Books

When speaking to groups of coaches, athletes, fans or talking with representatives of the media, most of the questions Mark

McKown receives are in reference to Karl Malone. The reasons for these questions are obvious. Karl is one of the best athletes to ever play the game of basketball, he is a perennial all star, one of the strongest athletes in professional sport, and he has, without a doubt, the best physique in the NBA. In addition to all these attributes his ability to control his 6'9 265lb body is legendary. Karl gives credit for much of his physical success to his solid work in the weight room, which consists of 70% dumbbell training.

From the New York Times bestselling author of *The Big Bam* A clash of NBA titans. Seven riveting games. One young reporter. Welcome to the 1969 NBA Finals. They don't set up any better than this. The greatest basketball player of all time - Bill Russell - and his juggernaut Boston Celtics, winners of ten (ten!) of the previous twelve NBA championships, squeak through one more playoff run and land in the Finals again. Russell's opponent? The fearsome 7'1" next-generation superstar, Wilt Chamberlain, recently traded to the LA Lakers to form the league's first dream team. Bill Russell and John Havlicek versus Chamberlain, Jerry West and Elgin Baylor. The 1969 Celtics are at the end of their dominance. The 1969 Lakers are unstoppable. Add to the mix one newly minted reporter. Covering the epic series is a wide-eyed young sports writer named Leigh Montville. Years before becoming an award-winning legend himself at *The Boston Globe* and *Sports Illustrated*, twenty-four-year-old Montville is ordered by his editor at the *Globe* to get on a plane to L.A. (first time!) to write about his luminous heroes, the biggest of big men. What follows is a raucous, colorful, joyous account of one of the greatest seven-game series in NBA history. Set against a backdrop of the late sixties, Montville's reporting and

recollections transport readers to a singular time - with rampant racial tension on the streets and on the court, with the emergence of a still relatively small league on its way to becoming a billion-dollar industry, and to an era when newspaper journalism and the written word served as the crucial lifeline between sports and sports fans. And there was basketball - seven breathtaking, see-saw games, highlight-reel moments from an unprecedented cast of future Hall of Famers (including player-coach Russell as the first-ever black head coach in the NBA), coast-to-coast travels and the clack-clack-clack of typewriter keys racing against tight deadlines. *Tall Men, Short Shorts* is a masterpiece of sports journalism with a charming touch of personal memoir. Leigh Montville has crafted his most entertaining book yet, richly enshrining luminous players and moments in a unique American time.

**A Guide to Basketball & Cool** Seven Stories Press

A memoir of hard lessons learned in the racially segregated and sometimes outright racist NBA of the early '60s by celebrated NBA player and the first Black Coach of the Year, Ray Scott. Introduced by Earl "the Pearl" Monroe. "There's a basic insecurity with Black guys my size," Scott writes. "We can't hide and everybody turns to stare when we walk down the street. ... Whites believe that their culture is superior to African-American culture. ... We don't accept many of [their] answers, but we have to live with them." Ray Scott was part of the early wave of Black NBA players like Bill Russell, Wilt Chamberlain, and later Kareem Abdul-Jabbar, who literally changed how the game of professional basketball is played—leading to the tremendously popular financial blockbuster the NBA is today. Scott was a celebrated 6'9" forward/center after being chosen by the Detroit Pistons as the #4 pick of the 1961 NBA draft, and then again after he was named head coach of the Pistons in October 1972, winning Coach of the Year in the spring of 1974—the first black man ever to capture that honor. Scott's is a story of quiet persistence, hard work, and, most of all, respect. He credits the mentorship of NBA player and coach Earl Lloyd, and talks about fellow Philly native Wilt Chamberlain and friends Muhammad Ali and Aretha Franklin, among many others. Ray has lived through one of the most turbulent times in our nation's history, especially the time of assassinations of so many Black leaders at the end of the 1960s. Through it all, his voice remains quiet and measured,

transcending all the sorrows with his steadiness and positive attitude. This is his story, told in collaboration with the great basketball writer, former college player and CBA coach Charley Rosen.

A multi-generational family epic detailing history's only known journey from Auschwitz to the NBA When Lily and Alex entered a packed gymnasium in Queens, New York in 1972, they barely recognized their son. The boy who escaped to America with them, who was bullied as he struggled to learn English and cope with family tragedy, was now a young man who had discovered and secretly honed his basketball talent on the outdoor courts of New York City. That young man was Ernie Grunfeld, who would go on to win an Olympic gold medal and reach previously unimaginable heights as an NBA player and executive. In *By the Grace of the Game*, Dan Grunfeld, once a basketball standout himself at Stanford University, shares the remarkable story of his family, a delicately interwoven narrative that doesn't lack in heartbreak yet remains as deeply nourishing as his grandmother's Hungarian cooking, so lovingly described. The true improbability of the saga lies in the discovery of a game that unknowingly held the power to heal wounds, build bridges, and tie together a fractured Jewish family. If the magnitude of an American dream is measured by the intensity of the nightmare that came before and the heights of the triumph achieved after, then *By the Grace of the Game* recounts an American dream story of unprecedented scale. From the grips of the Nazis to the top of the Olympic podium, from the cheap seats to center stage at Madison Square Garden, from yellow stars to silver spoons, this complex tale traverses the spectrum of the human experience to detail how perseverance, love, and legacy can survive through generations, carried on the shoulders of a simple and beautiful game.

More than simply an up-to-date review of ionic polymerization, this book presents an in-depth and critical comparison of the anionic and cationic polymerization of vinyl monomers and heterocyclic compounds. These different modes of ionic polymerization are examined with regard to their capacity for producing living polymers. The concept of living polymers is re-examined and redefined in light of current knowledge of ionic

polymerization and possible side reactions. Throughout, the authors offer perceptive insights into the basic concepts of polymerization chemistry and polymerization reaction mechanisms. The book begins with a review of ionic and radical polymerizations, the development of ionic polymerization, living and dormant polymers, and polymerizability. It goes on to consider important aspects of the structure and properties of ionic species; initiation and propagation of ionic polymerization; polymerization steps other than initiation or propagation, such as termination, isomerization, transfer, backbiting, and degradation; and ionic copolymerization. Ionic Polymerization and Living Polymers is a much needed advanced text that will be widely read and referred to by polymer scientists, macromolecular chemists, and materials scientists.
