General Augustus Bron, Commander of the Traoian Iron Guard, has never approved of the practice of capturing human women and training them to serve the rich and powerful of his world. He knows, however, that success in politics is all but impossible without the social status granted by ownership of a human pet, and with his planet in desperate need of new leadership he sees little choice but to obtain one for himself. When she pieces together a connection between five missing women, reporter Phaedra Ellis knows she is onto something big, but before she can go public with her story she is taken from her apartment in the middle of the night and brought to a facility unlike anything she has ever seen before. To her shock, Phaedra is informed that she is no longer on Earth, and more disturbing still, she is now the property of a huge, powerful alien warrior who will not hesitate to bare her bottom and spank her soundly should she dare to disobey him. After an intimate, deeply humiliating medical examination confirms her suitability as a pet, Bron begins Phaedra's training. Though taming her will require a firm hand and punishments much more shameful than a mere spanking may be necessary from time to time, he has no doubt that he is up to the task. But despite his efforts to remain stoic, his beautiful little human has soon claimed a place in his heart. When Bron's enemies seek to use his growing love for Phaedra against him, can the battle-hardened soldier find a way to protect both his planet and his pet? Publisher's Note: *The Alien's Captive* is an erotic romance novel that includes spankings, sexual scenes, medical play, elements of BDSM, and more. If such material offends you, please don't buy this book.

Alien Blood Wars: Part One Simon and Schuster

When a distant planet's ownership is in dispute, conquering aliens turn defiant human males into pampered sex slaves. Wen, a Travian cadet on his first mission, stumbles upon a secret settlement of humans and Travians on New World Colony Seven. Affable by nature, he's still recovering emotionally from his

traitorous lover's near-fatal beating. When faced with the terrible decision to put himself back in the control of a powerful male, he chooses the imposing human who raises both his fear and his interest. Jonathan Dax is a first generation space child from New World Colony One. Against his better judgment, he has become the liaison for the settlement. He doesn't trust Travians, including the fetching youth who kneels before him, begging to become his &'boy'. The idea of becoming anyone's master is repugnant. He hates the way Travians have claimed human boys as &'pets' and is loath to mimic their ways, yet, he cannot deny that Wen appeals to him. At first, both Dax and Wen consider what they do in the privacy of Dax's quarters a form of duty and no more. But the intensity of the pleasure and the emotions they share are impossible to ignore. They must each overcome their past and prejudices to form a real bond. Within the bucolic settlement, however, sinister forces are at work, and they threaten to destroy Wen and Dax's budding relationship.

I met an alien. He is mind-scorchingly hot. I actually think I am falling for him. One problem...he is my alien slave master and I am trying to escape. Carissal've never known Earth. Or freedom. Both were taken from me when I was too young to remember. But I know exactly what the latest alien scumbags to buy me have in mind, the moment I hear the word "fertile." Desperation's the mother of invention, and one easily seduced guard later, I'm escaping to finally live on my own terms. To find my mom, my one connection to a planet I'll probably never see. The only person who's ever given a damn about me. It's all that keeps me going. The source of every last drop of energy I eke out of this miserable existence, when I have so many reasons to just give up and fade away. Like my crap luck. Reason infinity why I should just pop out the airlock of my stolen ship and say "Sayonara universe, PS you suck." My first escape attempt that's ever resulted in an actual escape, and I run smack into one of the most infamous dragon shapeshifters in the galaxy. But I haven't come this far

just to give up. I escaped once, I can do it again. And no smug, self-impressed alien edgelord is going to stop me. Even if he is so mind scorchingly hot it makes my brain bleed to think of choosing to deprive myself of the eye candy. The universe had years to try and keep me down. You think one little dragon's gonna do any better? Fine. One really big dragon. Whatever. Bring it. Tarion We dragons are a simple people, with simple philosophies. Like why ask for something you can simply take? The rest of the galaxy tends to be too busy fleeing from us in terror to answer that, so I assume they agree. Until Carissa Maeberry. The most baffling creature in existence, she doesn't seem to get how this works. I have claws. Fire. A ruthless crew. She has an admittedly tragic backstory and a slave collar. The scales aren't exactly balanced. And yet to see her defiance, you'd think she held all the cards. It's absurd and breath-taking all at once. Which is why when others try and take my rarest of treasures from me, I must protest. Vigorously. I did mention the claws and fire and ruthless crew, did I not? This 50,000 word sci-fi romance has all the action and adventure you could ask for, both in battle and in bed. Please be eighteen and up when reading how this beauty tames her savage beast...or is it the other way around?
