*Rip It Up and Start Again* Macmillan  
Feeding Back: Conversations with Rock's  
Alternative Guitarists from Proto-Punk to  
Post-Rock offers a counter-history of rock  
music through the lens of interviews with  
musicians including Richard Thompson, J  
Mascis, James Williamson, Bob Mould, Tom

Verlaine, Lydia Lunch, Lee Ranaldo, Johnny  
Marr, and John Frusciante. Individually, the  
book's in-depth discussions explore these  
subjects' ideas and innovations; taken  
together they document an alternative-  
guitar tradition with roots in free jazz,  
punk, avant-garde, folk, and garage-rock  
styles. Of all the conversations in Feeding  
Back the most compelling is the one  
among the guitarists themselves, the way  
they both influence and respond to each  
other while redefining the instrument and

the rock genre. From the proto-punk of the  
Stooges to the post-punk of Sonic Youth,  
from the &“Krautrock&” of Neu! to the  
post-rock of Tortoise, the book charts this  
alternative thread as it makes its way  
through rock guitar from the late &’60s to  
the present. David Todd is an assistant  
professor of English at Otterbein University  
in Columbus, Ohio. As a playwright, his  
work has been presented in New York, DC,  
Portland, Chicago, and other cities around  
the U.S. His nonfiction articles have

appeared in *The Villager*, *Downtown Express*, and *Chelsea Now*.

**Electric Eden** Serpent's Tail

Until his death aged thirty-three in 1982, Lester Bangs wrote wired, rock 'n' roll pieces on Iggy Pop, The Clash, John Lennon, Kraftwerk, Lou Reed. As a rock critic, he had an eagle-eye for distinguishing the pre-packaged imitation from the real thing; written in a conversational, wisecracking, erotically charged style, his hallucinatory hagiographies and excoriating take-downs reveal an iconoclast unafraid to tell it like it is. To his journalism he brought the talent of a great a renegade Beat poet, and his essays, reviews and scattered notes convey the electric thrill of a music junky indulging the habit of a lifetime. As Greil Marcus writes in his introduction, 'What this book demands from a reader is a willingness to accept that the best writer in America could write almost nothing but record reviews.'

*Unearthing Britain's Visionary Music*

Bloomsbury Publishing USA

In *Psychedelia and Other Colours*, acclaimed author Rob Chapman explores in crystalline detail the history, precedents and cultural impact of LSD, from the earliest experiments in painting with light and immersive environments to the thriving avant-garde scene that existed in San Francisco even before the Grateful Dead and the Fillmore Auditorium. In the UK, he documents an entirely different history, and one that has never been told before. It has its roots in fairy tales and fairgrounds, the music hall and the dead of Flanders fields, in the Festival of Britain and that peculiarly British strand of surrealism that culminated in the *Magical Mystery Tour*. *Sitars and Sergeant Pepper*, *surfadelica* and the *Soft Machine*, light shows and love-ins - the mind-expanding effects of acid were to redefine popular culture as we know it. *Psychedelia and Other Colours* documents these utopian reverberations - and the dark side of their moon - in a perfect portrait.

*The Work of a Legendary Critic:*

*Rock 'N' Roll as Literature and Literature as Rock 'N' Roll* Faber & Faber

Rip It Up and Start Again is the first book-length exploration of the wildly adventurous music created in the years after punk. Renowned music journalist Simon Reynolds celebrates the futurist spirit of such bands as Joy Division, Gang of Four, Talking Heads, and Devo, which resulted in endless innovations in music, lyrics, performance, and style and continued into the early eighties with the video-savvy synth-pop of groups such as Human League, Depeche Mode, and Soft Cell, whose success coincided with the rise of MTV. Full of insight and anecdotes and populated by charismatic characters, Rip It Up and Start Again re-creates the idealism, urgency, and excitement of one of the most important and challenging periods in the history of popular music. Portrait of a Critic as a Young Man Anchor Books

**Ask** Harper Collins

Adele's memoir, *Peter and the Wolves*, recounts her friendship with the late great Peter Laughner, Cleveland's answer to all things underground and punk in the 1970s. Adele and Peter's collaborations appear in Smog Veil's groundbreaking 2019 box set, also available from Amped.

The book is Bertei's intimate recounting of the musical education she received from Laughner; of their complex artistic kinship, and the vivid trajectory of the 'live fast die young' ethos that extinguished the light of a radiant rock and roll heart.

*America's Only Rock 'N' Roll Magazine* U of Minnesota Press

Let It Blurt is the raucous and righteous biography of Lester Bangs (1949-82)--the gonzo journalist, gutter poet, and romantic visionary of rock criticism. No writer on rock 'n' roll ever lived harder or wrote better--more passionately, more compellingly, more penetratingly. He lived the rock 'n' roll lifestyle, guzzling booze and Romilar like water, matching its energy in prose that erupted from the pages of Rolling Stone, Creem, and The Village Voice. Bangs agitated in the seventies for sounds that were harsher, louder, more electric, and more alive, in the course of which he charted and defined the aesthetics of heavy metal and punk. He was treated as a peer by such brash visionaries as Lou Reed, Patti Smith, Richard Hell, Captain Beefheart, The Clash, Debbie Harry, and other luminaries. Let It Blurt is a scrupulously researched

account of Lester Bangs's fascinating (if often tawdry and unappetizing) life story, as well as a window on rock criticism and rock culture in their most turbulent and creative years. It includes a never-before-published piece by Bangs, the hilarious "How to Be a Rock Critic," in which he reveals the secrets of his dubious, freeloading trade.

**Respect Yourself** Beacon Press

When Muddy Waters came to London at the start of the '60s, a kid from Boston called Joe Boyd was his tour manager; when Dylan went electric at the Newport

Festival, Joe Boyd was plugging in his guitar; when the summer of love got going, Joe Boyd was running the coolest club in London, the UFO; when a bunch of club regulars called Pink Floyd recorded their first single, Joe Boyd was the producer; when a young songwriter named Nick Drake wanted to give his demo tape to someone, he chose Joe Boyd. More than any previous '60s music autobiography, Joe Boyd's *White Bicycles* offers the real story of what it was like to be there at the time. His greatest coup is bringing to life the famously elusive figure of Nick Drake - the first time he's been written about by anyone who knew him well. As well as the '60s heavy-hitters, this book also offers wonderfully vivid portraits of a whole host of other musicians: everyone from the great jazzman Coleman Hawkins to the folk diva Sandy Denny, Lonnie Johnson to Eric Clapton, The Incredible String Band to Fairport Convention.
