Climb inside these stunning muscle car drop-tops, straight from the classic era of American high-performance cars! Today's rarest, priciest, and most highly sought-after muscle cars are also the least practical. These are the striking convertibles of the 1960s and 1970s that were optioned out for drag racing. Wide-Open Muscle showcases these rare cars and proves that

sometimes it pays to throw practicality out the window in order to make something purely cool and fun to drive. At the peak of drag racing popularity, it was common knowledge that racers needed the lightest, most rigid-framed cars available. Convertibles represent the exact opposite of that description, so it's amazing that these drop tops ever emerged amid the circle of full-throttle dragsters. While typical convertible drivers cruised around listening to the latest Lovin' Spoonful

release in the eight-track tape deck, these muscle-car convertibles were equipped for rock 'n' roll speed. These topless muscle cars are so rare because few people had the dedication (or money) to buy a vehicle this impractical. They're valuable because they represent the absolute extreme of the entire muscle-car genre. All the cars in *Wide-Open Muscle* are shot in similar fashion, studio-style with a black background using a process known as light painting. It is the ultimate

portrayal of the ultimate muscle cars.

Bibliography of Nautical Books

Throughout America's past, some men have feared the descent of their gender into effeminacy, and turned their eyes to the ring in

hopes of salvation. This work explains how the dominant fight sports in the United States have changed over time in response to broad shifts in American culture and ideals of manhood, and presents a narrative of American history as seen from the bars, gyms, stadiums and living rooms of the heartland. Ordinary Americans were the agents who supported and participated in fight sports and determined its vision of masculinity. This work counters the economic determinism

prevalent in studies of American fight sports, which overemphasize profit as the driving force in the popularization of these sports. The author also disputes previous scholarship's domestic focus, with an appreciation of how American fight sports are connected to the rest of the world.

British Rural Sports, Comprising, Shooting, Hunting, Coursing, Fishing, [etc.].

Offers a unique insight into these growing areas of the tourism industry

looking at their interaction, market profiles, advantages and their effects on the environment. Gayle Jennings, Griffith University, Australia.

The Complete Book of Ford Mustang

The Complete Book of Ford Mustang, 4th Edition details the development, technical specifications, and history of America's original pony car, now
