Sunday Times Crime Club
Brighton, 1957. Inspector
Steine rather enjoys his
life as a policeman by the
sea. No criminals, no
crime, no stress. So it's
really rather annoying
when an ambitious new
constable shows up to
work and starts
investigating a series of
burglaries. And it's even
more annoying when,
after Constable Twitten is
despatched to the theatre

for the night, he sits next
to a vicious theatre critic
who is promptly shot dead
part way through the
opening night of a new
play. It seems Brighton
may be in need of a police
force after all... A
sparkling historical
mystery set in sunny
Sussex by the sea, perfect
for fans of Richard
Osman, Robert Thorogood
and Elly Griffiths.

 Clever side-by-side
 illustrations show how
 punctuation placement
 makes a huge difference
 in the meaning of a
 sentence. Imagine this

without the middle period
 and the comma: "The king
 walked and talked. A half
 hour after, his head was
 cut off." Oh no—a
 beheaded king that can
 still walk and talk! You
 might want to eat a huge
 hot dog, but a huge, hot
 dog would run away
 pretty quickly if you tried
 to take a bite out of him.
 Scenes from all three of

jobs of commas,

 quotation marks, and
 more in this humorous

Cat Out of Hell Berrett-

 The signs of the times are
 missing apostrophes. The
 world needed a hero, but
 how would an editor with
 no off-switch answer the
 call? For Jeff Deck, the
 writing was literally on the
 wall: "NO
 TRESSPASSING." In that

moment, his greater purpose became clear. Dark hordes of typos had descended upon civilization... and only he could wield the marker to defeat them. Recruiting his friend Benjamin and other valiant companions, he created the Typo Eradication Advancement League (TEAL). Armed with markers, chalk, and correction fluid, they circumnavigated America, righting the glaring errors displayed in grocery stores, museums, malls, restaurants, mini-golf courses, beaches, and

even a national park. Jeff and Benjamin championed the cause of clear communication, blogging about their adventures transforming horror into horror, it's into its, and coconut into coconut. But at the Grand Canyon, they took one correction too far: fixing the bad grammar in a fake Native American watchtower. The government charged them with defacing federal property and summoned them to court—with a typo-ridden complaint that claimed

that they had violated “criminal statues.” Now the press turned these paragons of punctuation into “grammar vigilantes,” airing errors about their errant errand.. The radiant dream of TEAL would not fade, though. Beneath all those misspelled words and mislaid apostrophes, Jeff and Benjamin unearthed deeper dilemmas about education, race, history, and how we communicate. Ultimately their typo-hunting journey tells a larger story not just of proper punctuation but

of the power of language and literacy—and the importance of always taking a second look. *The True Deceiver* Little, Brown
 Acclaimed New York Times bestselling author Lynne Truss (Eats, Shoots & Leaves) is back with a mesmerizing and hilarious tale of cats and murder. For people who both love and hate cats comes the tale of Alec Charlesworth, a librarian who finds himself suddenly alone: he's lost his job, his beloved wife has just died. Overcome by grief,

he searches for clues about her disappearance in a file of interviews between a man called "Wiggy" and a cat, Roger. Who speaks to him. It takes a while for Alec to realize he's not gone mad from grief, that the cat is actually speaking to Wiggy . . . and that much of what we fear about cats is true. They do think they're smarter than humans, for one thing. And, well, it seems they are! What's more, they do have nine lives. Or at least this one does - Roger's older than

Methuselah, and his unblinking stare comes from the fact that he's seen it all. And he's got a tale to tell, a tale of shocking local history and dark forces that may link not only the death of Alec's wife, but also several other local deaths. But will the cat help Alec, or is he one of the dark forces? In the deft and comedic hands of mega-bestseller Lynne Truss, the story is as entertaining as it is addictive" (The Sunday Telegraph) - an increasingly suspenseful

and often hysterically funny adventure that will please cat lovers and haters alike. And afterwards, as one critic noted, “You may never look at a cat in quite the same way again” (The Daily Mail).

Usage and Abusage

Eats, Shoots & Leaves Lynne Truss's 'Eats, Shoots and Leaves' injected new life into the long-standing arguments over rights and wrongs in English usage. Now David Crystal brings together his own distinctive style and unique expertise to

provide the first thorough-going assessment of the ongoing debate. With a lively, humorous, and accessible approach, Crystal charts the battles past and present, illustrating the characters and attitudes involved from a wide range of written sources. He combines a chronological survey of key influences in the area of usage with discussion of particular themes such as punctuation, spelling, and pronunciation. And he looks ahead to the future in the context of recent

education policy shifts. A positive and compelling case is made for variation in usage of English based on appropriateness of situation, arguing that 'zero tolerance' in relation to language is a profoundly flawed approach. Crystal offers an original and authoritative counter-argument to the prescriptivist agenda that has been expounded in many accounts of English usage over the years. The Fight for English is the book that everyone concerned with English

usage has been eagerly awaiting.

"Talk to the hand, 'cause the face ain't listening," the saying goes. When did the world stop wanting to hear? When did society become so thoughtless? It's a topic that has been simmering for years, and Lynne Truss says it's now reached the boiling point. Taking on the boorish behavior that for some has become a point of pride, *Talk to the Hand* is

a rallying cry for courtesy. Like *Eats, Shoots & Leaves*, *Talk to the Hand* is not a stuffy guidebook, and is sure to inspire spirited conversation. Why hasn't your nephew ever thanked you for your carefully selected gift? What makes your contractor think it's fine to snub you in the midst of a major renovation? Why do crowds spawn selfishness? What accounts for the appalling treatment you receive in stores (if you're lucky enough to get a clerk's attention at all)? Most

important, what will it take to roll back a culture that applauds those who are disrespectful? In a recent U.S. survey, 79 percent of adults said that lack of courtesy was a serious problem. For anyone who's fed up with the brutality inflicted by modern manners (or lack thereof), *Talk to the Hand* is a colorful call to arms—from the wittiest defender of the civilized world.

Language play includes many punctuation marks in this companion to the *New York Times* #1 bestseller *Eats, Shoots & Leaves!* Commas and apostrophes aren't the only punctuation marks that can cause big trouble if they're put in the wrong place. "Twenty-odd ducks" is an estimate of how many are waddling by, but "twenty odd ducks" would not only be

a big group, but they'd look very strange! Imagine this without the middle period and the comma: "The king walked and talked. A half hour after, his head was cut off." Oh no—a beheaded king that can still walk and talk! Truss and Timmons put hyphens, parentheses, quotation marks, periods, and more in the spotlight, with silly scenes showing how which marks you choose and where you put them can cause hilarious mix-ups.

"A provocative and jaunty romp through the dos and don'ts of writing for the internet" (NYT)--the practical, the playful, and

the politically correct--from BuzzFeed copy chief Emmy Favilla. A World Without "Whom" is Eats, Shoots & Leaves for the internet age, and BuzzFeed global copy chief Emmy Favilla is the witty go-to style guru of webspeak. As language evolves faster than ever before, what is the future of "correct" writing? When Favilla was tasked with creating a style guide for BuzzFeed, she opted for spelling, grammar, and punctuation guidelines that would reflect not only the site's lighthearted

tone, but also how readers actually use language IRL. With wry cleverness and an uncanny intuition for the possibilities of internet-age expression, Favilla makes a case for breaking the rules laid out by Strunk and White: A world without "whom," she argues, is a world with more room for writing that's clear, timely, pleasurable, and politically aware. Featuring priceless emoji strings, sidebars, quizzes, and style debates among the most lovable word

nerds in the digital media world--of which Favilla is queen--A World Without "Whom" is essential for readers and writers of virtually everything: news
