stories with research-based instruction that helps students improve their reading and social studies skills as they discover the past. Every lesson of the textbook is keyed to California content standards and analysis skills. *Discovering French* McDougal Littell/Houghton Mifflin Describes the origin of the Eurocentric global order, which Schmitt dates from the discovery of the New

World, discusses its specific character and its contribution to civilization, analyzes the reasons for its decline at the end of the 19th century, and concludes with prospects for a new world order. It is a reasoned, yet passionate argument in defense of the European achievement, not only in creating the first truly global order of international law, but also in limiting war to conflicts among sovereign

states, which in effect civilized war. *McDougal Littell Discovering French* Orange Groove Books "This is a program that focuses on all 3 modes of communication (interpersonal, presentational, interpretive) and was designed with the Common Core State Standards (CCSS) in mind."-- Amazon/Publisher. The two Workbooks, one for each 26-lesson part, are the students' chief resource and handbook for analysis of the French language and culture that they first encounter in the videos. Each workbook lesson is coordinated with the audio program and reinforces the oral comprehension using images drawn from the video program. New grammatical material is

introduced in clear reference tables and immediately put to work in the oral, aural, and written exercises. The workbooks also contain additional materials for skits, dictées, and writing assignments, as well as review exercises for self-testing. Learning activities in the second edition of the workbooks have been reorganized for greater effectiveness and ease of use. A redesigned

and enlarged workbook index that includes a new series of verb charts has also been provided. *The Nomos of the Earth in the International Law of the Jus Europaeum* University of Chicago Press
