What happens when media and politics become forms of entertainment? As our world begins to look more and more like Orwell's 1984, Neil's Postman's essential guide to the modern media is more relevant than ever. "It's unlikely that Trump has ever read *Amusing Ourselves to Death*, but his ascent would not have surprised Postman." -CNN Originally published in 1985, Neil Postman's groundbreaking polemic about the corrosive effects of television on our politics and public discourse has been hailed as a twenty-first-century book published in the twentieth century. Now, with television joined by more sophisticated electronic media—from the Internet to cell phones to DVDs—it has taken on even greater significance. *Amusing Ourselves to Death* is a prophetic look at what happens when politics, journalism, education, and even religion become subject to the demands of entertainment. It is also a blueprint for regaining control of our media, so that they can serve our highest goals. "A brilliant, powerful, and important book. This is an indictment that

Postman has laid down and, so far as I can see, an irrefutable one." -Jonathan Yardley, *The Washington Post Book World*

Swallowing Stones Walter de Gruyter GmbH & Co KG

A thoroughly entertaining and darkly humorous roundup of history's notorious but often forgotten female con artists and their bold, outrageous scams—by the acclaimed author of *Lady Killers*. From Elizabeth Holmes and Anna Delvey to Frank Abagnale and Charles Ponzi, audacious scams and charismatic scammers continue to intrigue us as a culture. As Tori Telfer reveals in *Confident Women*, the art of the con has a long and venerable tradition, and its female practitioners are some of the best—or worst. In the 1700s in Paris, Jeanne de Saint-Rémy scammed the royal jewelers out of a necklace made from six hundred and forty-seven diamonds by pretending she was best friends with Queen Marie Antoinette. In the mid-1800s, sisters Kate and Maggie Fox began pretending they could speak to spirits and accidentally started a religious movement that

was soon crawling with female con artists. A gal calling herself Loreta Janeta Velasquez claimed to be a soldier and convinced people she worked for the Confederacy—or the Union, depending on who she was talking to. Meanwhile, Cassie Chadwick was forging paperwork and getting banks to loan her upwards of \$40,000 by telling people she was Andrew Carnegie's illegitimate daughter. In the 1900s, a 40something woman named Margaret Lydia Burton embezzled money all over the country and stole upwards of forty prized show dogs, while a few decades later, a teenager named Roxie Ann Rice scammed the entire NFL. And since the death of the Romanovs, women claiming to be Anastasia have been selling their stories to magazines. What about today? Spoiler alert: these "artists" are still conning. *Confident Women* asks the provocative question: Where does chutzpah intersect with a uniquely female pathology—and how were these notorious women able to so spectacularly dupe and swindle their victims?

Tears of a Tiger Vintage Canada

An autobiographical narrative, in which the author describes his experiences in Nazi concentration camps.

Somewhere There Is Still a Sun Scholastic Inc.

When social psychologist Stanley Milgram invited volunteers to take part in an experiment at Yale in the summer of 1961, none of the participants could have foreseen the worldwide sensation that the published results would cause. Milgram reported that fully 65 percent of the volunteers had repeatedly administered electric shocks of increasing strength to a man they believed to be in severe pain, even suffering a life-threatening heart condition, simply because an authority figure had told them to do so. Such behavior was linked to atrocities committed by ordinary people under the Nazi regime and immediately gripped the public imagination. The experiments remain a source of controversy and fascination more than fifty years later. In *Behind the Shock Machine*, psychologist and author Gina Perry unearths for the first time the full story of this controversial experiment and its startling repercussions. Interviewing the original participants—many of whom remain haunted to this day about what they did—and delving deep into Milgram's personal archive, she pieces together a more complex picture and much more troubling picture of these experiments than was originally presented by Milgram. Uncovering the details of the experiments leads her to question the validity of that 65 percent statistic and the claims that it revealed something essential about human nature. Fleshed out with dramatic transcripts of the tests themselves, the book puts a human face on the unwitting people who faced the moral test of the shock machine and offers a gripping, unforgettable tale of one man's ambition and an experiment that defined a generation.

Strength to Love Penguin

The legacy of the Second World War remains unsettled; no consensus has been achieved about its meaning and its lasting impact. This is pre-eminently the case in France, where the experience of defeat and occupation created the grounds for a deeply ambiguous mixture of resistance and collaboration, pride and humiliation, heroism and abjection, which writers and politicians have been trying to disentangle ever since. This book develops a theoretical approach which draws on trauma studies and hermeneutics; and it then focuses on some of the intellectuals who lived through the war and on how their experience and troubled memories of it continue to echo through their later writing, even and especially when it is not the explicit topic. This was an astonishing generation of writers who would go on to play a pivotal role on a global scale in post-war aesthetic and philosophical endeavours. The book proposes close readings of works by some of the most brilliant amongst them: Jean-Paul Sartre, Simone de Beauvoir, Albert Camus, Charlotte Delbo, Paul Ricoeur, Emmanuel Levinas, Louis Althusser, Jorge Semprun, Elie Wiesel, and Sarah Kofman.

Auschwitz and After George Braziller

Since its completion in 1955, Alain Resnais's *Night and Fog* (*Nuit et Brouillard*) has been considered one of the most important films to confront the catastrophe and atrocities of the Nazi era. But was it a film about the Holocaust that failed to recognize the racist genocide? Or was the film not about the Holocaust as we know it today but a political and aesthetic response to what David Rousset, the French political prisoner from Buchenwald, identified on his return in 1945 as the 'concentrationary universe' which, now actualized, might release its totalitarian plague any time and anywhere? What kind of memory does the film create to warn us of the continued presence of this concentrationary universe? This international collection re-examines Resnais's benchmark film in terms of both its political and historical context of representation of the camps and of other instances of the concentrationary in contemporary cinema. Through a range of critical readings, *Concentrationary Cinema* explores the cinematic aesthetics of political resistance not to the Holocaust as such but to the political novelty of absolute power represented by the concentrationary system and its assault on the human condition.

The Warp and Woof of Argumentation Analysis New Press, The

In her acclaimed 1993 book *Denying the Holocaust*, Deborah Lipstadt called putative WWII

historian David Irving "one of the most dangerous spokespersons for Holocaust denial." A prolific author of books on Nazi Germany who has claimed that more people died in Ted Kennedy's car at Chappaquiddick than in the gas chambers at Auschwitz, Irving responded by filing a libel lawsuit in the United Kingdom -- where the burden of proof lies on the defendant, not on the plaintiff. At stake were not only the reputations of two historians but the record of history itself.

From the author of the National Book Award finalist *Black Leopard, Red Wolf* and the WINNER of the 2015 Man Booker Prize for *A Brief History of Seven Killings* "An undeniable success." — The New York Times Book Review A true triumph of voice and storytelling, *The Book of Night Women* rings with both profound authenticity and a distinctly contemporary energy. It is the story of Lilith, born into slavery on a Jamaican sugar plantation at the end of the eighteenth century. Even at her birth, the slave women around her recognize a dark power that they- and she-will come to both revere and fear. The *Night Women*, as they call themselves, have long been plotting a slave revolt, and as Lilith comes of age they see her as the key to their plans. But when she begins to understand her own feelings, desires, and identity, Lilith starts to push at the edges of what is imaginable for the life of a slave woman, and risks becoming the conspiracy's weak link. But the real revelation of the book-the secret to the stirring imagery and insistent prose-is Marlon James himself, a young writer at once breathtakingly daring and wholly in command of his craft.

Translating Holocaust Literature Harper Collins

"This autobiography combines the personal story of Ahn Byung-Mu, one of the foremost Asian theologians, with the history of the Korean nation in the light of the dramatic social, political and cultural upheavals of the 1970s. It records the history of minjung (the people's) theology, one of the vigorous theologies to emerge in Asia, Ahu's involvement in it, and his interpretations of major Christian doctrines such as God, Sin, Jesus, and Holy Spirit from the minjung perspective. The volume also contains an introductory essay which situates Ahn's work in its context and discusses the place and purpose of minjung hermeneutics in a vastly different Korea"--

Interpreting Ethics and Trauma in Twentieth-Century French Writing Frances Lincoln

Traditionally, Christian churches have taught that the validity of Judaism came to an end with the emergence of Christianity. But in the last half-century, many Christians have repudiated this teaching and have affirmed the abiding validity of Judaism. Consequently, they have had to reevaluate Christian self-understanding in relation to Judaism. In *Faith Transformed*, Christian scholars who have been at the forefront of Christian-Jewish relations share how their encounters with Jews and Judaism have transformed their understanding and practice of Christianity. They reveal how their Christian faith has been profoundly enriched by drawing inspiration from the Jewish tradition.

Public Discourse in the Age of Show Business Harper Collins

This volume discusses two distinct perspectives on the analysis of argumentative discourse: the dialectical and the rhetorical perspective. It intends to open a thorough discussion of the two approaches, their commonalities and differences, and the ways in which, in some combination or other, they can be used to further the development of sound analytic tools for dealing with argumentation.

The Book of Joe Oxford University Press

This volume represents the most comprehensive collection ever produced of empirical research on Holocaust education around the world. It comes at a critical time, as the world observes the 70th anniversary of the liberation of Auschwitz. We are now at a turning point, as the generations that witnessed and survived the Shoah are slowly passing on. Governments are charged with ensuring that this defining event of the 20th century takes its rightful place in the schooling and the historical consciousness of their peoples. The policies and practices of Holocaust education around the world are as diverse as the countries that grapple with its history and its meaning. Educators around the globe struggle to reconcile national histories and memories with the international realities of the Holocaust and its implications for the present. These efforts take place at a time when scholarship about the Holocaust itself has made great strides. In this book, these issues are framed by some of the leading voices in the field, including Elie Wiesel and Yehuda Bauer, and then explored by many distinguished scholars who represent a wide range of expertise. Holocaust education is of such significance, so rich in meaning, so powerful in content, and so diverse in

practice that the need for extensive, high-quality empirical research is critical. Th is book provides exactly that.

MachineThe Untold Story of the Notorious Milgram Psychology Experiments

In *Going Solo*, the world's favourite storyteller, Roald Dahl, tells of life as a fighter pilot in Africa. 'They did not think for one moment that they would find anything but a burnt-out fuselage and a charred skeleton, and they were astounded when they came upon my still-breathing body lying in the sand nearby.' In 1938 Roald Dahl was fresh out of school and bound for his first job in Africa, hoping to find adventure far from home. However, he got far more excitement than he bargained for when the outbreak of the Second World War led him to join the RAF. His account of his experiences in Africa, crashing a plane in the Western Desert, rescue and recovery from his horrific injuries in Alexandria, flying a Hurricane as Greece fell to the Germans, and many other daring deeds, recreates a world as bizarre and unnerving as any he wrote about in his fiction. 'Very nearly as grotesque as his fiction. The same compulsive blend of wide-eyed innocence and fascination with danger and horror' Evening Standard 'A non-stop demonstration of expert raconteurship' The New York Times Book Review Roald Dahl, the brilliant and worldwide acclaimed author of *Charlie and the Chocolate Factory*, *James and the Giant Peach*, *Matilda*, and many more classics for children, also wrote scores of short stories for adults. These delightfully disturbing tales have often been filmed and were most recently the inspiration for the West End play, *Roald Dahl's Twisted Tales* by Jeremy Dyson. Roald Dahl's stories continue to make readers shiver today.
