 decreasing function of operating... The relationship between  
 operating leverage and financial ... Investors apply trading  
 strategies that determine the association or relationship between  
 financial leverage and risk. Financial leverage and risk are  
 inherently linked to one another. What Is the Connection between  
 Financial Leverage and Risk? ADVERTISEMENTS: The risk of a firm  
 is influenced by the use of leverage. Incurrence of fixed operating  
 costs in the firm's income stream increases the business risk or

operating risk. It increases the variability of operating income due  
 to change in sales revenue. Similarly, employment of debt in the  
 capital structure increases the financial risk. Relationship between  
 Leverage and Business Risk In general, leverage means affect of  
 one variable over another. In financial management, leverage is  
 not much different, it means change in one element, results in  
 change in profit. It implies, making use of such asset or source of  
 funds like debentures for which the company has to pay fixed  
 cost or financial charges, to get more return. Difference Between  
 Operating Leverage and Financial ... 6) Financial leverage is
