25th Anniversary Edition "A magnificent treasure for all cultures and all time." --St. Petersburg Times It is November 25, 1960, and three beautiful sisters have been found near their wrecked Jeep at the bottom of a 150-foot cliff on the north coast of the Dominican Republic. The official state newspaper reports their deaths as accidental. It does not mention that a fourth sister lives. Nor does it explain that the sisters were among the leading opponents of Gen. Rafael Leónidas Trujillo's dictatorship. It doesn't have to. Everybody knows of Las Mariposas--the Butterflies. In this extraordinary novel, the voices of all four sisters--Minerva, Patria, María Teresa, and the survivor, Dedé--speak across the decades to tell their own stories, from secret crushes to gunrunning, and to describe the everyday horrors of life under Trujillo's rule. Through the art and magic of Julia Alvarez's imagination, the martyred Butterflies live again in this novel of courage and love, and the human costs of political oppression. Julia Alvarez's new novel, *Afterlife*, is available now. *The True Story of an Unwanted Daughter* McGraw Hill Professional Having come from Mexico to California ten years ago, fourteen-year-old Francisco is still working in the fields but fighting to improve his life and complete his education.

The Newbery Honor Book and New York Times Bestseller that is historical fiction with a hint of mystery about living at Alcatraz not as a prisoner, but as a kid meeting some of the most famous criminals in our history. Al Capone Does My Shirts has become an instant classic for all kids to read! Today I moved to Alcatraz, a twelve-acre rock covered with cement, topped with bird turd and surrounded by water. I'm not the only kid who lives here. There are twenty-three other kids who live on the island because their dads work as guards or cooks or doctors or electricians for the prison, like my dad does. And then there are a ton of murderers, rapists, hit men, con men, stickup men, embezzlers, connivers, burglars, kidnappers and maybe even an innocent man or two, though I doubt it. The convicts we have are the kind other prisons don't want. I never knew prisons could be picky, but I guess they can. You get to Alcatraz by being the worst of the worst. Unless you're me. I came here because my mother said I had to. Phasor Methods of AC Circuit Analysis: This book presents a Phasor Tool Box which contains most functions that would be needed to do phasor calculations and enable students to visualize in the phasor diagrams. The tool box is designed in MATLAB and requires students to have minimal scripting background, keeping in mind that these tools will be used by the beginner students in Electrical engineering/Technology programs. This tool box employs object oriented MATLAB programming methods but are transparent to users. Using these tools is as easy as using algebra for adding, subtraction, multiplication, division of phasors, and additionally visualize these operations in the complex plane. It is hoped that introduction of the phasor methods would help in fortifying the conceptual learning. This book is not intended to be a textbook but it can be used as the co-book. This book is aimed at the students who are just beginning circuit analysis in the undergraduate program of engineering/technology and have either working knowledge of MATLAB programming or have worked on the tutorial in Appendix A and D prior to starting on Chapter 1. Code of all Phasor Tool Box functions are given in Appendix E and can also be downloaded (free download) from <https://professorjaigrawal.weebly.com/phasor-methods-in-ac-circuit-analysisfirst-course-in-digital-control.html>

When young Iqbal is sold into slavery at a carpet factory, his arrival changes everything for the other overworked and abused children there. It is Iqbal who explains to them that despite their master's promises, he plans on keeping them as his slaves indefinitely. But it is also Iqbal who inspires the other children to look to a future free from toil...and is brave enough to show them how to get there. This moving fictionalized account of the real Iqbal Masih is told through the voice of Fatima, a young Pakistani girl whose life is changed by Iqbal's courage.
