Moogavani Pillanagrovi (1993) is woven around the near-suicidal

death of a farmer who loses his land. While the period of the plot is around the 1950s, the story revolves around the farmer's ties with his land and his inability to visualize a life without it-an issue relevant even today. The farmer's death could have been forgotten by the village, except for several puzzling incidents that crop up. Myth and reality intertwine to create a folklore around the land and the farmer. This Telugu novella was first published in 1993, during a period when Andhra Pradesh's farmers had begun committing suicide in droves. Many surprising parallels can be drawn to the pressures in agriculture and the farmer in real life and in the novel. This novella introduced what is called (in Telugu literary criticism) as magic realism-mirroring real life and yet making wide departures into the world of lore, mythic representation, and strongly rooted cultural beliefs. Kesava Reddy writes with a strong inflection of his native Rayalaseema

dialect. Breaking the tradition of writing in the standard Telugu form as it is spoken and written by people from the coastal districts of Krishna and Guntur, Kesava Reddy along with several other writers began writing in his native dialect—a bold step at that time. The detail in the novel is striking. Kesava Reddy also broke with Telugu literature (which was didactic at that time) to build on detail and cut down on dialogue. His dialogues are sparse and never interfere with the tempo built up in the story. An Intimate Note to the Sincere Seeker Aslan Business Solutions

If we are to believe in Moore's law, then every passing day brings new and advanced changes to the technology arena. We are amazed by miniaturization of computing devices as we are amused by their speed of computation. Everything seems to be in flux and moving fast. We are also fast moving towards ubiquitous computing. To achieve this kind of computing landscape, new ease and seamless computing user interfaces have to be developed. Believe me, if you mature and have ever program any digital device, you are, like me, looking forward to this brave new computing landscape with anticipation. However, if history is any guide to use, we in information security, and indeed every computing device user young and old, must brace themselves for a future full of problems. As we enter into this world of fast, small and concealable ubiquitous computing devices, we are entering fertile territory for dubious, mischievous, and malicious people. We need to be on guard because, as expected, help will be slow coming because first, well trained and experienced personnel will still be difficult to get and those that will be found will likely be very expensive as the case is today.

An Intimate Note to the Sincere Seeker is a compilation of excerpts of talks by Sri Sri Ravi Shankar in the year 1995 - 1996. While these talks often discuss the state of the world at the time they were written, because they discuss human life on the most basic levels - love, hatred, trust, peace, silence, happiness, they are still valuable today. They give us an insight into this knowledge that is so deeply profound, yet so simple, knowledge that does not just remain in the intellect, but is beautifully and

effortlessly integrated into daily life. Sri Sri avoids lengthy discussions about the deeper philosophy of life, yet his talks reflect these values to their very core. This book documents the history of Tamil cinema, one of the most colossal film industries in the world, and studies the major studios of Madras, the largest outside classical Hollywood in the private sector. It engages with five major studios of Madras—Modern Theatres, AVM, Gemini, Vijaya-Vauhini, and Prasad—through the origins of their founders, and explicates how their history influenced the narratives, genre, and ideology of the canonical films made in Madras studios, arguing for their lasting influence on Tamil cinema. Based on rare primary and secondary materials, and oral history, this book engages with Tamil cinema at the intersection of its industrial, cultural, and socio-political history to argue for its specificity in terms of its aesthetics and its belief in the potential of the medium to mobilize audiences for ideology, politics, and reflexivity.
