unhooked the Cat sensor (under the a/c compressor) that goes directly to the ecm and started the engine- the fan came on at first start-went off and came back on so I know the ecm is receiving at least from the Cat input. When you first start the engine the fan comes on for about 3-5 seconds and goes off and never goes back on. Caterpillar Forum - no engine fan (3490) on 2009-02-20 Replacing the drive belt on a Caterpillar C-12 is a necessary maintenance task to ensure the engine is running smoothly at all times. The belt transmits power from the crankshaft to the components located on the front of the engine. Once the belt has

become frayed, torn or broken, it will require immediate replacement.
