Plan Description Plan 01 Single Seals - Internal Flush Plan 02 Single Seals - No Flush, Large Open Bore Plan 11 Single Seals - By-Pass From Discharge With Orifice Plan 12 Single Seals - By-Pass From Discharge With Filter & Orifice Plan 13 Single Seals - Flush Thru Seal Chamber Thru Orifice To Suction Mechanical Seal Piping Plans Companion Booklet Annex G of the 4th edition is generally reorganized and includes six new piping plans: Plan 03 gives purchasers the option of using the seal chamber's special features to enhance circulation or venting in the machinery. Plan 55 is an externally circulated buffer (unpressurized) fluid for Arrangement 2 seals. Prepare for the 4th Edition of API 682 | John Crane plans 52, 53A, 53B, 53C, 54, 55. Quench Seals. plans 62, 65A, 65B, 66A, 66B. Gas Seals. plans 72, 74, 75, 76. Flowserve recognizes that one of the most effective

ways to achieve long, uninterrupted mechanical seal life is to create a healthy environment around the seal faces. Piping plans help keep mechanical seals running cool and clean, promote safe handling of dangerous fluids, and extend the operational availability of rotating equipment. Mechanical Seal Piping Plans - Flowserve Mechanical Seal Piping Plans. Plan 23 Plan 53B Plan 02 Plan 31 Plan 53C Plan 11 Plan 14 Plan 54 & 55 Plan 13 Plan 52 Plan 21 Plan 32 Plan 53A Plan 41. Mechanical Seal Piping Plans. Single Seals Dual Seals. Plan 62 Plan 65A Plan 72 Plan 74 Plan 75 Plan 76. FTA157eng REV 12-14. Mechanical Seal Piping Plans - Flowserve Corporation API Plans for Mechanical Seals Since they were first formulated, seal piping plans have been maintained and remodeled by the American Petroleum Institute (API). Current plans are based on API 682 and are sorted numerically. In some cases, designated letters are also used to differentiate between plans. API Seal Piping Plans for Mechanical Seals | Momentum Systems or solidifying in external

piping . Advantages: Same concept as Plan 11, without the external piping . Raises the seal chamber pressure . Vents the seal chamber during flooding of horizontal pumps . Disadvantages: The seal chamber is not self-venting in vertical applications . May only be used with clean fluids . MECHANICAL SEAL PIPING PLANS A few simple principles can guide you to the best seal flush plan for your installed mechanical seal, allowing the seal to operate in an environment that generates optimal seal life yet minimizes costs from water usage and product dilution. Today, we'll identify 4 flush piping plans for single mechanical seals and how they work. Selecting a Seal Flush Piping Plan for Your Single ... The exact requirements of clean, cool and lubricating vary with the design and materials of the mechanical seal. For non-optimum conditions, piping plans provide a means of adjusting the seal environment. Since seal piping plans were developed, maintained and revised by the API, it would seem appropriate to include piping plans under the API 682 menu. However, piping plans are

so important that having a dedicated menu seems more appropriate. Piping plans and their names/labels date back to ...Piping Plans | Seal FAQsAPI Piping plans help to ensure good conditions for mechanical seal operation as well as improving safety and pump reliability. Please contact AESSEAL Systems Division for further details. Common types of dual seals are addressed in another article.Common types of pumps mechanical seal piping plans ...Piping plans help keep mechanical seals running cool and clean, promote safe handling of dangerous fluids, and extend the operational

availability of rotating equipment. This reference book provides a concise summary of the most essential piping plans used successfully in today's process plants. Mechanical Seal Piping Plans - A.R. Thomson

In LIDERING we have an extensive range of mechanical seals for all types of pumps: from seals for domestic pumps to seals for process pumps, specific in complex applications in the chemical and petrochemical industry. In addition, we offer a wide range of spare parts compatible with the originals of the main manufacturers of pumps (RMS).
