For all those who have struggled to learn German in the past. For all those who think they're just not a linguist. For all those who don't have the time -- or the inclination -- to sit and study a textbook. This is your chance to have a one-to-one lesson from Paul and his native-speaking German expert, Katharina, and all in your own time. Download the course to your MP3 player and within a few hours you will have learned over 6,000 German words. Importantly, you will also know how to make your new vocabulary work for you. No set phrases, no lists of vocabulary. Just real German at your fingertips. Each course includes: 12 CDs holding over 12 hours of audio an 80-page booklet a DVD demonstrating Paul's method

Have you been trying to learn German and simply can't find the way to expand your vocabulary? Do your teachers recommend you boring textbooks and complicated stories that you don't really understand? Are you looking for a way to learn the language quicker without taking shortcuts? If you answered "Yes!" to at least one of those previous questions, then this book is for you! We've compiled the 2000 Most Common Words in German, a list of terms that will expand your vocabulary to levels previously unseen. Did you know that --

according to an important study -- learning the top two thousand (2000) most frequently used words will enable you to understand up to 84% of all non-fiction and 86.1% of fiction literature and 92.7% of oral speech? Those are amazing stats, and this book will take you even further than those numbers! In this book: A detailed introduction with tips and tricks on how to improve your learning A list of 2000 of the most common words in German and their translations An example sentence for each word - in both German and English Finally, a conclusion to make sure you've learned and supply you with a final list of tips Don't look any further, we've got what you need right here! In fact, we're ready to turn you into a German speaker... are you ready to get involved in becoming one?

Course* Independently Published

"The Red and the Black" is a reflective novel about the rise of poor, intellectually gifted people to High Society. Set in 19th century France it portrays the era after the exile of Napoleon to St. Helena. The influential, sharp epigrams in striking prose, leave reader almost as intrigued by the author's talent as the surprising twists that occur in the arduous love life.

National Best Seller From the best-selling author and Pulitzer Prize winner, a powerful nonfiction debut—an "honest, engaging, and very moving account of a writer searching for herself in words."  
—Kirkus Reviews (starred) In Other Words is a revelation. It is at heart a love

story—of a long and sometimes difficult courtship, and a passion that verges on obsession: that of a writer for another language. For Jhumpa Lahiri, that love was for Italian, which first captivated and capsized her during a trip to Florence after college. Although Lahiri studied Italian for many years afterward, true mastery always eluded her. Seeking full immersion, she decides to move to Rome with her family, for “a trial by fire, a sort of baptism” into a new language and world. There, she begins to read, and to write—initially in her journal—solely in Italian. In *Other Words*, an autobiographical work written in Italian, investigates the process of learning to express oneself in another language, and describes the journey of a writer seeking a new voice. Presented in a dual-language format, this is a wholly original book about exile, linguistic and otherwise, written with an intensity and clarity not seen since Vladimir Nabokov: a startling act of self-reflection and a provocative exploration of belonging and reinvention.

Collins Italian Dictionary Wiley

Includes the latest vocabulary from a wide range of fields, with special features about life and culture in Italy. The clear, easy to read layout with special treatment of complex words ensures the user finds the right translation quickly and easily. The extensive Language in Use section gives real-life examples of how Italian is used in a variety of contexts, including letters, e-mails and text messages; and an up-to-date Business & Finance section is ideal for those who need to use Italian professionally.

*Unlocking French with Paul Noble* John Murray

#1 New York Times Bestseller A personal and urgent examination of Fascism in

the twentieth century and how its legacy shapes today’s world, written by one of the most admired public servants in American history, the first woman to serve as U.S. secretary of state A Fascist, observed Madeleine Albright, “is someone who claims to speak for a whole nation or group, is utterly unconcerned with the rights of others, and is willing to use violence and whatever other means are necessary to achieve the goals he or she might have.” The twentieth century was defined by the clash between democracy and Fascism, a struggle that created uncertainty about the survival of human freedom and left millions dead. Given the horrors of that experience, one might expect the world to reject the spiritual successors to Hitler and Mussolini should they arise in our era. Fascism: A Warning is drawn from Madeleine Albright’s experiences as a child in war-torn Europe and her distinguished career as a diplomat to question that assumption. Fascism, as she shows, not only endured through the twentieth century but now presents a more virulent threat to peace and justice than at any time since the end of World War II. The momentum toward democracy that swept the world when the Berlin Wall fell has gone into reverse. The United States, which historically championed the free world, is led by a president who exacerbates division and heaps scorn on democratic institutions. In many countries, economic, technological, and cultural factors are weakening the political center and empowering the extremes of right and left. Contemporary leaders such as Vladimir Putin and Kim Jong-un are employing many of the tactics used by Fascists in the 1920s and 30s. Fascism: A Warning is a book for our times that is

relevant to all times. Written by someone who not only studied history but helped to shape it, this call to arms teaches us the lessons we must understand and the questions we must answer if we are to save ourselves from repeating the tragic errors of the past.

Do you know what the hardest thing for an Italian learner is? Finding PROPER reading material that they can handle...which is precisely the reason we've written this book! Teachers love giving out tough, expert-level literature to their students, books that present many new problems to the reader and force them to search for words in a dictionary every five minutes -- it's not entertaining, useful or motivating for the student at all, and many soon give up on learning at all! In this book we have compiled 20 easy-to-read, compelling and fun stories that will allow you to expand your vocabulary and give you the tools to improve your grasp of the wonderful Italian tongue. How Italian Short Stories for Beginners works: Each story will involve an important lesson of the tools in the Italian language (Verbs, Adjectives, Past Tense, Giving Directions, and more), involving an interesting and entertaining story with realistic dialogues and day-to-day situations. The summaries follow a synopsis in Italian and in English of what you just read, both to review the lesson and for you to see if you understood what the tale was about. At the end of those summaries, you'll be provided with a list of the most relevant vocabulary involved in the lesson, as well as slang and sayings that you may not have understood at first glance! Finally, you'll be provided with a set of tricky questions in Italian, providing you with the chance to prove that you learned something in the story. Don't worry if you don't know the answer

to any -- we will provide them immediately after, but no cheating! So look no further! Pick up your copy of Italian Short Stories for Beginners and start learning Italian right now!

Italian Short Stories for Beginners Collins

Collins Italian with Paul Noble Collins Italian Living Language Complete Course Did you know that the clitoris has 8000 nerve endings, twice as many as the penis? Here is everything you've wondered about the female orgasm and how to make it happen. A witty, well-researched and revealing guide to giving your lover an orgasm every time. More than just foreplay, Ian Kerner argues that oral sex is the key to a great sex life for both partners. Short sections cover philosophy, technique, step-by-step instructions and detailed anatomical information, essential to both beginners and experienced lovers. 'It's time to close the sex gap and create a level playing field in the exchange of pleasure, and cunnilingus is far more than just a means for achieving this noble end; it's the cornerstone of a new sexual paradigm, one that exuberantly extols a shared experience of pleasure, intimacy, respect and contentment. It's also one of the greatest gifts of love a man can bestow upon a woman.' Ian Kerner *Learn Italian For Kids* John Wiley & Sons Albert Einstein, a Nobel laureate, has changed the world with his research and

theories. He is regarded as the founder of modern physics. Besides 'Relativity', he worked on Photoelectric effect, Brownian motion, Special relativity, and Mass-Energy equivalence ( $E=mc^2$ ). They reformed the views on time, space and matter. Allert Einstein developed the general theory of 'Relativity'. He published 'Relativity: The Special and the General Theory' in German. Its first English translation was published in 1920. The book deals with the special theory of relativity, the general theory of relativity, and the considerations on the universe as a whole The book gives an exact insight into the theory of Relativity. It covers, the system of Coordinates; The Lorentz Transformation; The experiment of Fizeau; Minkowski's four dimensional space; The Gravitational Field; Gaussian Coordinates; The structure of space, and lot many other scientific concepts thus will be highly beneficial to the Readers. A must have book for everyone related to modern physics.
