Shadows of Forgotten Ancestors HarperCollins

Madman, tyrant, animal—history has given Adolf Hitler many names. In *Mein Kampf* (My Struggle), often called the Nazi bible, Hitler describes his life, frustrations, ideals, and dreams. Born to an impoverished couple in a small town in Austria, the young Adolf grew up with the fervent desire to become a painter. The death of his parents and outright rejection from art schools in Vienna forced him into underpaid work as a laborer. During the First World War, Hitler served in the infantry and was decorated for bravery. After the war, he became actively involved with socialist political groups and quickly rose to power, establishing himself as Chairman of the National Socialist German Worker's party. In 1924, Hitler led a coalition of nationalist groups in a bid to overthrow the Bavarian government in Munich. The infamous Munich "Beer-hall putsch" was unsuccessful, and Hitler was arrested. During the nine months he was in prison, an embittered and frustrated Hitler dictated a personal manifesto to his loyal follower Rudolph Hess. He vented his sentiments against communism and the Jewish people in this document, which was to become *Mein Kampf*, the controversial book that is seen as the blue-print for Hitler's political and military campaign. In *Mein Kampf*, Hitler describes his strategy for rebuilding Germany and conquering Europe. It is a glimpse into the mind of a man who destabilized world peace and pursued the genocide now known as the Holocaust.

The third installment in the classic Adam Dalgliesh mystery series, *Unnatural Causes* is another must-read page-turner from bestselling author P.D. James, "the reigning mistress of murder" (Time). Maurice Seton was a famous mystery writer—but no murder he ever invented was more grisly than his own death. When his corpse is found in a drifting dinghy with both hands chopped off at the wrists, ripples of horror spread among his bizarre circle of friends. Now it's up to brilliant Scotland Yard inspector, Adam Dalgliesh, and his extraordinary aunt to uncover the shocking truth behind the writer's death sentence, before the plot takes another murderous turn. *Unnatural Causes* inspired *Cosmopolitan* to fervently hope, "if we're lucky, there will always be an England and there will always be a P.D. James."

America's Forgotten Pandemic Pan Macmillan

A poignant story about the difficulties of leaving everything behind and the friendships that help you get through it. Fleeing war-torn Kosovo, ten-year-old Drita and her family move to America with the dream of living a typical American life. But with this hope comes the struggle to adapt and fit in. How can Drita find her place at school and in her new neighborhood when she doesn't speak any English? Meanwhile, Maxie and her group of fourth-grade friends are popular in their class, and make an effort to ignore Drita. So when their teacher puts Maxie and Drita together for a class project, things get off to a rocky start. But sometimes, when you least expect it, friendship can bloom and overcome even a vast cultural divide.

NATIONAL BESTSELLER • "Exciting and provocative . . . A tour de force of a book that begs to be seen as well as to be read."—The Washington Post Book World World renowned scientist Carl Sagan and acclaimed author Ann Druyan have written a *Roots* for the human species, a lucid and riveting account of how humans got to be the way we are. *Shadows of Forgotten Ancestors* is a thrilling saga that starts with the origin of the Earth. It shows with humor and drama that many of our key traits—self-awareness, technology, family ties, submission to authority, hatred for those a little different from ourselves, reason, and ethics—are rooted in the deep past, and illuminated by our kinship with other animals. Sagan and Druyan conduct a breathtaking journey through space and time, zeroing in on critical turning points in evolutionary history, and tracing the origins of sex, altruism, violence, rape, and dominance. Their book culminates in a stunningly original examination

of the connection between primate and human traits. Astonishing in its scope, brilliant in its insights, and an absolutely compelling read, *Shadows of Forgotten Ancestors* is a triumph of popular science.

NEW YORK TIMES BESTSELLER • REESE'S BOOK CLUB PICK • "Delightful . . . [a] captivating and slyly subversive fictional paean to the real women whose work on the Oxford English Dictionary went largely unheralded."—The New York Times Book Review "A marvelous fiction about the power of language to elevate or repress."—Geraldine Brooks, New York Times bestselling author of *People of the Book* Esme is born into a world of words. Motherless and irrepressibly curious, she spends her childhood in the Scriptorium, an Oxford garden shed in which her father and a team of dedicated lexicographers are collecting words for the very first Oxford English Dictionary. Young Esme's place is beneath the sorting table, unseen and unheard. One day a slip of paper containing the word *bondmaid* flutters beneath the table. She rescues the slip and, learning that the word means "slave girl," begins to collect other words that have been discarded or neglected by the dictionary men. As she grows up, Esme realizes that words and meanings relating to women's and common folks' experiences often go unrecorded. And so she begins in earnest to search out words for her own dictionary: the *Dictionary of Lost Words*. To do so she must leave the sheltered world of the university and venture out to meet the people whose words will fill those pages. Set during the height of the women's suffrage movement and with the Great War looming, *The Dictionary of Lost Words* reveals a lost narrative, hidden between the lines of a history written by men. Inspired by actual events, author Pip Williams has delved into the archives of the Oxford English Dictionary to tell this highly original story. *The Dictionary of Lost Words* is a delightful, lyrical, and deeply thought-provoking celebration of words and the power of language to shape the world. Decline and Fall Ballantine Books

In this new book, Bauman examines how we have moved away from a 'heavy' and 'solid', hardware-focused modernity to a 'light' and 'liquid', software-based modernity. This passage, he argues, has brought profound change to all aspects of the human condition. The new remoteness and unreachability of global systemic structure coupled with the unstructured and under-defined, fluid state of the immediate setting of life-politics and human togetherness, call for the rethinking of the concepts and cognitive frames used to narrate human individual experience and their joint history. This book is dedicated to this task. Bauman selects five of the basic concepts which have served to make sense of shared human life - emancipation, individuality, time/space, work and community - and traces their successive incarnations and changes of meaning. *Liquid Modernity* concludes the analysis undertaken in Bauman's two previous books *Globalization: The Human Consequences* and *In Search of Politics*. Together these volumes form a brilliant analysis of the changing conditions of social and political life by one of the most original thinkers writing today.

1996 Minnesota Book Award winner — A Native American book The heart of the Native American experience: In this 1996 Minnesota Book Award winner, Kent Nerburn draws the reader deep into the world of an Indian elder known only as Dan. It's a world of Indian towns, white roadside cafes, and abandoned roads that swirl with the memories of the Ghost Dance and Sitting Bull. Readers meet vivid characters like Jumbo, a 400-pound mechanic, and Annie, an 80-year-old Lakota woman living in a log cabin. Threading through the book is the story of two men struggling to find a common voice. *Neither Wolf nor Dog* takes readers to the heart of the Native American experience. As the story unfolds, Dan speaks eloquently on the difference between land and property, the power of silence, and the selling of sacred ceremonies. This edition features a new introduction by the author, Kent Nerburn. "This is a sobering, humbling, cleansing, loving book, one that every American should read." — Yoga Journal If you enjoyed *Empire of the Summer Moon*, *Heart Berries*, or *You Don't Have to Say You Love Me*, you'll love owning and reading *Neither Wolf nor Dog* by Kent Nerburn.

Girl, Forgotten HarperCollins

This collection of essays explores the character and quality of the Holocaust's impact and the abiding legacy it has left for social theory. The premise which informs the contributions is that, ten years after its publication, Zygmunt Bauman's claim that social theory has either failed to address the Holocaust or protected itself from its implications remains true.

From the author of Lafayette in the Somewhat United States, an examination of Hawaii, the place where Manifest Destiny got a sunburn. Many think of 1776 as the defining year of American history, when we became a nation devoted to the pursuit of happiness through self-government. In Unfamiliar Fishes, Sarah Vowell argues that 1898 might be a year just as defining, when, in an orgy of imperialism, the United States annexed Hawaii, Puerto Rico, and Guam, and invaded first Cuba, then the Philippines, becoming an international superpower practically overnight. Among the developments in these outposts of 1898, Vowell considers the Americanization of Hawaii the most intriguing. From the arrival of New England missionaries in 1820, their goal to Christianize the local heathen, to the coup d'état of the missionaries' sons in 1893, which overthrew the Hawaiian queen, the events leading up to American annexation feature a cast of beguiling, and often appealing or tragic, characters: whalers who fired cannons at the Bible-thumpers denying their God-given right to whores, an incestuous princess pulled between her new god and her brother-husband, sugar barons, lepers, con men, Theodore Roosevelt, and the last Hawaiian queen, a songwriter whose sentimental ode "Aloha 'Oe" serenaded the first Hawaiian president of the United States during his 2009 inaugural parade. With her trademark smart-alecky insights and reporting, Vowell lights out to discover the off, emblematic, and exceptional history of the fiftieth state, and in so doing finds America, warts and all.

After five years, lawyer Hugh Gwynne's most difficult case has finally come to court. His client Tom Deacon is claiming damages for post-traumatic stress after a car accident in which he witnessed the death of his young daughter by fire. The case is going well, it seems certain Tom will win the compensation that will enable him to pick up the pieces of his shattered life. Then Hugh receives an anonymous letter that throws him into an impossible dilemma. To stay on the case is unethical, to withdraw will threaten its success, and Tom Deacon, revealing himself in an entirely new light, makes it clear that such treachery will not be forgiven. For Hugh the dilemma is intensified by the contrast between their lives: Tom tormented by flashbacks, jobless, with a broken marriage and two children he hardly sees; Hugh with what he regards as a blessed existence, a rewarding life as a jobbing solicitor and an intensely happy marriage to Lizzie, with whom he has two adopted children, Lou away on her gap year, and fragile, sensitive Charlie who seems to have overcome his personal demons. Then one night Hugh's life changes for ever. His happiness is snatched away, and he, like Tom, must face a lifetime of troubling memories. series that began with the instant New York Times bestseller Map of Flames. The forgotten five have made it to Estero to search for their missing supernatural criminal parents. With the help of their new allies, Lada and The Librarian, they've managed to find Birdie and Brix's mother, Elena, and free her from captivity in the presidential palace. Now the president's henchmen are searching everywhere for the children who broke out Elena, driving the group into hiding in the ancient underground tunnels beneath the city. Meanwhile, President Fuerte is making headlines for his nighttime flights to other countries accompanied by an invisible man. But why would the president who outlawed supernaturals be working with the people he supposedly hates? And could it be that some of the five's own parents are helping him? The fantasy adventure that began with the New York Times and Indie bestseller Map of Flames continues as the five join the fight against the oppression of supernaturals in Estero, face off against an unexpected enemy, and undertake a new mission that will put all of their abilities—and their loyalties—to the test.

"This ghost story gave me chill after chill. It will haunt you." -- R.L. Stine, author of Goosebumps "Do you know what it feels like to be forgotten?" On a cold winter night, Iris and her best friend, Daniel, sneak into a clearing in the woods to play in the freshly fallen snow. There, Iris carefully makes a perfect snow angel -- only to find the crumbling gravestone of a young girl, Avery Moore, right beneath her. Immediately, strange things start to happen to Iris: She begins having vivid nightmares. She wakes up to find her bedroom window wide open, letting in the snow. She thinks she sees the shadow of a girl lurking in the woods. And she feels the pull of the abandoned grave, calling her back to the clearing...Obsessed with figuring out what's going on, Iris and Daniel start to research the area for a school project. They discover that Avery's grave is actually part of a neglected and forgotten Black cemetery, dating back to a time when White and Black people were kept separate in life -- and in death. As Iris and Daniel learn more about their town's past, they become determined to restore Avery's grave and finally have proper respect paid to Avery and the others buried there. But they have awakened a jealous and demanding ghost, one that's not satisfied with their plans for getting recognition. One that is searching for a best friend forever -- no matter what the cost. The Forgotten Girl is both a spooky original ghost story and a timely and important storyline about reclaiming an abandoned segregated cemetery. "A harrowing yet empowering tale reminding us that the past is connected to the present, that every place and every person has a story, and that those stories deserve to be told." -- Renee Watson, New York Times bestselling author of Piecing Me Together

Unnatural Causes HarperCollins UK

X-Men meets Spy Kids in this instant New York Times bestseller! Here's the first book in a new middle-grade fantasy/adventure series from the author of The Unwanteds. Fifteen years ago, eight supernatural criminals fled Estero City to make a new life in an isolated tropical hideout. Over time, seven of them disappeared without a trace, presumed captured or killed. And now, the remaining one has died. Left behind to fend for themselves are the criminals' five children, each with superpowers of their own: Birdie can communicate with animals. Brix has athletic abilities and can heal quickly. Tenner can swim like a fish and can see in the dark and hear from a distance. Seven's skin camouflages to match whatever is around him. Cabot hasn't shown signs of any unusual power—yet. Then one day Birdie finds a map among her father's things that leads to a secret stash. There is also a note: Go to Estero, find your mother, and give her the map. The five have lived their entire lives in isolation. What would it mean to follow the map to a strange world full of things they've only heard about, like cell phones, cars, and electricity? A world where, thanks to their parents, being supernatural is a crime?
