Rich Dad's Guide to
Financial Freedom
ACCI (Asociación
Cultural y Científica
Iberoamericana)
This self-help guide
shows the reader step-
by-step how to perform

at their peak while
gaining emotional and
financial freedom,
attaining leadership
and self-confidence,
and winning the
confidence of others. It
should enable the
reader to gain the
knowledge and
courage to remake
themselves.

The 5 AM Club

Thomas Nelson Inc
Secrets of the
Millionaire Mind reveals
the missing link
between wanting
success and achieving
it! Have you ever
wondered why some
people seem to get
rich easily, while others
are destined for a life
of financial struggle? Is
the difference found in
their education,
intelligence, skills,
timing, work habits,
contacts, luck, or their
choice of jobs,
businesses, or
investments? The
shocking answer is:
None of the above! In
his groundbreaking
Secrets of the
Millionaire Mind, T.
Harv Eker states: "Give
me five minutes, and I
can predict your
financial future for the
rest of your life!" Eker
does this by identifying
your "money and

success blueprint." We
all have a personal
money blueprint
ingrained in our
subconscious minds,
and it is this blueprint,
more than anything,
that will determine our
financial lives. You can
know everything about
marketing, sales,
negotiations, stocks,
real estate, and the
world of finance, but if
your money blueprint
is not set for a high
level of success, you
will never have a lot of
money—and if
somehow you do, you
will most likely lose it!
The good news is that
now you can actually
reset your money
blueprint to create
natural and automatic
success. Secrets of the
Millionaire Mind is two
books in one. Part I
explains how your
money blueprint works.
Through Eker's rare

combination of street smarts, humor, and heart, you will learn how your childhood influences have shaped your financial destiny. You will also learn how to identify your own money blueprint and "revise" it to not only create success but, more important, to keep and continually grow it. In Part II you will be introduced to seventeen "Wealth Files," which describe exactly how rich people think and act differently than most poor and middle-class people. Each Wealth File includes action steps for you to practice in the real world in order to dramatically increase your income and accumulate wealth. If you are not doing as well financially as you would like, you will

have to change your money blueprint. Unfortunately your current money blueprint will tend to stay with you for the rest of your life, unless you identify and revise it, and that's exactly what you will do with the help of this extraordinary book. According to T. Harv Eker, it's simple. If you think like rich people think and do what rich people do, chances are you'll get rich too!

Da Capo Press
How we parent our children is at the heart of our relationships with them - and Dr Carlos Gonzalez, a renowned Spanish

paediatrician and father, believes that our children deserve all the love we can give them. If we reject the routines and excessive discipline promoted by self-styled childcare experts, and instead parent with love, respect and freedom, we can allow our children to grow and thrive both physically and emotionally. A bestseller in Spain, *Kiss Me* encourages parents to see the good in their children and nurture it carefully, forging warm and rewarding family relationships. With discussions of how to handle common parenting issues including sleep, rewards and punishment and carving out quality time with our children, this warm and reassuring book is

hugely valuable for parents in today's world.

The Healing Self

Alcibíades Aquino
Mariñez (Alci)

“Más vale malo conocido que bueno por conocer”. Éste es uno de nuestros dichos más populares.

¿Padecemos una resistencia natural al cambio? ¿Por qué nos oponemos a cualquier modificación de nuestra rutina diaria, de nuestros hábitos y costumbres? Lo cierto es que, a pesar de que a lo largo de nuestra vida aceptamos cambios cruciales, tales como el matrimonio, los hijos, la incorporación a las nuevas tecnologías o los desafíos de nuevos empleos, algunos hábitos nos resultan innegociables y, por más que queramos, no

conseguimos erradicarlos. En resumen, hay cambios fáciles y cambios extremadamente difíciles: ¿en qué se diferencian? Los psicólogos han demostrado que existen dos mecanismos distintos de toma de decisiones en nuestro cerebro: el racional y el emocional. El primero es lógico, estratégico, reflexivo, y el segundo es intuitivo e impulsivo. Uno quiere un cuerpo escultural y aprovechar el tiempo para aprender idiomas, y el otro quiere comerse una tarta y ver un rato la televisión. El racional se opone con firmeza a cualquier cambio en la rutina, el emocional ansía tener siempre nuevos retos. Chip Heath y su hermano

Dan, dos reconocidos especialistas en comportamiento organizacional, nos explican cómo alinear estos dos mecanismos cerebrales, ambos igual de importantes para que, tras nuestros infructuosos intentos, los cambios nos sean más placenteros y obtengamos mejores resultados de ellos. Con un estilo ameno y agradable y con una sólida exposición argumental, los autores nos resumen décadas de investigación en psicología, sociología y otras disciplinas científicas para explicarnos cómo podemos efectuar un cambio transformador en nuestras vidas. Si llevas tiempo intentando cambiar de hábitos sin conseguirlo, éste libro se convertirá

en tu mejor aliado y compañero de ruta. Anchor Promoción durante 48 horas ¡Obtén tu copia! Mientras una pandemia azota países, y todo el mundo espera a que el mal pase pronto; Pedro, un alcohólico sin remedio, se preocupa más por satisfacer sus deseos hedonistas, que en obedecer al influyente sistema. Entretanto, los hospitales se llenan de enfermos, el desempleo abunda, lo que causa desesperación y ataques de ansiedad en las personas. Los gobiernos advierten sobre las elevadas cifras de muertes y toman medidas extremas para evitar contagios. Pero Pedro, sin hacer caso a las advertencias, se emborracha todas las

noches y pierde los pocos trabajos que encuentra. Y a su vez, disfruta del sexo cómo si el mañana no existiera, ¿esa actitud rebelde será el miedo a morir y disfrutar lo que le quede de vida? o simplemente ¿es alguien que no cree en un virus creado para infundir el miedo? Lo cierto es que pronto Pedro se ve sumergido en la realidad de una cuarentena obligatoria. Alejandro Giordano nos demuestra en este libro, porque es considerado uno de los mejores escritores contemporáneos del realismo sucio. "Sexo en plena pandemia" es una novela alucinante, que, al leerla, te dejará con ganas de más, con una prosa fascinante que penetra los huesos de cualquier lector. Una historia escrita con

el lenguaje puro de la calle, un lenguaje crudo y real que narra lo que pasa en la vida de personas comunes. This authoritative and accessible investment classic promises rare insight into what it really takes to run money in a top-performing investment fund. Anthony Bolton, the UK's most successful stock market investor, tells the story of his contrarian approach to managing money. He provides invaluable lessons on the factors that really matter in picking a stock: the need to identify good managers, how to run a portfolio, the importance of value investing, reading charts and how to trade successfully. It's not easy to continually buy low and sell high. This book gives clear directions for doing well in the stock market, and doing well

consistently. Investing Against the Tide shows you how to make the right decisions at the right time. Anthony Bolton is considered the UK's most successful stock market investor and fund manager. Over twenty five years he delivered a market-beating return of 20% in his Fidelity Special Situations Fund. How did he do it, and what can you learn from him? In Investing Against the Tide, Anthony Bolton tells the story of his contrarian approach to managing money. He provides invaluable lessons on the factors that really matter when investing: how to pick a stock, the need to identify good managers, how to run a portfolio, the importance of value

investing, reading charts and how to trade successfully. In this account of financial accomplishment, Bolton reveals the secrets of his success. It's not easy constantly to buy low and sell high and this book gives clear directions for doing well in the stock market, and doing well consistently. Chapter by chapter *Investing Against the Tide* shows you how to make the right decisions at the right time and featured key lessons show you how you really can learn from a life running money. *Investing Against the Tide* is an authoritative guide for investment professionals, offering them a rare insight into what it really takes to run money in a top-

performing fund, as well as providing amateur investors the chance to learn the stock-picking strategies from a leading money-manager. About the author Anthony Bolton left Cambridge University with a degree in engineering to begin a career in the City. He started as a graduate trainee working for Keyser Ullmann in 1971 before taking up a full time position as an assistant in their investment department. In 1976 he moved to Schlesingers where he became, for the first time, an investment manager. In 1979, aged 29, he was recruited by Fidelity, the international fund management group, as one of its first London-based investment

managers, a move that proved to be the launch of a long and successful career. In surveys of professional investors, he is regularly voted the fund manager most respected by his peers. He retired from full-time investment management at the end of 2007, but continues to work at Fidelity as a mentor of the analysts and younger fund managers as well as being involved in overseeing Fidelity's investment process.

His hobby is composing classical music.

Anthony Bolton is married with three children and lives in West Sussex.

How to Develop Self-Discipline, Resist

Temptations and Reach Your Long-Term Goals If you want to make positive changes in your life and achieve your long-term goals, I can't think of a better way to do it than to learn how to become more self-disciplined. Science has figured out a lot of interesting aspects of self-discipline and willpower, but most of this knowledge is buried deep inside long and boring scientific papers. If you'd like to benefit from these studies without actually reading them, this book is for you. I've done the job for you and researched the most useful and viable scientific findings that will help you improve your self-discipline. Here are just a couple things you will learn from the book: -

what a bank robber with lemon juice on his face can teach you about self-control. The story will make you laugh out loud, but its implications will make you think twice about your ability to control your urges. - how \$50 chocolate bars can motivate you to keep going when faced with an overwhelming temptation to give in. - why President Obama wears only gray and blue suits and what it has to do with self-control (it's also a possible reason why the poor stay poor). - why the popular way of visualization can actually prevent you from reaching your goals and destroy your self-control (and what to do instead). - what dopamine is and why it's crucial to understand its role to

break your bad habits and form good ones. - 5 practical ways to train your self-discipline. Discover some of the most important techniques to increase your self-control and become better at resisting instant gratification. - why the status quo bias will threaten your goals and what to do to reduce its effect on your resolutions. - why extreme diets help people achieve long-term results, and how to apply these findings in your own life. - why and when indulging yourself can actually help you build your self-discipline. Yes, you can stuff yourself (from time to time) and still lose weight. Instead of sharing with you the detailed "why" (with confusing and boring descriptions of

studies), I will share with you the "how" - advice that will change your life if you decide to follow it. You too can master the art of self-discipline and learn how to resist temptations. Your long term goals are worth it. Scroll up and buy the book now. As a gift for buying my book, you'll get my another book, "Grit: How to Keep Going When You Want to Give Up." Keywords: Develop self discipline, willpower and self discipline, self-discipline, self control books, stress, reach your goals, self-control, achieve your goals, instant gratification, long term goals, goal setting success, goal setting books, how to reach your goals, how to achieve your goals, persistence, how not to give up, stick to a diet,

stay motivated, build habits, delayed gratification, personal development
Revised and Updated
 Simon & Schuster
 Heal yourself from the inside out Our immune systems can no longer be taken for granted. Current trends in public healthcare are disturbing: our increased air travel allows newly mutated bacteria and viruses to spread across the globe, antibiotic-resistant strains of bacteria outstrip the new drugs that are meant to fight them, deaths due to hospital-acquired infections are increasing, and the childhood vaccinations of our aging population are losing their effectiveness. Now more than ever, our well-being is at a dangerous crossroad.

But there is hope, and the solution lies within ourselves. The Healing Self is the new breakthrough book in self-care by bestselling author and leader in integrative medicine Deepak Chopra and Harvard neuroscientist Rudolph E Tanzi. They argue that the brain possesses its own lymphatic system, meaning it is also tied into the body's general immune system. Based on this brand new discovery, they offer new ways of increasing the body's immune system by stimulating the brain and our genes, and through this they help us fight off illness and disease. Combined with new facts about the gut microbiome and lifestyle changes, diet and stress reduction, there is no doubt that

this ground-breaking work will have an important effect on your immune system. [A Very Old Man with Enormous Wings](#)
Pearson UK
Legendary leadership and elite performance expert Robin Sharma introduced The 5am Club concept over twenty years ago, based on a revolutionary morning routine that has helped his clients maximize their productivity, activate their best health and bulletproof their serenity in this age of overwhelming complexity. Now, in this life-changing book, handcrafted by the author over a rigorous four-year period, you will discover the early-rising habit that has helped so many accomplish epic results while upgrading their

happiness, helpfulness and feelings of aliveness. Through an enchanting—and often amusing—story about two struggling strangers who meet an eccentric tycoon who becomes their secret mentor, *The 5am Club* will walk you through: How great geniuses, business titans and the world’s wisest people start their mornings to produce astonishing achievements A little-known formula you can use instantly to wake up early feeling inspired, focused and flooded with a fiery drive to get the most out of each day A step-by-step method to protect the quietest hours of daybreak so you have time for exercise, self-renewal and personal growth A neuroscience-based practice proven to help

make it easy to rise while most people are sleeping, giving you precious time for yourself to think, express your creativity and begin the day peacefully instead of being rushed “Insider-only” tactics to defend your gifts, talents and dreams against digital distraction and trivial diversions so you enjoy fortune, influence and a magnificent impact on the world Part manifesto for mastery, part playbook for genius-grade productivity and part companion for a life lived beautifully, *The 5am Club* is a work that will transform your life. Forever.
IN MEMORIAM Grupo Planeta (GBS)
 To make the journey into the Now we will need to leave our analytical mind and its

false created self, the ego, behind. From the very first page of Eckhart Tolle's extraordinary book, we move rapidly into a significantly higher altitude where we breathe a lighter air. We become connected to the indestructible essence of our Being, "The eternal, ever present One Life beyond the myriad forms of life that are subject to birth and death." Although the journey is challenging, Eckhart Tolle uses simple language and an easy question and answer format to guide us. A word of mouth phenomenon since its first publication, *The Power of Now* is one of those rare books with the power to create an experience in readers, one that can radically change their lives for

the better.

Who Killed Change?

Solving the Mystery of Leading People Through Change Every day organizations around the world launch change initiatives—often big, expensive ones—designed to improve the status quo. Yet 50 to 70 percent of these change efforts fail. A few perish suddenly, but many die painful, protracted deaths that drain the organization's resources, energy and morale. Who or What Is Killing Change? That's what you'll find out in this witty whodunit. The story features a Columbo-style detective, Agent Mike McNally, who's investigating the murder of yet another change. One by one, Agent McNally interviews thirteen prime suspects,

including a myopic leader named Victoria Vision; a chronically tardy manager named Ernest Urgency; an executive named Clair Communication, whose laryngitis makes communication all but impossible; and several other dubious characters. The suspects are sure to sound familiar and you're bound to relate them to your own workplace. In the end, Agent McNally solves the case in a way that will inspire you to become an effective Change Agent in your own organization. A step-by-step guide at the back of the book shows you how to apply the story's lessons to the real world. Key questions help you evaluate the health of your organization's change

initiatives, and you'll learn best practices for enabling and sustaining the desired change.

The Little Book of Restorative Justice Business Plus
Enthralled admirers of Esmeralda Santiago's memoirs of her childhood have yearned to read more. Now, in *The Turkish Lover*, Esmeralda finally breaks out of the monumental struggle with her powerful mother, only to elope into the spell of an exotic love affair. At the heart of the story is Esmeralda's relationship with "the Turk," a passion that gradually becomes a prison out of which she must emerge to become herself. The expansive humanity, earthy humor, and psychological courage

that made Esmeralda's first two books so successful are on full display again in *The Turkish Lover*.

El Señor Cuerdas

Alamah

Throughout your life, you've had parents, coaches, teachers, friends, and mentors who have pushed you to be better than your excuses and bigger than your fears. What if the secret to having the confidence and courage to enrich your life and work is simply knowing how to push yourself? Using the science habits, riveting stories and surprising facts from some of the most famous moments in history, art and business, Mel Robbins will explain the power of a "push moment." Then, she'll give you one simple tool you can use to become

your greatest self. It takes just five seconds to use this tool, and every time you do, you'll be in great company. More than 8 million people have watched Mel's TEDx Talk, and executives inside of the world's largest brands are using the tool to increase productivity, collaboration, and engagement. In *The 5 Second Rule*, you'll discover it takes just five seconds to:

- Become confident
- Break the habit of procrastination and self-doubt
- Beat fear and uncertainty
- Stop worrying and feel happier
- Share your ideas with courage

The 5 Second Rule is a simple, one-size-fits-all solution for the one problem we all face—we hold ourselves back. The

secret isn't knowing
what to do—it's
knowing how to make
yourself do it. p.p1
