The Road Simon and Schuster

In February 2019, award-winning writer Alex Roddie left his online life behind when he set out to walk 300 miles through the Scottish Highlands, seeking solitude and answers. In leaving the chaos of the internet behind for a month, he hoped to learn how it was truly affecting him – or if he should look elsewhere for the causes of his anxiety. *The Farthest Shore* is the story of Alex's solo trek along the remote Cape Wrath Trail. As he journeyed through a vanishing winter, Alex found answers to his questions, learnt the nature of true silence, and discovered frightening evidence of the threats faced by Scotland's wild mountain landscape.

Star Trek: The Next Generation: Greater than the Sum Simon and Schuster

Soothe little ones to sleep with this beautiful board book featuring a sweetly illustrated and tender lullaby first composed by Holocaust survivor, Dr. Lena Allen-Shore for her son, Jacques, and then adapted further by them for this children's book. Sleep, my baby, my lovely baby I wish you good night. The stars are smiling they say to you be happy all your life. Author, teacher, and poet, Dr. Lena Allen-Shore made her mark on the world in innumerable ways, but she made the most endearing and enduring mark on her sons by singing "Sleep, My Baby" to them as they drifted off to bed each night. This extended version of the original, written by both Dr. Shore and her son Jacques, celebrates mothers all over the world and shares the universal messaging of hope, peace, and love as children are gently lulled to sleep knowing they are safe, sound, and protected from harm.

Star Trek: Voyager Simon and Schuster

Faced with skepticism over assignment as the new commanding officer of Voyager in light of his Maquis past, Chakotay accepts his first assignment to transport a group of displaced colonists back to their home planet of Loran II, but when they arrive, they discover a deserted settlement, a mysterious storm, and a dangerous threat from Chakotay's past. Original.

Homecoming Simon and Schuster

End Game Simon and Schuster

After weeks of lonely journeys through a desolate region of the Delta Quadrant, the crew of Voyager is badly in need of shore leave, so the planet Ryolanov seems just what the doctor ordered. Full of warm sunlight and gracious, hospitable people, Ryolanov is a veritable oasis amidst the endless reaches of uncharted space. Alerted by his spirit guide, Chakotay is the first to suspect that there may be a serpent lurking in this paradise, but he is not alone. Driven by a psychic call she cannot

ignore, Kes must conquer her own fears to discover the terrifying secret lurking beyond the black shore.

Star Trek Voyager Harper Collins

A hundred years before the Starship Voyager was transported to the Delta Quadrant, Lieutenant Tuvok served under one of Starfleet's most famous officers: Captain Hikaru Sulu of the Starship Excelsior. Now those days have come back to haunt him. While traveling through an uncharted nebula, Tuvok is besieged by recurring memories of his time with Captain Sulu—repressed memories that may well kill him unless their source is determined in time. To save her closest friend, Captain Kathryn Janeway follows Tuvok to the century-old bridge of the Excelsior during a desperate battle. There Tuvok, Captain Janeway, Captain Sulu and Commander Janice Rand must face a menace to galactic life unlike anything known before...

Incident at Arbuk Vertebrate Publishing

What do you do when your world ends? At twenty-eight years old, Krista Schlyer sold almost everything she owned and packed the rest of it in a station wagon bound for the American wild. Her two best friends joined her—one a grumpy, grieving introvert, the other a feisty dog—and together they sought out every national park, historic site, forest, and wilderness they could get to before their money ran out or their minds gave in. The journey began as a desperate escape from urban isolation, heartbreak, and despair, but became an adventure beyond imagining. Chronicling their colorful escapade, *Almost Anywhere* explores the courage, cowardice, and heroics that live in all of us, as well as the life of nature and the nature of life. This eloquent and accessible memoir is at once an immersion in the pain of losing someone particularly close and especially young and a healing journey of a broken life given over to the whimsy and humor of living on the road.

It is the twenty-third century. On the planet Vulcan, a crisis of unprecedented proportion has caused the convocation of the planet's ruling council -- and summoned the U.S.S. Enterprise™ from halfway across the galaxy, to bring Vulcan's most famous son home in its hour of need. As Commander Spock, his father Sarek, and Captain James T. Kirk struggle to preserve Vulcan's future, the planet's innermost secrets are laid before us, from its beginnings millions of years ago to its savage prehistory, from merciless tribal warfare to medieval court intrigue, from the exploration of space to the development of o'thia -- the ruling ethic of logic. And Spock -- torn between his duty to Starfleet and the unbreakable ties that bind him to Vulcan -- must find a way to reconcile both his own inner conflict and the external dilemma his planet faces...lest the Federation itself be ripped asunder. Diane Duane, author of three previous bestselling STAR TREK novels and an episode of the new STAR TREK NEXT GENERATION® television series, as well as countless other bestselling science fiction and fantasy novels, has crafted a tale of unprecedented scope and imagination, at once a generations-spanning historical novel and a thrilling science fiction adventure.

Star Trek: Voyager: Distant Shores Anthology Simon and Schuster

Few films have been so keenly awaited or the subject of so much internet debate as the twelfth Star

Trek movie -- the first since 2002 -- which is scheduled to be released in May 2009. Directed by J.J. Abrams, creator of cutting-edge cult television shows *Lost* and *Alias*, the film is expected to launch the Star Trek franchise into a new stellar era. Going back to the very beginnings of the classic Star Trek, the film tells how James T. Kirk, the half-Vulcan Spock, Dr McCoy, engineer Montgomery Scott and crew members Chekov, Sulu and Uhura first came together as rookie Starfleet recruits, and how they embraced the destiny that would later send them out across the galaxy accompanied by the immortal words: 'These are the voyages of the Starship Enterprise...' A largely brand new cast including Chris Pine as Kirk, Zachary Quinto (*Heroes*) as Spock, Simon Pegg as Scotty, Karl Urban as McCoy alongside Eric Bana, Winona Ryder and Leonard Nimoy will bring Star Trek to a whole new audience, while at the same time Alan Dean Foster's novelization will enthrall both existing fans and a new generation of readers.

Star Trek Voyager Simon and Schuster

An original novel set in the universe of Star Trek: Voyager, from the New York Times bestselling author! As the Federation Starship Voyager continues to lead the Full Circle Fleet in its exploration of the Delta Quadrant, Admiral Kathryn Janeway remains concerned about the Krenim Imperium and its ability to rewrite time to suit its whims. At Captain Chakotay's suggestion, however, she orders the fleet to focus its attention on a unique planet in a binary system, where a new element has been discovered. Several biospheres exist on this otherwise uninhabitable world, each containing different atmospheres and features that argue other sentient beings once resided on the surface. Janeway hopes that digging into an old-fashioned scientific mystery will lift the crews' morale, but she soon realizes that the secrets buried on this world may be part of a much larger puzzle—one that points to the existence of a species whose power to reshape the galaxy might dwarf that of the Krenim. Meanwhile, Lieutenants Nancy Conlon and Harry Kim continue to struggle with the choices related to Conlon's degenerative condition. Full Circle's medical staff discovers a potential solution, but complications will force a fellow officer to confront her people's troubled past and her own future in ways she never imagined...™, ®, & © 2018 CBS Studios, Inc. Cursed Pocket Books/Star Trek

Marooned in the Delta Quadrant light years away from home, the crew of the Starship Voyager have more than once stumbled upon what they thought was a shortcut back - only to have their hopes crushed. In one of the most memorable of these episodes, 'Eye of the Needle', Voyager discovered a wormhole that would take them to Romulan space - but twenty years in the past. Now in Christie Golden's powerful trilogy the Romulan scientist who created that wormhole, Telek R'Mor, is back. An unknown species has adapted his theories on artificial wormholes, allowing the Romulan Empire of twenty years ago to create passage to the Delta Quadrant - and the USS Voyager - of today. The Empire wishes to capture Voyager, existing as she does in their future, in order to gain a twenty-year head start on Federation technology. The Shephards want Voyager for reasons of their own. But the technology they have developed involves the manipulation of dark matter, a dangerous undertaking with disastrous consequences for the Empire, for Voyager, and ultimately for the universe itself. Before long Voyager and her crew begin to succumb to the effects of the dark matter. At the same time, Romulan saboteurs are discovered on board, Voyager is contacted by

another mysterious species (this one claiming to come in friendship), a flock of Romulan Warbirds journeys into the present to seize control of the ship, and Chakotay and Paris disappear into an unknown alien realm...

Star Trek Voyager Tor Books

The Starship Rhea has discovered a cluster of carbon planets that seems to be the source of the quantum energies rippling through a section of space. A landing party finds unusual life-forms inhabiting one of the planets. One officer, Lieutenant T'Ryssa Chen -- a half-Vulcan -- makes a tenuous connection with them. But before any progress can be made, the Rhea comes under attack from the Einstein -- a Starfleet vessel now controlled by the Borg. The landing party can only listen in horror as their comrades are assimilated. The Borg descend to the planet, and just as Chen accepts that she will be assimilated, the lieutenant is whisked two thousand light-years away. A quantum slipstream -- instantaneous transportation -- is controlled by these beings in the cluster, and in the heart of the cluster there is now a Borg ship. Cut off from the rest of the Borg collective, the Einstein cannot be allowed to rejoin it. For the sake of humanity, the Borg cannot gain access to quantum slipstream technology. Starfleet Command gives Captain Picard carte blanche: do whatever he must to help the beings in the cluster, and stop the Einstein no matter the cost.

The eagerly awaited continuation of *Homecoming* and *The Farther Shore*! Captain Chakotay is ready to prove himself as the new commanding officer of the Starship Voyager -- but skeptics back at Starfleet Command are watching him closely for any sign that he will revert to his renegade Maquis ways. His first mission as captain, to transport a group of displaced colonists back to their home planet of Loran II, seems easy enough: make sure the planet is safe for colonization, unload the settlers, and head back to Earth. He even has an extra reason to enjoy the trip -- his sister, Sekaya, has joined the mission as a spiritual advisor to the gentle, peace-loving colonists. But when the crew arrives at Loran II, they discover a mysterious storm, an ominously deserted settlement -- and a hidden threat from Chakotay's past that could destroy them all. Will Chakotay's first mission as captain of Voyager also be his last?

Seeking solitude and nature on the Cape Wrath Trail in winter Pocket Books/Star Trek Fiction. "Davidson is a wonderful writer, a real find. There are a lot of writers out there who can put a story together and make the surfaces of their work gleam. What is special about Davidson's stories is something else altogether. He has the ability to make you care deeply about his characters. They become, for all their occasional quirkiness, as real as the folks next door."—Steve Yarbrough "The superlative story 'Criminals' is layered and old-fashioned, if there is such a thing. It immediately distinguishes itself by being patient and operating by way of the reluctant voice. [Davidson] is tolerant of the real ambiguities we muddle through to be human. 'Criminals' is a good big story and I recommend its nuanced pleasures to your healthy attention spans."—Ron Carlson
