LILLIANNA HURLEY

Life and Death in West Africa, 20th Anniversary Edition Waveland Press
Comprehensive, readable and written for the student, Haviland/Prins/Walwrath/McBride's market-leading text, CULTURAL ANTHROPOLOGY, is a highly relevant, high-quality teaching tool. The narrative voice of the text has been thoroughly internationalized and the "we:they" Western voice has been replaced with an inclusive one that will resonate with both Western and non-Western students and professors. In addition, gender, ethnicity, and stratification concepts and terminologies have been completely overhauled in accordance with contemporary thinking and the narrative streamlined using more fully developed, balanced, and global examples. In CULTURAL ANTHROPOLOGY, the authors present students with examples of "local responses" to challenging globalization issues, designed to provide students with a "cross-cultural survival guide" for living in the diverse, multicultural world of the 21st century. This edition is a truly exciting and unique examination into the field of cultural anthropology, its insights, its relevance, and the continuing role of cultural survival issues.

Cultural Anthropology Enters the 21st Century Univ of California Press
Over the past decades, infectious disease epidemics have come to increasingly pose major global health

challenges to humanity. The Anthropology of Epidemics approaches epidemics as total social phenomena: processes and events which encompass and exercise a transformational impact on social life whilst at the same time functioning as catalysts of shifts and ruptures as regards human/non-human relations. Bearing a particular mark on subject areas and questions which have recently come to shape developments in anthropological thinking, the volume brings epidemics to the forefront of anthropological debate, as an exemplary arena for social scientific study and analysis.

Cultural Anthropology Cram101
Demonstrate the nature of culture and its influence on people's lives. For over 40 years, the best-selling *Conformity and Conflict* has brought together original readings and cutting edge research alongside classic works as a powerful way to study human behavior and events. Its readings cover a broad range of theoretical perspectives and demonstrate basic anthropological concepts. The Fourteenth Edition incorporates successful articles from past editions and fresh ideas from the field to show fascinating perspectives on the human experience. Teaching and Learning Experience Personalize Learning - MyAnthroLab delivers proven results in helping students succeed, provides engaging experiences that personalize learning, and comes from a trusted partner with educational expertise and a deep commitment to helping students and instructors achieve their goals. Improve Critical Thinking - Articles, article introductions and review

questions encourage students to examine their assumptions, discern hidden values, evaluate evidence, assess their conclusions, and more! Engage Students - Section parts, key terms, maps, a glossary and subject index all spark student interest and illustrate the reader's main points with examples and visuals from daily life. Support Instructors - Teaching your course just got easier! You can create a Customized Text or use our Instructor's Manual, Electronic "MyTest" Test Bank or PowerPoint Presentation Slides. Additionally, Conformity and Conflict's part introductions parallel the basic concepts taught in introductory courses - which allow the book to be used alone as a reader or in conjunction with a main text. Note: MyAnthroLab does not come automatically packaged with this text. To purchase MyAnthroLab, please visit www.MyAnthroLab.com or you can purchase a valuepack of the text + MyAnthroLab (at no additional cost): VP ISBN-10: 0205176011/ISBN-13: 9780205176014

Haviland/Prins/mcbride/walrath's Cultural Anthropology: the Human Challenge, 15th Ed. Cultural Anthropology: The Human Challenge With compelling photos, engaging examples, conceptual tools, and select studies by anthropologists in far-flung places, the authors of ANTHROPOLOGY: THE HUMAN CHALLENGE, 15th Edition, provide a holistic view of anthropology to help you gain a deeper and more comprehensive understanding of our complex world. You'll discover the different ways humans face the challenge of existence, the connection

between biology and culture in the shaping of human behavior, and the impact of globalization on peoples and cultures around the world. Important Notice: Media content referenced within the product description or the product text may not be available in the ebook version.

The Man-Eating Myth Cengage Learning Practical and insightful, CLASSIC READINGS IN CULTURAL ANTHROPOLOGY is a concise, inexpensive, and accessible reader that presents core historical and contemporary works that have been instrumental in shaping anthropological thought and research over the past decades. Carefully edited by author Dr. Gary Ferraro, the text includes classic readings from the disciplines of cultural anthropology and linguistics. Selected from scholarly works on the basis of their enduring themes and contributions to the discipline, these eminently relevant selections enable you to further explore anthropological perspectives on such key topics as culture; language and communication; ecology and economics; marriage and family; gender; politics and social control; supernatural beliefs; and issues of culture change. By providing this wide array of classic reading on foundational topics, this book delivers an excellent introduction to the field of cultural anthropology and the contributions it makes to understanding the world around us. Important Notice: Media content referenced within the product description or the product text may not be available in the ebook version.

The Human Challenge Wadsworth Publishing Company

The contributors to this book focus on the relationship between nature and society from a variety of theoretical and

ethnographic perspectives. Their work draws upon recent developments in social theory, biology, ethnobiology, epistemology, sociology of science, and a wide array of ethnographic case studies -- from Amazonia, the Solomon Islands, Malaysia, the Mollucan Islands, rural communities from Japan and north-west Europe, urban Greece, and laboratories of molecular biology and high-energy physics. The discussion is divided into three parts, emphasizing the problems posed by the nature-culture dualism, some misguided attempts to respond to these problems, and potential avenues out of the current dilemmas of ecological discourse.

Jihad, Empire, and the Challenge of Solidarity Harvard University Press
Lewellen gives us the first analytic overview of an important new subject area in a field that has long been identified with the study of relatively bounded communities. Globalization refers to the increasing flows of trade, finance, culture, ideas, and people brought about by the sophisticated technology of communications and travel and by the worldwide spread of neoliberal capitalism. Unlike dependency theory and world systems analysis, which tended to assume a bird's-eye perspective, globalization offers a down-and-dirty, ground-up approach in which ethnographic research is not marginal but essential. Through multiple examples, selected from the latest ethnographic research from all over the world, Lewellen examines the ways that globalization impacts migrants and stay-at-homes, peasants and tribal peoples, men and women. A crucial theme is that the global/local nexus is one of unpredictable interaction and creative adaptation, not of top-down determinism. Theoretically, globalization

studies have become the focal point for the convergence of interpretive anthropology, critical anthropology, postmodernism, and poststructuralism, which are combined with a tough empiricism. For the casual reader or the classroom, this work draws together the ethnographic studies and cutting-edge theories that comprise the anthropology of globalization.

Studying the Image Cram101

One of the most widely used ethnographies published in the last twenty years, this Margaret Mead Award winner has been used as required reading at more than 600 colleges and universities. This personal account by a biocultural anthropologist illuminates not-soon-forgotten messages involving the sobering aspects of fieldwork among malnourished children in West Africa. With nutritional anthropology at its core, *Dancing Skeletons* presents informal, engaging, and oftentimes dramatic stories that relate the author's experiences conducting research on infant feeding and health in Mali. Through fascinating vignettes and honest, vivid descriptions, Dettwyler explores such diverse topics as ethnocentrism, culture shock, population control, breastfeeding, child care, the meaning of disability and child death in different cultures, female circumcision, women's roles in patrilineal societies, the dangers of fieldwork, and facing emotionally draining realities. Readers will laugh and cry as they meet the author's friends and informants, follow her through a series of encounters with both peri-urban and rural Bambara culture, and struggle with her as she attempts to reconcile her very different roles as objective ethnographer, subjective friend, and mother in the field. The 20th Anniversary Edition

includes a 13-page "Q&A with the Author" in which Dettwyler responds to typical questions she has received individually from students who have been assigned *Dancing Skeletons* as well as audience questions at lectures on various campuses. The new 23-page "Update on Mali, 2013" chapter is a factual update about economic and health conditions in Mali as well as a brief summary of the recent political unrest.

Cultural Anthropology & Human Experience Wipf and Stock Publishers Katherine A. Dettwyler, author of the Margaret Mead Awardwinning *Dancing Skeletons*, has written a compelling and original introductory text. *Cultural Anthropology & Human Experience* is suitable for use in Cultural and Social Anthropology courses, and its twelve chapters easily fit into quarter or semester terms, while leaving room for additional readings, discussions, or other projects. All the standard topics are covered, but with less emphasis on method and theory and more coverage of a variety of industrial and postindustrial societies. Auxiliary materials bells and whistles have been kept to a minimum to reduce distractions and maintain a reasonable price to students. The author has chosen all the photographs with great care to illustrate or amplify important points. The Instructors Manual includes summaries of each chapter, student exercises, and a test bank. Dettwyler's upbeat tone inspires students to: develop the ability to think logically, objectively, and critically about different cultural beliefs, practices, and social structures; understand that humans are primates with culture, with a complex overlay of environmental and cultural influences; appreciate how powerful

cultural beliefs and practices can be in shaping human perceptions of the world; realize that culture is not the same thing as social constructions of race, ethnic identity, or place of geographic origin; understand why/how cultural practices make sense within the cultures that practice them; articulate how an anthropological perspective helps discern everyday situations and interactions at the local, national, and international levels; understand that anthropology is not just an academic discipline it is a way of looking at and understanding the world; appreciate the ways cultural beliefs and practices, social structures, and human lifestyles contribute to a meaningful life.

The Art of Being Human Cengage Learning

A searching account of nineteenth-century salvage anthropology, an effort to preserve the culture of “vanishing” Indigenous peoples through dispossession of the very communities it was meant to protect. In the late nineteenth century, anthropologists, linguists, archaeologists, and other chroniclers began amassing Indigenous cultural objects—crafts, clothing, images, song recordings—by the millions. Convinced that Indigenous peoples were doomed to disappear, collectors donated these objects to museums and universities that would preserve and exhibit them. Samuel Redman dives into the archive to understand what the collectors deemed the tradition of the “vanishing Indian” and what we can learn from the complex legacy of salvage anthropology. The salvage catalog betrays a vision of Native cultures clouded by racist assumptions—a vision that had lasting consequences. The collecting practice became an engine of the American museum and significantly shaped public education and preservation, as well as popular ideas about Indigenous cultures. *Prophets and Ghosts* teases out the moral challenges inherent in the salvage project. Preservationists successfully maintained an important human inheritance, sometimes through collaboration with Indigenous people, but collectors’ methods also included outright theft. The resulting portrait of Indigenous culture reinforced the public’s confidence in the hierarchies of superiority and inferiority invented by “scientific” racism. Today the same salvaged objects are sources of invaluable knowledge for researchers and museum visitors. But the question of what should be done with such collections is nonetheless urgent.

Redman interviews Indigenous artists and curators, who offer fresh perspectives on the history and impact of cultural salvage, pointing to new ideas on how we might contend with a challenging inheritance.

Prophets and Ghosts Duke University Press

Explore the most fascinating, creative, dangerous, and complex species alive today: you and your neighbors in the global village. With compelling photos, engaging examples, and select studies by anthropologists in far-flung places, the authors of CULTURAL ANTHROPOLOGY: THE HUMAN CHALLENGE, 15th Edition, provide a holistic view of anthropology to help you make sense of today's world. With this text, you will discover the different ways humans face the challenge of existence, the connection between biology and culture in the shaping of human beliefs and behavior, and the impact of globalization on peoples and cultures around the world. The Universal Enemy Jill Potash

A fascinating and well-researched look into what we really know about cannibalism.

Cultural Anthropology Cengage Learning

No contemporary figure is more demonized than the Islamist foreign fighter who wages jihad around the world. Spreading violence, disregarding national borders, and rejecting secular norms, so-called jihadists seem opposed to universalism itself. In a radical departure from conventional wisdom on the topic, *The Universal Enemy* argues

that transnational jihadists are engaged in their own form of universalism: these fighters struggle to realize an Islamist vision directed at all of humanity, transcending racial and cultural difference. Anthropologist and attorney Darryl Li reconceptualizes jihad as armed transnational solidarity under conditions of American empire, revisiting a pivotal moment after the Cold War when ethnic cleansing in the Balkans dominated global headlines. Muslim volunteers came from distant lands to fight in Bosnia-Herzegovina alongside their co-religionists, offering themselves as an alternative to the US-led international community. Li highlights the parallels and overlaps between transnational jihads and other universalisms such as the War on Terror, United Nations peacekeeping, and socialist Non-Alignment. Developed from more than a decade of research with former fighters in a half-dozen countries, *The Universal Enemy* explores the relationship between jihad and American empire to shed critical light on both.
