Native American Rhetoric is the first book to explore rhetorical traditions from within individual Native communities and Native languages. The essays set a new standard for how rhetoric is talked about, written about, and taught. The contributors argue that Native rhetorical practices have their own interior logic, which is grounded in the

morality and religion of their given traditions. Once we understand the ways in which Native rhetorical practices are rooted in culture and tradition, the phenomenological expression of the speech patterns becomes clear. The value of Native communities and their languages is underlined throughout the essays. Lawrence W. Gross and the contributors successfully represent several, but not all, Native communities across the United States and Mexico, including the Haudenosaunee, Anishinaabe, Choctaw, Nahua, Chickasaw and Chicana, Tohono

O'odham, Navajo, Apache, Hupa, Lower Coast Salish, Koyukon, Tlingit, and Nez Perce. Native American Rhetoric will be an essential resource for continued discussions of Native American rhetorical practices in and beyond the discipline of rhetoric.

Text + Field Penn State Press

For two decades, students and instructors have relied on award-winning author Craig Smith's detailed description and analysis of rhetorical theories and the historical contexts for major thinkers who advanced them. He employs key themes from

important philosophical schools in this well-researched chronicle of rhetoric and human consciousness. One is that rhetoric is a response to uncertainty. The modern philosophers, like the naturalists of ancient Greece and the Scholastics who preceded them, tried to end uncertainty by combining the discoveries of science and psychology with rationalism. Their aim was progress and a consensus among experts as to what truth is. However, where modernism proved ineffective, rhetoric was revived to fill the breach. Another significant theme is that different conceptions of human consciousness lead to different theories of rhetoric, and for every major school of thought, another school of thought forms in reaction. Classic and contemporary examples demonstrate the usefulness of rhetorical theory, especially its ability to inform and guide. By providing probes for rhetorical criticism, discussions also demonstrate that rhetorical criticism illustrates, verifies, and refines rhetorical theory. Thus, the synergistic relationship between theory and criticism in rhetoric is no different than in other arts: Theory informs practice; analysis of successful practice refines

theory. Smith's absorbing study has been expanded to include thorough treatments of rhetoric in the Romantic Era, feminist and queer theory, and historical context for the creation of rhetorical theory and its use in public address.

Inviting Transformation Intersectional Rhetorics

Rhetorical critics have long had a troubled relationship with method, viewing it as at times opening up provocative avenues of inquiry, and at other times as closing off paths toward meaningful engagement with texts. *Text + Field* shifts scholarly attention from this conflicted history, looking instead to the growing number of scholars who are supplementing text-based scholarship by venturing out into the field, where rhetoric is produced, enacted, and consumed. These field-based practices involve observation, ethnographic interviews, and performance. They are not intended to displace text-based approaches; rather, they expand the idea of method by helping rhetorical scholars arrive at new and complementary answers to long-standing disciplinary questions about text, context, audience, judgment, and ethics.

The first volume in rhetoric and communication to directly address the relevance, processes, and implications of using field methods to augment traditional scholarship, *Text + Field* provides a framework for adapting these new tools to traditional rhetorical inquiry. Aside from the editors, the contributors are Roberta Chevrette, Kathleen M. de Onís, Danielle Endres, Joshua P. Ewalt, Alina Haliliuc, Aaron Hess, Jamie Landau, Michael Middleton, Tiara R. Na'puti, Jessy J. Ohl, Phaedra C. Pezzullo, Damien Smith Pfister, Samantha Senda-Cook, Lisa Silvestri, and Valerie Thatcher.

Appeals in Modern Rhetoric University of New Mexico Press

Chapter by chapter, 'Deep Rhetoric' develops an understanding of rhetoric not only in its philosophical dimension but also as a means of guiding and conducting conflicts, achieving justice and understanding the human condition.

Circulation, Writing, and Rhetoric Lexington Books

Appeals in Modern Rhetoric: An Ordinary-Language Approach introduces students to current issues in rhetorical theory through an extended treatment of the rhetorical

appeal, a frequently used but rarely discussed concept at the core of rhetorical analysis and criticism. Shunning the standard Aristotelian approach that treats ethos, pathos, and logos as modes of appeal, M. Jimmie Killingsworth uses common, accessible language to explain the concept of the rhetorical appeal—meaning the use of language to plead and to please. The result is a practical and innovative guide to understanding how persuasion works that is suitable for graduate and undergraduate courses yet still addresses topics of current interest to specialists. Supplementing the volume are practical and theoretical approaches to the construction and analysis of rhetorical messages and brief and readable examples from popular culture, academic discourse, politics, and the verbal arts. Killingsworth draws on close readings of primary texts in the field, referencing theorists to clarify concepts, while he decodes many of the basic theoretical constructs common to an understanding of identification. Beginning with examples of the model of appeals in social criticism, popular film, and advertising, he covers in

subsequent chapters appeals to time, place, the body, gender, and race. Additional chapters cover the use of common tropes and rhetorical narrative, and each chapter begins with definitions of key concepts.

Writing & Rhetoric Book 1: Fable Teacher's Edition includes the complete student text, as well as answer keys, teacher's notes, and explanations. For every writing assignment, this edition also supplies descriptions and examples of what excellent student writing should look like, providing the teacher with meaningful and concrete guidance."

[Culturally Speaking](#) CUA Press

While it has long been understood that the circulation of discourse, bodies, artifacts, and ideas plays an important constitutive force in our cultures and communities, circulation, as a concept and a phenomenon, has been underexamined in studies of rhetoric and writing. In an effort to give circulation its rhetorical due, *Circulation, Writing, and Rhetoric* introduces a wide range of studies that foreground circulation in both theory and

practice. Contributors to the volume specifically explore the connections between circulation and public rhetorics, urban studies, feminist rhetorics, digital communication, new materialism, and digital research. Circulation is a cultural-rhetorical process that impacts various ecologies, communities, and subjectivities in an ever-increasing globally networked environment. As made evident in this collection, circulation occurs in all forms of discursive production, from academic arguments to neoliberal policies to graffiti to tweets and bitcoins. Even in the case of tombstones, borrowed text achieves only partial stability before it is recirculated and transformed again. This communicative process is even more evident in the digital realm, the underlying infrastructures of which we have yet to fully understand. As public spaces become more and more saturated with circulating texts and images and as networked relations come to the center of rhetorical focus, *Circulation, Writing, and Rhetoric* will be a vital interdisciplinary resource for approaching the contemporary dynamics of rhetoric and writing. Contributors: Aaron Beveridge, Casey Boyle, Jim Brown, Naomi

Clark, Dànielle Nicole DeVoss, Rebecca Dingo, Sidney I. Dobrin, Jay Dolmage, Dustin Edwards, Jessica Enoch, Tarez Samra Graban, Byron Hawk, Gerald Jackson, Gesa E. Kirsch, Heather Lang, Sean Morey, Jenny Rice, Thomas Rickert, Jim Ridolfo, Nathaniel A. Rivers, Jacqueline Jones Royster, Donnie Johnson Sackey, Michele Simmons, Dale M. Smith, Patricia Sullivan, John Tinnell, Kathleen Blake Yancey

The Essential Guide to Rhetoric Macmillan Style in Rhetoric and Composition gathers essays that trace the evolution of the study of style and illustrates the debates that continue to shape style pedagogies within the field of rhetoric and composition. Selections encompass works by classical rhetoricians and modern compositionists alike addressing a range of issues that includes grammar in style, sentence-based pedagogies, imitation, and alternative rhetorics.

Kant and the Promise of Rhetoric The Essential Guide to Rhetoric "A Speaker's Guidebook" is the best resource in the classroom, on the job, and in the community. Praised for connecting with students who use and keep it year

after year, this tabbed, comb-bound text covers all the topics typically taught in the introductory course and is the easiest-to-use public speaking text available. In every edition, hundreds of instructors have helped us focus on the fundamental challenges of the public speaking classroom. Improving on this tradition, the fifth edition does even more to address these challenges with stronger coverage of overcoming speech anxiety, organizing and outlining, and more. And as the realities of public speaking change, so does "A Speaker's Guidebook"; the new edition also focuses on presentational speaking in a digital world -- from finding credible sources online to delivering presentations in a variety of mediated formats. -- From product description.

Reconstructing Southern Rhetoric Bedford/St. Martin's

Connors provides a history of composition and its pedagogical approaches to form, genre, and correctness. He shows where many of the today's practices and assumptions about writing come from, and he translates what our techniques and theories of teaching have said over time about our attitudes toward students,

language and life. Connors locates the beginning of a new rhetorical tradition in the mid-nineteenth century, and from there, he discusses the theoretical and pedagogical innovations of the last two centuries as the result of historical forces, social needs, and cultural shifts. This important book proves that American composition-rhetoric is a genuine, rhetorical tradition with its own evolving theory and praxis. As such it is an essential reference for all teachers of English and students of American education.

Deep Rhetoric Bedford Books

Examines racial and gendered dimensions of voice in American culture, showing how vocal sound helps to shape cultural power dynamics.

An Introduction to Classical Rhetoric Springer Nature

Immanuel Kant is rarely connected to rhetoric by those who study philosophy or the rhetorical tradition. If anything, Kant is said to see rhetoric as mere manipulation and as not worthy of attention. In *Kant and the Promise of Rhetoric*, Scott Stroud presents a first-of-its-kind reappraisal of Kant and the role he gives rhetorical practices in his philosophy. By examining

the range of terms that Kant employs to discuss various forms of communication, Stroud argues that the general thesis that Kant disparaged rhetoric is untenable. Instead, he offers a more nuanced view of Kant on rhetoric and its relation to moral cultivation. For Kant, certain rhetorical practices in education, religious settings, and public argument become vital tools to move humans toward moral improvement without infringing on their individual autonomy. Through the use of rhetorical means such as examples, religious narratives, symbols, group prayer, and fallibilistic public argument, individuals can persuade other agents to move toward more cultivated states of inner and outer autonomy. For the Kant recovered in this book, rhetoric becomes another part of human activity that can be animated by the value of humanity, and it can serve as a powerful tool to convince agents to embark on the arduous task of moral self-cultivation.

Native American Rhetoric Routledge

The fourth edition of *Inviting Transformation* continues to offer an innovative approach to presentational speaking at a very reasonable price. The

authors introduce readers to invitational rhetoric, teaching speakers to clarify ideas and to work to achieve understanding for all participants in an interaction. A primary goal of presentational speaking is to create an environment in which growth and change can occur for both the audience and the speaker. The text highlights four external conditions affecting transformational environments: safety, openness, freedom, and value (honoring the intrinsic worth of all individuals). To reflect respect for the diversity of the world, Sonja Foss and Karen Foss include options from many speaking traditions and practices to foster creativity. Discussions of all the processes of presenting—selecting a speaking goal, organizing ideas, elaborating on ideas, and delivering the presentation—emphasize inclusive speaking practices. Sample presentations provide clear and contemporary examples of the best invitational speaking practices. The authors recognize readers as competent communicators and encourage them to think about and systematize their approaches to presentational speaking. The exceptionally accessible writing style

is an aid to readers in thinking through strategies for meeting their interactional goals. Readers learn to design and deliver effective presentations for any speaking situation.

The Essential Rhetoric HarperCollins

Disability Rhetoric is the first book to view rhetorical theory and history through the lens of disability studies. Traditionally, the body has been seen as, at best, a rhetorical distraction; at worst, those whose bodies do not conform to a narrow range of norms are disqualified from speaking. Yet, Dolmage argues that communication has always been obsessed with the meaning of the body and that bodily difference is always highly rhetorical. Following from this rewriting of rhetorical history, he outlines the development of a new theory, affirming the ideas that all communication is embodied, that the body plays a central role in all expression, and that greater attention to a range of bodies is therefore essential to a better understanding of rhetorical histories, theories, and possibilities.

Composition-Rhetoric Longman Publishing Group

Originally published as *La Rhétorique dans l'Antiquité* (2000), this new English edition provides students with a valuable introduction to understanding the classical art of rhetoric and its place in ancient society and politics

Rhetoric and Composition Penn State Press

Rhetoric and composition is an academic discipline that informs all other fields in teaching students how to communicate their ideas and construct their arguments. It has grown dramatically to become a cornerstone of many undergraduate courses and curricula, and it is a particularly dynamic field for scholarly research. This book offers an accessible introduction to teaching and studying rhetoric and composition. By combining the history of rhetoric, explorations of its underlying theories, and a survey of current research (with practical examples and advice), Steven Lynn offers a solid foundation for further study in the field. Readers will find useful information on how students have been taught to invent and organize materials, to express themselves correctly and effectively, and how the ancient study of memory and

delivery illuminates discourse and pedagogy today. This concise book thus provides a starting point for learning about the discipline that engages writing, thinking, and argument.

Rhetorical Feminism and This Thing Called Hope Bedford/St. Martin's

Rhetoric gives our words the power to inspire. But it's not just for politicians: it's all around us, whether you're buttering up a key client or persuading your children to eat their greens. You have been using rhetoric yourself, all your life. After all, you know what a rhetorical question is, don't you? In this updated edition of his classic guide, Sam Leith traces the art of argument from ancient Greece down to its many modern mutations. He introduces verbal villains from Hitler to Donald Trump - and the three musketeers: ethos, pathos and logos. He explains how rhetoric works in speeches from Cicero to Richard Nixon, and pays tribute to the rhetorical brilliance of AC/DC's "Back In Black". Before you know it, you'll be confident in chiasmus and proud of your panegyrics - because rhetoric is useful, relevant and absolutely nothing to be afraid of.

The Essential Guide to Rhetoric Southern

Illinois University Press

With the emergence of democracy in the city-state of Athens in the years around 460 BC, public speaking became an essential skill for politicians in the Assemblies and Councils - and even for ordinary citizens in the courts of law. In response, the technique of rhetoric rapidly developed, bringing virtuoso performances and a host of practical manuals for the layman. While many of these were little more than collections of debaters' tricks, the *Art of Rhetoric* held a far deeper purpose. Here Aristotle (384-322 BC) establishes the methods of informal reasoning, provides the first aesthetic evaluation of prose style and offers detailed observations on character and the emotions. Hugely influential upon later Western culture, the *Art of Rhetoric* is a fascinating consideration of the force of persuasion and sophistry, and a compelling guide to the principles behind oratorical skill.

Organizational Rhetoric SAGE

In *The Art of Rhetoric*, Aristotle demonstrates the purpose of rhetoric—the ability to convince people using your skill as a speaker rather than the validity or

logic of your arguments—and outlines its many forms and techniques. Defining important philosophical terms like ethos, pathos, and logos, Aristotle establishes the earliest foundations of modern understanding of rhetoric, while providing insight into its historic role in ancient Greek culture. Aristotle's work, which dates from the fourth century B.C., was written while the author lived in Athens, remains one of the most influential pillars of philosophy and has been studied for centuries by orators, public figures, and politicians alike. HarperTorch brings great works of non-fiction and the dramatic arts to life in digital format, upholding the highest standards in ebook production and celebrating reading in all its forms. Look for more titles in the HarperTorch collection to build your digital library.

The Art Of Rhetoric Sta

Rhetoric and feminism have yet to coalesce into a singular recognizable field. In this book, author Cheryl Glenn advances

the feminist rhetorical project by introducing a new theory of rhetorical feminism. Clarifying how feminist rhetorical practices have given rise to this innovative approach, *Rhetorical Feminism* and *This Thing Called Hope* equips the field with tools for a more expansive and productive dialogue. Glenn's rhetorical feminism offers an alternative to hegemonic rhetorical histories, theories, and practices articulated in Western culture. This alternative theory engages, addresses, and supports feminist rhetorical practices that include openness, authentic dialogue and deliberation, interrogation of the status quo, collaboration, respect, and progress. Rhetorical feminists establish greater representation and inclusivity of everyday rhetors, disidentification with traditional rhetorical practices, and greater appreciation for alternative means of delivery, including silence and listening. These tenets are supported by a cogent

reconceptualization of the traditional rhetorical appeals, situating logos alongside dialogue and understanding, ethos alongside experience, and pathos alongside valued emotion. Threaded throughout the book are discussions of the key features of rhetorical feminism that can be used to negotiate cross-boundary mis/understandings, inform rhetorical theories, advance feminist rhetorical research methods and methodologies, and energize feminist practices within the university. Glenn discusses the power of rhetorical feminism when applied in classrooms, the specific ways it inspires and sustains mentoring, and the ways it supports administrators, especially directors of writing programs. Thus, the innovative theory of rhetorical feminism—a theory rich with tactics and potentially broad applications—opens up a new field of research, theory, and practice at the intersection of rhetoric and feminism.
