Too many companies are managed not by leaders, but by mere role players and faceless bureaucrats. What does it take to be a real leader—one who is confident in who she is and what she stands for, and who truly inspires people to achieve extraordinary results? Rob Goffee and Gareth Jones argue that leaders don't become great by aspiring to a list of universal character traits. Rather, effective leaders are authentic: they deploy individual strengths to engage followers' hearts, minds, and souls. They

are skillful at consistently being themselves, even as they alter their behaviors to respond effectively in changing contexts. In this lively and practical book, Goffee and Jones draw from extensive research to reveal how to hone and deploy one's unique leadership assets while managing the inherent tensions at the heart of successful leadership: showing emotion and withholding it, getting close to followers while keeping distance, and maintaining individuality while "conforming enough." Underscoring the social nature of leadership, the book also explores how leaders can remain attuned to the needs and expectations of followers. *Why Should Anyone Be Led By You?* will forever change how we view, develop, and practice the art of leadership,

wherever we live and work.

Retired early 2020, Brad Goldfarb was a successful financial advisor for thirty-five years. During his career, he received many requests and questions from his clients. This book is based on thirty of those actual questions where the only possible response is "You're kidding,

right?" From his studies throughout his career, Brad recognized there was a common thread behind these thoughts and questions; they seemed to come from client's emotions and not necessarily rational thinking. Recognizing that these thoughts are common, Brad knew he could help investors from making mistakes that prevent them from consistently making money long term. Behavioral Economics is the Nobel prizewinning theory behind what leads investors to make emotional and irrational investment decisions. During his career, Brad has appeared on both radio and TV numerous times and lectured many audiences and financial advisors on some of the advanced analytical techniques he learned about Modern Portfolio Theory (MPT), risk

measurement, and asset allocation when he earned the Certified Investment Management Analyst (CIMA) designation taught in conjunction with the prestigious Wharton Business School in Pennsylvania. He knew he could simplify this knowledge, so every investor could easily understand and apply it to their own strategy. This book was not written to offer specific advice to investors. It was not written with the idea of do-it-yourself. It was written to educate and enlighten investors to allow them to work more collaboratively with their financial advisor. Brad hopes you will use this book to gain a better understanding of asset allocation and risk so you can avoid the mistakes so many make during downturns and turmoil in the financial markets.

Gadda Prize - Established Scholars, Cultural Studies Category Winner of the American Association for Italian Studies Book Prize (20th & 21st Centuries) Honorable Mention for the Howard R. Marraro Prize By linking Italy's long history of emigration to all continents in the world, contemporary transnational migrations directed toward it, as well as the country's colonial legacies, Fiore's book poses Italy as a unique laboratory to rethink national belonging at large in our era of massive demographic mobility. Through an interdisciplinary cultural approach, the book finds traces of globalization in a past that may hold interesting lessons about inclusiveness for the present. Fiore rethinks Italy's formation and development on a transnational map through cultural

analysis of travel, living, and work spaces as depicted in literary, filmic, and musical texts. By demonstrating how immigration in Italy today is preoccupied by its past emigration and colonialism, the book stresses commonalities and dispels preoccupations.

"In a riveting debut novel that reads like Prep meets Gone Girl, a young woman is determined to create the perfect life--husband, home, and career--until a violent incident from her past threatens to unravel everything and expose her most shocking secret of all. Twenty-eight-year-old New Yorker Ani FaNelli seems to have it all: she's a rising star at The Women's Magazine, impossibly fit, perfectly groomed, and about to marry Luke Harrison, a handsome blueblood.

But behind that veneer of perfection lies a vulnerability that Ani holds close and buries deep--a very violent and public trauma from her past that has left her constantly trying to reinvent herself. And only she knows how far she would go to keep her secrets safe. When a documentary producer invites Ani to tell her side of the chilling incident that took place when she was a teenager at the prestigious Bradley School, she hopes it will be an opportunity for public vindication. Armed with the trappings of success--expensive clothes, high-powered byline, a massive engagement ring--she is determined to silence the whispers of suspicion and blame from her past, and prove once and for all how far she's come since Bradley. She'll even let them film her lavish wedding on

Nantucket, the final step in her transformation. But perfection doesn't come without cost. As the wedding and filming converge, Ani's meticulously crafted facade begins to buckle and crack--until an explosive revelation offers her a final chance at redemption, even as it rocks her picture-perfect world. Equal parts glitz and darkness, and with a singular voice and twisting plot, *Luckiest Girl Alive* reads like *Sex & the City*--if Carrie Bradshaw had a closet full of skeletons instead of shoes. In *Ani FaNelli*, Jessica Knoll has created a complex and vulnerable heroine who you'll be rooting for to the very last page"--

heists and tunnel jobs, break-ins and escapes, *A Burglar's Guide to the City* offers an unexpected blueprint to the criminal possibilities in the world all around us. You'll never see the city the same way again. At the core of *A Burglar's Guide to the City* is an unexpected and thrilling insight: how any building transforms when seen through the eyes of someone hoping to break into it. Studying architecture the way a burglar would, Geoff Manaugh takes readers through walls, down elevator shafts, into panic rooms, up to the buried vaults of banks, and out across the rooftops of an unsuspecting city. With the help of FBI Special Agents, reformed bank robbers, private security consultants, the L.A.P.D. Air Support Division, and architects past and

present, the book dissects the built environment from both sides of the law. Whether picking padlocks or climbing the walls of high-rise apartments, finding gaps in a museum's surveillance routine or discussing home invasions in ancient Rome, *A Burglar's Guide to the City* has the tools, the tales, and the x-ray vision you need to see architecture as nothing more than an obstacle that can be outwitted and undercut. Full of real-life heists—both spectacular and absurd—*A Burglar's Guide to the City* ensures readers will never enter a bank again without imagining how to loot the vault or walk down the street without planning the perfect getaway.

The Prevent strategy, launched in 2007 seeks to stop people becoming terrorists or supporting terrorism both in the UK and overseas. It is the preventative strand of the government's counter-terrorism strategy, CONTEST. Over the past few years Prevent has not been fully effective and it needs to change.

This review evaluates work to date and sets out how Prevent will be implemented in the future. Specifically Prevent will aim to: respond to the ideological challenge of terrorism and the threat we face from those who promote it; prevent people from being drawn into terrorism and ensure that they are given appropriate advice and support; and work with sectors and institutions where there are risks of radicalization which need to be addressed
