the author "It is in no small part thanks
to Alexander's account that civil rights
organizations such as Black Lives Matter

the criminal justice system." —Adam

Shatz, London Review of Books Seldom does a book have the impact of Michelle Alexander's *The New Jim Crow*. Since it was first published in 2010, it has been cited in judicial decisions and has been adopted in campus-wide and community-wide reads; it helped inspire the creation of the Marshall Project and the new \$100 million Art for Justice Fund; it has been the winner of numerous prizes, including the prestigious NAACP Image Award; and it has spent nearly 250 weeks on the New York Times bestseller list. Most important of all, it has spawned a whole generation of criminal justice reform activists and organizations motivated by Michelle Alexander's unforgettable argument that "we have not ended racial caste in America; we have merely

redesigned it." As the Birmingham News proclaimed, it is "undoubtedly the most important book published in this century about the U.S." Now, ten years after it was first published, The New Press is proud to issue a tenth-anniversary edition with a new preface by Michelle Alexander that discusses the impact the book has had and the state of the criminal justice reform movement today. FEATURING A BRAND NEW STORY

“What’s special about ‘Cat Person,’ and the rest of the stories in You Know You Want This, is the author’s expert control

of language, character, story—her ability to write stories that feel told, and yet so unpretentious and accessible that we think they must be true.” —The New York Times Book Review “Kristen Roupenian isn’t just an uncannily great writer, she also knows things about the human psyche—things that I always supposed I would learn at some point, but never did...The world has made a lot more sense since reading this book.” —Miranda July, New York Times bestselling author “If you think you know what this collection will be like, you’re wrong. These stories are sharp and perverse, dark and bizarre, unrelenting and utterly bananas. I love them so, so much.” —Carmen Maria Machado, National Book Award Finalist and author of *Her Body and Other Parties* A

compulsively readable collection of short stories that explore the complex—and often darkly funny—connections between gender, sex, and power across genres. Previously published as *You Know You Want This*, “Cat Person” and *Other Stories* brilliantly explores the ways in which women are horrifying as much as it captures the horrors that are done to them. Among its pages are a couple who becomes obsessed with their friend hearing them have sex, then seeing them have sex...until they can’t have sex without him; a ten-year-old whose birthday party takes a sinister turn when she wishes for “something mean”; a woman who finds a book of spells half hidden at the library and summons her heart’s desire: a nameless, naked man; and a self-proclaimed

“biter” who dreams of sneaking up behind and sinking her teeth into a green-eyed, long-haired, pink-cheeked coworker. Spanning a range of genres and topics—from the mundane to the murderous and supernatural—these are stories about sex and punishment, guilt and anger, the pleasure and terror of inflicting and experiencing pain. These stories fascinate and repel, revolt and arouse, scare and delight in equal measure. And, as a collection, they point a finger at you, daring you to feel uncomfortable—or worse, understood—as if to say, “You want this, right? You know you want this.”

The authoritative account of the rise of Amazon and its intensely driven founder, Jeff Bezos, praised by the Seattle Times as "the definitive account of how a tech icon came to life." Amazon.com started off delivering books through the mail.

But its visionary founder, Jeff Bezos, wasn't content with being a bookseller. He wanted Amazon to become the everything store, offering limitless selection and seductive convenience at disruptively low prices. To do so, he developed a corporate culture of relentless ambition and secrecy that's never been cracked. Until now. Brad Stone enjoyed unprecedented access to current and former Amazon employees and Bezos family members, giving readers the first in-depth, fly-on-the-wall account of life at Amazon. Compared to tech's other elite innovators -- Jobs, Gates, Zuckerberg -- Bezos is a private man. But he stands out for his restless pursuit of new markets, leading Amazon into risky new ventures like the Kindle and cloud computing, and transforming

retail in the same way Henry Ford revolutionized manufacturing. The Everything Store is the revealing, definitive biography of the company that placed one of the first and largest bets on the Internet and forever changed the way we shop and read.

Strengthening Forensic Science in the United States Macmillan

The Latinx Urban Condition brings interdisciplinary cultural theory and U.S. Latinx urban literature into conversation, focusing on the realities and urban experiences of Latinx living in major cities in the United States from the 1960's to the present. As a cultural studies analyst of U.S. Latinx urban literature and culture, the book focuses on analyzing the works of Latinx authors who write about the cities in which they

were raised and how growing up in these environments shaped their lives, their communities, and their future. Their fictional work helps us understand how the human and cultural tapestry of the Latinx community is inextricably connected to the spatial transformations taking place in many cities across the country, most notably within the cities in which the narratives take place. The main purpose is to analyze the symbolic realities lived by the characters in order to understand how Latino families and communities are experiencing displacement under instituted neoliberal policies, a process known as development and progress or gentrification. These processes are experienced through aspects of privatization, deregulation,

homelessness, residential segregation, inequality, unemployment, and poverty. *The Practice of the Wild* Simon and Schuster

Scores of talented and dedicated people serve the forensic science community, performing vitally important work. However, they are often constrained by lack of adequate resources, sound policies, and national support. It is clear that change and advancements, both systematic and scientific, are needed in a number of forensic science disciplines to ensure the reliability of work, establish enforceable standards, and

promote best practices with consistent application. *Strengthening Forensic Science in the United States: A Path Forward* provides a detailed plan for addressing these needs and suggests the creation of a new government entity, the National Institute of Forensic Science, to establish and enforce standards within the forensic science community. The benefits of improving and regulating the forensic science disciplines are clear: assisting law enforcement officials, enhancing homeland security, and reducing the risk of wrongful conviction and exoneration. *Strengthening Forensic Science in the United States* gives a full account of what is needed to advance the forensic science disciplines, including upgrading of systems and organizational

structures, better training, widespread adoption of uniform and enforceable best practices, and mandatory certification and accreditation programs. While this book provides an essential call-to-action for congress and policy makers, it also serves as a vital tool for law enforcement agencies, criminal prosecutors and attorneys, and forensic science educators.

My 1980s and Other Essays Laurel Leaf Malls, stadiums, and universities are actually liturgical structures that influence and shape our thoughts and affections. Humans--as Augustine noted--are "desiring agents," full of longings and passions; in brief, we are what we love. James K. A. Smith focuses on the themes of liturgy and desire in *Desiring the Kingdom*, the first book in what will

be a three-volume set on the theology of culture. He redirects our yearnings to focus on the greatest good: God. Ultimately, Smith seeks to re-vision education through the process and practice of worship. Students of philosophy, theology, worldview, and culture will welcome *Desiring the Kingdom*, as will those involved in ministry and other interested readers.

Passionate Hearts Chronicle Books Focusing on the often unrecognized role race plays in expressions of Chicano culture, *Mestizaje* is a provocative exploration of the volatility and mutability of racial identities. In this important moment in Chicano studies, Rafael Pérez-Torres reveals how the concepts and realities of race, historical memory, the body, and community have

both constrained and opened possibilities for forging new and potentially liberating multiracial identities. Informed by a broad-ranging theoretical investigation of identity politics and race and incorporating feminist and queer critiques, Pérez-Torres skillfully analyzes Chicano cultural production. Contextualizing the history of *mestizaje*, he shows how the concept of mixed race has been used to engage issues of hybridity and voice and examines the dynamics that make *mestizo* and *mestiza* identities resistant to, as well as affirmative of, dominant forms of power. He also addresses the role that *mestizaje* has played in expressive culture, including the hip-hop music of Cypress Hill and the vibrancy of Chicano poster art. Turning to issues of

mestizaje in literary creation, Pérez-Torres offers critical readings of the works of Emma Pérez, Gil Cuadros, and Sandra Cisneros, among others. This book concludes with a consideration of the role that the mestizo body plays as a site of elusive or displaced knowledge. Moving beyond the oppositions—nationalism versus assimilation, men versus women, Texans versus Californians—that have characterized much of Chicano studies, *Mestizaje* synthesizes and assesses twenty-five years of pathbreaking thinking to make a case for the core components, sensibilities, and concerns of the discipline. Rafael Pérez-Torres is professor of English at the University of California, Los Angeles. He is author of *Movements in Chicano Poetry: Against*

Myths, Against Margins, coauthor of *To Alcatraz, Death Row, and Back: Memories of an East LA Outlaw*, and coeditor of *The Chicano Studies Reader: An Anthology of Aztlán, 1970–2000*.

In her search for positive, healthy sexual images to help her in her practice, renowned sex therapist and author Wendy Maltz solicited and sought out “poems that inspire and celebrate healthy sexual intimacy; poems in which heart connection was at the core of the sexual experience.” In reviewing more than 1,500 submissions, she asked, “Does this poem represent mutual

caring and desire? Do the partners relate as equals, respecting each other as separate individuals? Is there a sense of emotional trust and honesty? Are the sexual interactions assumed to be safe from emotional and physical harm? Does the poem celebrate sensual pleasures?” The result is a remarkable anthology of intimate, emotionally explicit, yet accessible poetry, representing new voices as well as the most revered contemporary poets. Culled from classic works of poetry, literary and erotica journals, and unpublished poetry, *Passionate Hearts* celebrates the joys of sexual connection and expression throughout the life of a relationship, from early courtship to mature love. These poems awaken desire and reveal the mysterious power and beauty of

sexual sharing. Contributing poets include: Gary Soto, Pablo Neruda, Sharon Olds, Marge Piercy, Tess Gallagher, e.e. cummings, Molly Peacock, Raymond Carver, Galway Kinnell, Sara Teasdale, David Steinberg, Robert Wrigley,
