 PALEOLITHIC The aim of this book is to introduce some of the  
 lithic types currently used for research in the Lower and Middle  
 Paleolithic of Europe. The principal typology presented here is  
 that of Francois Bordes (1961), though supplemented by a  
 number of types defined by others.

In this part of the Handbook we will define and discuss various  
 named types recognized in European Lower and Middle  
 Paleolithic industries, building on the typology of Bordes. Since  
 the typology is simply a list of categories, there are many  
 potential ways to organize it.
