This is the road map to a seven-figure business . . . in one year or less The word "entrepreneur" is today's favorite buzzword, and any aspiring business owner has likely encountered an overwhelming number of so-called "easy paths to success." The truth is that building a real, profitable, sustainable business requires thousands of hours of commitment, grit, and hard work. It's no wonder why more than half of new businesses close within six years of opening, and fewer than 5 percent will ever earn more than \$1 million annually. 12 Months to \$1 Million condenses the startup phase into one fast-paced year that has helped hundreds of new entrepreneurs hit the million-dollar level by using an exclusive and foolproof formula. By cutting out the noise and providing a clear and proven plan, this roadmap helps even brand-new entrepreneurs make decisions quickly, get their product up for sale, and launch it to a crowd that is ready and waiting

to buy. This one-year plan will guide you through the three stages to your first \$1 million: • The Grind (Months 0-4): This step-by-step plan will help you identify a winning product idea, target customers that are guaranteed to buy, secure funding, and take your first sale within your first four months. • The Growth (Months 5 - 8): Once you're in business, you will discover how to use cheap and effective advertising strategies to get your product to at least 25 sales per day, so you can prove you have a profitable business. • The Gold (Months 9-12): It's time to establish series of products available for sale, until you are averaging at least 100 sales per day, getting you closer to the million-dollar mark every single day. Through his training sessions at Capitalism.com, Ryan Daniel Moran has helped new and experienced entrepreneurs launch scalable and sustainable online businesses. He's seen more than 100 entrepreneurs cross the seven-figure barrier, many of whom go on to sell their businesses. If your goal is to be a full-time entrepreneur, get ready for one chaotic, stressful, and rewarding year. If you have the guts to complete it, you will be the proud owner of a million-dollar business and be in a position to call your own shots for life.

How to Make a Million Dollars Profit in 5 Years or Less John Emmanuel

My wife and I are self-made millionaires, having grown our net worth from humble beginnings to nearly \$7 million in 2020. The purpose of this book is to empower and enrich ordinary people, stop popular myths and conventional "wisdom" from robbing people millions of dollars, and show novel "Money Tree" methods for people to achieve financial freedom. This book is for high school and college students, young professionals, renters, homeowners, middle-aged employees, real estate investors, mutual fund investors, 401k investors, IRA and Roth IRA investors, and retirees. This book focuses on lucrative, innovative, think-outside-of-the-box strategies to make millions that are executable and reproducible by ordinary people. I am sad to see financial myths and harmful conventional "wisdom" killing the financial freedom of ordinary people. For high school and college students selecting a career, they often hear this advice: "Pursue your passion." This book presents a unique "combination is creation" approach that can enable you to: (1) earn millions more in your career, (2) pursue your passion, and (3) make a greater contribution to the society. In addition, people believe: "I'm young. If I delay investing by a few years, what's the big deal?" Well, as shown in Chapter 3, such a delay can cost you \$4 million. Furthermore, this conventional wisdom is

popular: "Prepay your mortgage and pay it off early. It saves you interest money." As shown in Chapter 7, this can cost an ordinary person more than \$6 million. This book demonstrates the intelligent use of loans to maintain leverage and plant money trees. As shown in Chapter 7, the money tree methods can produce \$6 million to \$80 million for an ordinary family. Moreover, this conventional wisdom is also popular: "Live a debt-free life! Debt-free is the new rich!" Actually, this can cost millions of dollars and destroy opportunities for people. This book shows the intelligent use of good debt to grow millions for you. Here is another myth: "Mutual funds are all similar. Just pick a few to put your money in." As shown in Chapter 15, this can cost an ordinary person \$3.8 million over a working career. This book provides simple money-tree methods that can help the ordinary employee accumulate \$4.5 million, in an example in Chapter 15. Here is another myth: "A 1% fee charged by mutual funds is not a big deal." Using average mutual funds with average fees can make you lose \$3.49 million in profits, as illustrated in Chapter 16. People believe: "Ordinary people cannot beat the gurus." Chapter 18 lays out an easy money-tree method for the ordinary person to far outperform the professionals and achieve financial freedom. This book debunks popular myths and harmful conventional wisdom. The money-tree methods are unorthodox, anti-conventional-wisdom, lucrative, and simple. By thinking independently and outside of the box, you will be rewarded with millions of dollars to provide yourself and your loved ones with financial freedom. This book shows how to grow money trees so that your money will grow day and night, year after year. You will be making money while vacationing in Europe, on a cruise ship, and in your sleep.
