If you want to become a Certified Nursing Assistant this year, you NEED this guide! A CNA or a certified nursing assistant is not a nurse but a well-trained direct care staff member who works under the supervision of a licensed registered nurse (RN). In some states, a licensed practical nurse or a

licensed vocational nurse (LPN/LVN) can also serve as a CNA supervisor. Under the direction and supervision of a licensed nurse, the CNA helps patients or residents with their direct health care needs, such as bathing, eating, toileting, medications, and other aspects of daily living. They may also assist with ongoing patient monitoring and documentation. This study guide is not affiliated with or endorsed by any official testing organization. All organizational and test names are trademarks of their respective owners. This 350-page detail study guide provides those looking to earn their CNA with material that addresses required CNA educational content and applies to all aspiring CNAs, regardless of the state where they want to work. In addition, the guide offers useful additional material and resources on CNA education, oversight, and education funding that are relevant on a state-by-state basis.
