 Pirani & Other Short Stories is an English translation of Jamal Abro's collection of short stories that were originally published in the Sindhi language. Abro is considered to be amongst the best writers in the Sindhi literary arena. The book comprises of sixteen short stories that capture the essence of the land and the people of rural Sindh. Pirani & Other Short Stories arrests the reader's interest with its diversity, specific characteristics, and penetrating depiction of Sindh's social order. These classic short stories are accompanied by an informative introduction exploring the background of the stories and appreciating the significance of the finer points of the plot and the rendition. The work also includes two enlightening profiles of the author. The translation remains faithful to the style and mode of the original Sindhi text and adds to the authenticity of the narrative. This book certainly fills a gap in the dearth of accessible Sindhi literature available to the English readership. 'I don't know who made the distinction that poetry dances while prose walks. While reading Pirani, I felt that even prose can dance.' - Shaikh Ayaz 'Jamal [Abro] was a legend in his lifetime. He will remain a legend. His writings are the vowels of contemporary Sindhi literature. His brilliant mastery of the short story writing is simple, moving, and long lasting. He opened up new and vast perspectives; writing classics that demand constant re-reading.' - Hamid Akhund

 The Indo-Aryan languages are spoken by at least 700 million people throughout India, Pakistan, Bangladesh, Nepal, Sri Lanka and the Maldives. They have a claim to great antiquity, with the earliest Vedic Sanskrit texts dating to the end of the second millennium B.C. With texts in Old Indo-Aryan, Middle Indo-Aryan and Modern Indo-Aryan, this language family supplies a historical documentation of language change over a longer period than any other subgroup of Indo-European. This volume is divided into two main sections dealing with general matters and individual languages. Each chapter on the individual language covers the phonology and grammar (morphology and syntax) of the language and its writing system, and gives the historical background and information concerning the geography of the language and the number of its speakers.

 About two hundred kilometers west of the city of Karachi, in the desert of Baluchistan, Pakistan, sits the shrine of the Hindu Goddess Hinglaj. Despite the temple's ancient Hindu and Muslim history, an annual festival at Hinglaj has only been established within the last three decades, in part because of the construction of the Makran Coastal Highway, which connects the distant rural shrine with urban Pakistan. Now, an increasingly confident minority Hindu community has claimed Hinglaj as their main religious center, a site for undisturbed religious performance and expression. In Hinglaj Devi, Jørgen Schaflechner studies literary sources in Hindi, Sanskrit, Sindhi, and Urdu alongside extensive ethnographical research at the shrine, examining the political and cultural influences at work at the temple and tracking the remote desert shrine's rapid ascent to its current status as the most influential Hindu pilgrimage site in Pakistan. Schaflechner introduces the unique character of this place of pilgrimage and shows its modern importance not only for Hindus, but also for Muslims and Sindhi nationalists. Ultimately, this is an investigation of the Pakistani Hindu community's beliefs and practices at their largest place of worship in the Islamic Republic today--a topic of increasing importance to Pakistan's contemporary society.

A voyage to Broddingnag Oxford University Press
This book demonstrates how a local elite built upon colonial knowledge to produce a vernacular knowledge that maintained the older legacy of a pluralistic Sufism. As the British reprinted a Sufi work, Shah Abd al-Latif Bhattai's *Shah jo risalo*, in an effort to teach British officers Sindhi, the local intelligentsia, particularly driven by a Hindu caste of professional scribes (the Amils), seized on the moment to promote a transformation from traditional and popular Sufism (the *tasawuf*) to a Sufi culture (Sufiyani *saqafat*). Using modern tools, such as the printing press, and borrowing European vocabulary and ideology, such as Theosophical Society, the intelligentsia used Sufism as an idiomatic matrix that functioned to incorporate difference and a multitude of devotional traditions—Sufi, non-Sufi, and non-Muslim—into a complex, metaphysical spirituality that transcended the nation-state and filled the intellectual, spiritual, and emotional voids of postmodernity.
