## GLORIA SIENA

---

### **An Introduction** Oxford University Press

This substantially revised third edition of the leading text on political ideologies takes full account of the impact of the post-Cold War world order, the challenge of postmodernism, the advance of globalization, and the advent of global terrorism, and includes additional coverage of the prospects for ideologies in the 21st century.

### Modern Political Ideologies Cambridge University Press

This book is the first intersectionality-mainstreamed textbook written for introductory political science courses.

### *An Introduction* John Wiley & Sons

Never HIGHLIGHT a Book Again Includes all testable terms, concepts, persons, places, and events. Cram101 Just the FACTS101 studyguides gives all of the outlines, highlights, and quizzes for your textbook with optional online comprehensive practice tests. Only Cram101 is Textbook Specific. Accompanies: 9780872893795. This item is printed on demand.

### Political Ideologies Routledge

The new third edition of the highly successful text has been revised and updated throughout to take account of new issues such as identity and difference, globalization and multiculturalism. The book provides a clear and accessible introduction to political theory and key concepts in political analysis. Each chapter discusses a cluster of interrelated terms, examines how they have been used by different thinkers and in the various political traditions, and explores related debates and controversies.

### **An Introduction** SAGE

The epic successor to one of the most important books of the century: at once a retelling of global history, a scathing critique of contemporary politics, and a bold proposal for a new and fairer economic system. Thomas Piketty's bestselling *Capital in the Twenty-First Century* galvanized global debate about inequality. In this audacious follow-up, Piketty challenges us to revolutionize

how we think about politics, ideology, and history. He exposes the ideas that have sustained inequality for the past millennium, reveals why the shallow politics of right and left are failing us today, and outlines the structure of a fairer economic system. Our economy, Piketty observes, is not a natural fact. Markets, profits, and capital are all historical constructs that depend on choices. Piketty explores the material and ideological interactions of conflicting social groups that have given us slavery, serfdom, colonialism, communism, and hypercapitalism, shaping the lives of billions. He concludes that the great driver of human progress over the centuries has been the struggle for equality and education and not, as often argued, the assertion of property rights or the pursuit of stability. The new era of extreme inequality that has derailed that progress since the 1980s, he shows, is partly a reaction against communism, but it is also the fruit of ignorance, intellectual specialization, and our drift toward the dead-end politics of identity. Once we understand this, we can begin to envision a more balanced approach to economics and politics. Piketty argues for a new "participatory" socialism, a system founded on an ideology of equality, social property, education, and the sharing of knowledge and power. Capital and Ideology is destined to be one of the indispensable books of our time, a work that will not only help us understand the world, but that will change it.

### **Politics** Psychology Press

*Political Ideologies* An Introduction Red Globe Press

**Political Ideologies** Oxford University Press on Demand  
*Political Ideologies and the Democratic Ideal*, 9/e, thoroughly analyzes and compares political ideologies to help readers understand these ideologies as acutely as a political scientist does. Used alone or with its companion *Ideals and Ideologies: A Reader*, 9/e, this best-selling title promotes open-mindedness and develops critical thinking skills.

### **An Introduction** Palgrave MacMillan

This is a completely new edition of a widely used, concise and readable textbook. *Political Ideologies* contains chapters on liberalism, conservatism, nationalism, fascism, socialism, democracy, feminism and ecologism. It also includes a wide-

ranging introduction looking at the role of ideology from Bacon to Fukuyama. Each chapter analyses the principal ideas and concepts of each ideology, distinguishing it from rival doctrines; sets each ideology clearly within its historical and political context; and provides an annotated guide to further reading. The book is written in a clear and accessible style, introducing students to the complexities of political ideas. Those approaching the subject for the first time will find *Political Ideologies* an informative and engaging introduction.

### *An Introduction* OUP Oxford

Designed for classroom use, this book develops a framework for the comparative analysis of political ideologies and examines the most prominent political ideologies of modern time. This revised edition has been enlarged to include feminism and environmentalism.

### The Oxford Handbook of Political Ideologies Routledge

*What Is Political Theory?* provides students with a comprehensive overview of the current state of the discipline. Eleven substantive chapters address the most pressing topics in political theory today, including: - what resources do the classic texts still provide for political theorists? - what areas will political theorists focus on in the future? - can western political theory alone continue to provide a framework for responding to the challenges of modern political life? The authors assess the intellectual challenges to conventional political theory, such as post-structuralism and the scientific study of politics, that have revitalized the field in the last 30 years. They also broaden the perspective to take in non-western ideas and to reconceptualize political theory in the light of specifically global challenges. Students and teachers of political theory and political philosophy will find this book invaluable in understanding the factors that have shaped current political theory and which will guide its future development.

### *An Introduction to Political Science through Science Fiction* McFarland

This informative and widely-used text is now available in a third edition. Building on the success of previous editions, it continues to provide a clear and accessible introduction to the complexities of political ideologies. The new edition of *Political Ideologies: An*

*A Very Short Introduction* Routledge

This informative and widely-used text is now available in a third edition. Building on the success of previous editions, it continues to provide a clear and accessible introduction to the complexities of political ideologies. The latest edition of *Political Ideologies*: introduces and considers the future of all the most widely studied ideologies: liberalism; conservatism; socialism; democracy; nationalism; fascism; ecologism and feminism sets each ideology clearly within its historical and political context includes a new final chapter that examines the impact of recent theoretical developments of ideologies and charts the challenges that they face in the twenty-first century has been fully revised and updated and provides an annotated guide for further reading.

*An Introduction* Bloomsbury Publishing

Thoroughly revised and updated, this third edition provides a comprehensive account of the major political ideologies of the past two centuries. Provides an expanded and thoroughly updated account of the major political ideologies of the past two centuries, including liberalism, conservatism, socialism, anarchism, fascism, feminism, environmentalism, and nationalism Features a brand new chapter on fundamentalism, along with greater emphasis on the global impact of ideologies in general Examines the complex overlap and interplay of ideas that exist both within and between ideologies Incorporates the newest developments and scholarship in the field, and includes a helpful new glossary of key terms

*Political Ideologies* Routledge

Offering an unparalleled, sweeping survey of the political ideologies that have shaped our world, the seventh edition of Andrew Heywood's seminal undergraduate textbook continues to lead the way in guiding students through the political creeds and doctrines that have dominated politics past and present. Covering an impressive array of topics, the first half of the book focusses on traditional ideologies such as Conservatism, Socialism,

Liberalism, Anarchism and Fascism, while more contemporary movements such as Populism, Feminism, Green Ideology, Multiculturalism and Religious Fundamentalism form the latter part of the text. Taking into account the remarkable events that have shaken the political sphere in recent years, the text has been revised and updated throughout in order to show how the study of political ideologies can elucidate the significance of such striking phenomena as the decline of liberal democracy and the rise of populist movements and authoritarianism around the world. The most accessible, concise and yet comprehensive introduction to the topic, this is an indispensable textbook for students studying for courses on Political Ideologies, Political Theory and introductory Politics. It should be essential reading for anyone seeking to gain an understanding of political ideologies for the first time.

*Political Ideologies, Fourth Edition* Oxford University Press

The fifth edition of this seminal textbook by best-selling author Andrew Heywood continues to lead the way in providing a comprehensive and authoritative introduction to politics. Renowned for its engaging and accessible style, this book helps students to understand the discipline's foundational concepts and theories and use these to make sense of its key subfields, from elections and voting to security and global governance.

Systematically revised and updated throughout, it also uses a range of tried-and-tested pedagogical features to draw links between different standpoints and help make contemporary institutions, events and developments come to life. Drawing on a wide range of international examples, this text is the ideal choice for lecturers around the world. Carefully designed and written to map onto the way the subject is introduced at degree level, it remains the go-to text for undergraduate introductory and comparative politics courses. Furthermore, it can also be used as pre-course reading or as a point of reference throughout politics degrees, majors or minors. New to this Edition: - Restructured and revised to reflect the decline of democracy and the rise of populism and authoritarianism in different parts of the world - New Politics in Action features reflect the latest political developments - including 'Trump's triumph: politics as polarization'; 'South Africa: a one-party state?'; and 'North Korea: a rogue nuclear power?' - Discusses the transformation of the media landscape, assessing the advent and impact of social

media and 'fake news' - New and improved text design reflecting the book's contemporary and engaging coverage - Accompanied by a brand new website, featuring a flashcard glossary, additional cases, interactive simulations and weblinks for students, PowerPoint slides for lecturers, a testbank and a guide to using the book.

*Political Ideologies* Oxford University Press

This revised and updated fourth edition of the leading text on political ideologies contains a new chapter on multiculturalism, consideration of the changing nature of ideological discourse, including the transition from "traditional" to "new" ideologies, and coverage of the impact on the major ideological traditions of developments such as globalization and the "war on terror".

*Political Ideologies* Political Ideologies An Introduction

Political Ideologies provides a broad-ranging introduction to both the classical and contemporary political ideologies. Adopting a global outlook, it introduces readers to ideologies' increasingly global reach and the different national versions of these ideologies. Importantly, ideologies are represented as frameworks of interpretation and political commitment, encouraging readers to evaluate how ideologies work in practice, the problematic links between ideas and political action, and the impact of ideologies. Regular learning features encourage readers to think critically about ideologies, and view them as competing and contestable ways of interpreting the world. A unique "stop and think" feature calls for readers to reflect on their own ideological beliefs. Online Resources: *Political Ideologies* is accompanied by comprehensive online resources, to support political ideology courses. For students: \* Further reading and resources for each chapter to help students to undertake further research and deepen their understanding and critical thinking; \* Regular updates help students to keep up to date with ideologies as frameworks of understanding and political action in the real world. For lecturers: \* Indicative answers to questions in the book provide a framework for approaching these; \* Powerpoint slides to support each chapter, providing an overview and key points to help with planning; \* Further discussion and debate ideas, for use in seminars, encourage big picture thinking about the relationships between ideologies.

*An Introduction* University of Toronto Press

"This book provides an engaging and intellectually challenging

introduction to political ideologies, while at the same time giving an accessible route into the subject for those new to politics. Supported by an outstanding companion website, it has strong claims to be the best undergraduate textbook on ideologies on the market." Dr. Mike Gough, University of East Anglia

**Introduction to Political Theory** is a text for the 21st century. It shows students why an understanding of theory is crucial to an understanding of issues and events in a rapidly shifting global political landscape. Bringing together classic and contemporary political concepts and ideologies into one book, this new text introduces the major approaches to political issues that have shaped the modern world, and the ideas that form the currency of political debate. **Introduction to Political Theory** relates political ideas to political realities through effective use of examples and cases studies making theory lively, contentious and relevant. This thoroughly revised and updated second edition contains new chapters on global justice and political violence, as well as an expanded treatment of globalisation and the state. A wide range of pedagogical features helps to clarify, extend and apply students' understanding of the fundamental ideologies and concepts. This is comprised of:

- Case studies demonstrate how political ideas, concepts and issues manifest in the real world
- 'Focus' boxes encourage students to appreciate alternative

viewpoints

- A range of thought provoking photographs challenge students to examine concepts from a different angle
- Suggestions for further reading and weblinks are also provided to help students to further their understanding

**Introduction to Political Theory** is accompanied by an innovative website with multiple choice questions, biographies of key figures in political theory, further case studies and an innovative 'how to read' feature which helps students get to grips with difficult primary texts.

#### **An Introduction to Political Theory** Routledge

Inspired by Freud's *The Psychology of the Everyday*, this book examines the unconscious processes shaping contemporary political ideologies. Addressing ten fundamental questions, Robert Samuels identifies four basic political ideologies: liberal, conservative, Left, and Right, which are often placed in the structure of a logical square, determined by two binary oppositions, with a fifth structure of centrism complicating the square. He turns to psychoanalysis to explain the unconscious defense mechanisms that structure these political ideologies. Each chapter uses a recent, influential title as a gateway to the analysis of the ideologies and structures identified. Through this analysis, Samuels argues that belief in ideological structures is tied to triumvirates of institutions and ideals; conservatives being tied to premodern institutions of religion, feudalism, and

monarchy, while modern liberals are tied to ideals of universality, objectivity, and empiricism. He concludes that this investment in universality shapes the ethics of modern globalization and democratic liberalism. Unlike other books, conclusions are reinforced through examples drawn from current events with an integrated model of different psychopathologies. **The Psychopathology of Political Ideologies** moves beyond providing an understanding of what drives different political investments, to offer a more rational and conscious comprehension of subjectivity and social organization. This book will be a great resource for those interested in politics, political science psychology, social psychology, globalization, and ideology.

#### **The Rise of the Global Imaginary** Routledge

Underpinned by the work of major thinkers such as Marx, Locke, Weber, Hobbes and Foucault, the first half of the book looks at political concepts including: the state and sovereignty; the nation; democracy; representation and legitimacy; freedom; equality and rights; obligation; and citizenship. There is also a specific chapter which addresses the role of ideology in the shaping of politics and society. The second half of the book addresses traditional theoretical subjects such as socialism, Marxism and nationalism, before moving on to more contemporary movements such as environmentalism, ecologism and feminism.
