COHEN KARTER

Chicken Cheeks (the Beginning of the Ends) Wildlife Picture Books

Warning -- this book contains top-secret information about butterflies! Prepare to be shocked and grossed out by this hilarious and totally true picture book introduction to a fascinating insect. Butterflies are beautiful and quiet and gentle and sparkly . . . but that's not the whole truth. Butterflies can be GROSS. And one butterfly in particular is here to let everyone know! Talking directly to the reader, a monarch butterfly reveals how its kind is so much more than what we think. Did you know some butterflies enjoy feasting on dead animals, rotten fruit, tears and even poop? Some butterflies are loud, like the Cracker butterfly. Some are stinky -- the smell scares predators away. Butterflies can be sneaky, like the ones who pretend to be ants to get free babysitting. This hilarious and refreshing book with silly and sweet illustrations explores the science of butterflies and shows that these insects are not the stereotypically cutesy critters we often think they are -- they are fascinating, disgusting, complicated and amazing creatures.

Battle of the Butts Adventure Publications

Invites readers to guess what animal they are looking at based on an image of the animal's bottom.

Butts on Things Abrams

Kar-Ben Read-Aloud eBooks with Audio combine professional narration and text highlighting to bring eBooks to life! "In one little town (it is sad but it's true), The tushies left town without leaving a clue." What happens when all the tushies in an unusual town decide to take a vacation?

In this interactive picture book by renowned wildlife photographer Stan Tekiela, readers are shown common animal tracks, given clues, and asked to guess, "Whose track is that?"

Color My Butt Courier Dover Publications

See what a baby animal's family looks like in the final book of this nonfiction series, now in paperback Around the world, baby animals grow up in all kinds of families. Whether it's albatrosses raising babies in big colonies or sibling pairs of polar bears, baby animals with their families are not only adorable--they can teach us about animal behavior, too. The fourth and final book in the Baby Animals series, *Baby Animals with Their Families* showcases more than ten species from around the world in different family behaviors and arrangements. Stunning, intimate, full-color photographs by Suzi Eszterhas are each paired with a short sentence highlighting information about the animal. Designed both to be read aloud and for young children to explore independently, this book will encourage readers to make connections between their own families and the animals. Back matter gives further information about Suzi Eszterhas and some behind-the-scenes detail.

My Smelly Ass Union Square Kids

Uses simple text and photographs to capture baby animals as they move about in the wilderness, along with sections that provide brief facts about each animal and a sketch of its footprints.

Fox Chapel Publishing

Rhyming couplets feature Professor Poopdeck and two young friends as he takes them on a type of poop safari. Words for poop (i.e. guano, number two, ca-ca), its forms and styles (cubes, tubular, wet and dry), and myriad of uses (i.e. souvenirs, fertilizer, fuel) are all conveyed with humor and a certain demand for respect. Full color.

Butts Are Everywhere Running Press Kids

"Winning, cheeky, and illuminating....What appears initially as a folly with a look-at-this cover and title becomes, thanks to Radke's intelligence and curiosity, something much meatier, entertaining, and wise." —The Washington Post "Lively and thorough, *Butts* is the best kind of nonfiction." —Esquire, Best Books of 2022 A "carefully researched and reported work of cultural history" (The New York Times) that explores how one body part has influenced the female—and human—experience for centuries, and what that obsession reveals about our lives today. Whether we love them or hate them, think they're sexy, think they're strange, consider them too big, too small, or anywhere in between, humans have a complicated relationship with butts. It is a body part unique to humans, critical to our evolution and survival, and yet it has come to signify so much more: sex, desire, comedy, shame. A woman's butt, in particular, is forever being assessed, criticized, and objectified, from anxious self-examinations trying on jeans in department store dressing rooms to enduring crass remarks while walking down a street or high school hallways. But why? In *Butts: A Backstory*, reporter, essayist, and RadioLab contributing editor Heather Radke is determined to find out. Spanning nearly two centuries, this "whip-smart" (Publishers Weekly, starred review) cultural history takes us from the performance halls of 19th-century London to the aerobics studios of the 1980s, the music video set of Sir Mix-a-Lot's "Baby Got Back" and the mountains of Arizona, where every year humans and horses race in a feat of gluteal endurance. Along the way, she meets evolutionary biologists who study how butts first developed; models whose measurements have defined jean sizing for millions of women; and the fitness gurus who created fads like "Buns of Steel." She also examines the central importance of race through figures like Sarah Bartmann, once known as the "Venus Hottentot," Josephine Baker, Jennifer Lopez, and other women of color whose butts have been idolized, envied, and despised. Part deep dive reportage, part personal journey, part cabinet of curiosities, *Butts* is an entertaining, illuminating, and thoughtful examination of why certain silhouettes come in and out of fashion—and how larger ideas about race, control, liberation, and power affect our most private feelings about ourselves and others.

Butts HarperCollins

What is it about zoo residents? Is it because they're cooped up all day with nothing better to do? Is it because they lack the appropriate clothing for their unusual size and shape? Is there no laundry service? Whatever the reason, whenever you go to the zoo, what can you be sure to see? Heinies, and plenty of 'em. From demure to bodacious, Ayun Halliday and Dan Santat are finally willing to show us the true appeal of the zoo--There are always heinies, and lots of 'em.

Grover's Book of Cute Little Baby Animals Disney-Hyperion

For fans of Taro Gomi's *Everyone Poops* and Matthew Van Fleet's *Tails*, this cheeky, whimsical

picture book for ages 3-7 inspires self-love and body positivity, plus a whole lot of laughter and fun! All bottoms are wonderful! Don't you agree? Each animal in this adorable book has a different reason for loving their behind—from cute and round to fashionable and striped! Talented illustrator Maki Saito makes kids laugh out loud with playful illustrations of the backsides of hippos, zebras, pandas, mandrills, and more of our favorite animals. Her traditional Japanese art techniques add a sophisticated, beautiful feel to a book about ... animal butts! Kids will love reading along to this wonderfully silly and unusually empowering book. "In Saito's delicate renderings, each bottom is distinct and, yes, beautiful." —Kirkus

The Cows Greystone Books Ltd

Did you know manatees swim using farts? Or that herrings communicate by passing gas? Butts are used for breathing, eating, swimming, talking, and even killing in the animal kingdom. Focusing on ten different animals and their derrières, and offering fun facts about their origin, habitat, and "posterior power," this hilarious book captures the wonder of our ecosystem. Which animal has the coolest butt power? That's up to you to decide!

Animals Brag About Their Bottoms Blue Apple Books

Whose feathery butt is this? A chicken's feathery butt, of course! Little ones will love to see the close-up photography and try to guess which animal the wrinkly, colorful, fluffy, or prickly butt belongs to. Animals featured include: Bunny Chicken Mandrill Shar-Pei Porcupine About the Whose Is It series: These photo-based, early learning nonfiction books use a simple question-and-answer format to provide a fun and interactive learning experience for very young readers. Readers will learn about the characteristics of several body parts of a wide variety of animals as they observe the bold text and stunning photographs.

We Move the World Owlkids

You know what? What? Chicken butt! The classic schoolyard joke has been recast as an irreverent picture book, with call-and-response parts for parent and child. The word repetition in Erica S. Perl's text, and wonderfully comic illustrations by beloved artist Henry Cole, make this a particularly inviting book for new readers, as does the opportunity to "trick" a parent or other adult into participating in a very silly joke. The humor builds to a surprising and satisfying conclusion. Warning: Kids will want to read this one over and over and over again! "An unhinged piece of slap-happy rhyming...rocket-propelled artwork...the romp is a powerful piece of cacophony, more frenetic by the moment."—Kirkus Reviews
