Samson Greene, a young university professor, is found wandering in the Nevada desert. When his wife comes to take him home, she finds a man who remembers nothing, not even his own name. The removal of a small brain tumour saves his life, but his memories beyond the age of twelve are permanently lost. Here is the story of a strikingly intelligent, sensitive man returned to a world in which everything is strange and new. An emigrant in his own life, he is set free from everything and everyone who once defined him. Samson believes he has nothing left to lose. So, when a charismatic scientist asks him to participate in a bold experiment, Samson agrees...

This is the amazing and inspiring true story of a Polish Jewish Partisan leader and Soviet captive during World War II. Joseph L. Zygielbaum fought the Nazis under the Polish and Soviet flags and alongside the American Office of Strategic Services. These memoirs reveal his heroism in the face of personal tragedy and place him squarely in the heart of Holocaust history. Zygielbaum, the son of the famed Polish martyr Szmul Zygielbaum, begins with a description of his childhood and then takes the reader through an odyssey spanning horrendous events from 1939 to 1945 and the battlefields of Eastern and Northern Europe. A reserve officer in the Polish army at 19 years old, Zygielbaum witnesses the German and Russian invasion of his homeland. He swiftly becomes a Partisan leader. After his wife and toddler son are murdered by the Nazis, he undertakes ever more risky missions and is captured by the Russians, narrowly escaping execution as a spy. He relates his many experiences in the USSR, culminating in his being impressed into the Red Army to fight the Germans. As a special forces fighter, he is deployed into many battle zones. Close to the end of the war, he escapes and returns

to Poland, where he meets and marries his new love and emigrates with her to the United States. Zygielbaum's book was published after his death in 1995 by his sons, long after he had completed a noted career in the early American space program. The story relates many everyday aspects of life as a Partisan and as a Soviet soldier, amid the ever-present terror of the war and the tragedy all around.

"He Walks with Dragons" takes place when what was, what is, and what shall be were one in the same. Draig, a boy on the verge of his manhood, is summoned to the majestic mountain by the Great Ones. There he finds out he is about to transcend the ages and risk his life to prevent the destruction of mankind. Born into the naïve innocence of ancient man, Draig lives a simple pastoral existence in a quiet, small village. But one day he is flung on a magical journey into a forbidden new world. There, Draconos, a dragon, befriends the boy, training him in the art of warfare. From this day forward, the young boy finds himself in awe at the wonders the world holds for him. Not only has Draig become a man, but he is living like a dragon and learning their mystical powers. "From the time Man first crawled upon this earth...we found him worthy to take his rightful place among the creatures that walk upon the earth. While hiding in the shadows, we have protected him. We have nurtured him all these many ages. But now man grows in great numbers and makes war on everything he sees." And when the time comes, will Draig be willing to lay down his life for the sake of saving the dragons? And when the dragons are gone, where will he go? He is no longer just a man.

*A Wrinkle in Time* is the winner of the 1963 Newbery Medal. It was

a dark and stormy night—Meg Murry, her small brother Charles Wallace, and her mother had come down to the kitchen for a midnight snack when they were upset by the arrival of a most disturbing stranger. "Wild nights are my glory," the unearthly stranger told them. "I just got caught in a downdraft and blown off course. Let me sit down for a moment, and then I'll be on my way. Speaking of ways, by the way, there is such a thing as a tesseract." A tesseract (in case the reader doesn't know) is a wrinkle in time. To tell more would rob the reader of the enjoyment of Miss L'Engle's unusual book. *A Wrinkle in Time*, winner of the Newbery Medal in 1963, is the story of the adventures in space and time of Meg, Charles Wallace, and Calvin O'Keefe (athlete, student, and one of the most popular boys in high school). They are in search of Meg's father, a scientist who disappeared while engaged in secret work for the government on the tesseract problem.

John was once described by a friend as a man who looked like he had a party going on in his head all the time. In *Duck Butts: Seasons With God* he invites you to that party. In this, his first collection of writings, he shares his somewhat askew humor with short essays like *If I Were the Pope*. He takes us on an imaginative flight in *Astronaut*, and then brings us soberly back home with *Walking For Groceries*. Within these pages you'll also find experiments in poetry and a few song lyrics, some of which have forgotten melodies and have come to stand as statements that punctuate a journey of faith and grace. This book can be read straight through but also allows the reader to go slow and experience the change of seasons. John's voice can be irreverent, silly, and painfully honest but always returns to grace--as all seasons with God do.

Krauss's depictions of the nuances of sex and love, intimacy and dependence, call to mind the work of Natalia Ginzburg in their psychological profundity, their intellectual rigor. . . . Krauss's stories capture characters at moments in their lives when they're hungry for experience and open to possibilities, and that openness extends to the stories themselves: narratives too urgent and alive for neat plotlines, simplistic resolutions or easy answers." —Molly Antopol, New York Times Book Review "From a contemporary master, an astounding collection of ten globetrotting stories, each one a powerful dissection of the thorny connections between men and women. . . . Each story is masterfully crafted and deeply contemplative, barreling toward a shimmering, inevitable conclusion, proving once again that Krauss is one of our most formidable talents in fiction." —Esquire In one of her strongest works of fiction yet, Nicole Krauss plunges fearlessly into the struggle to understand what it is to be a man and what it is to be a woman, and the arising tensions that have existed from the very beginning of time. Set in our contemporary moment, and moving across the globe from Switzerland, Japan, and New York City to Tel Aviv, Los Angeles, and South America, the stories in *To Be a Man* feature male characters as fathers, lovers, friends, children, seducers, and even a lost husband who

may never have been a husband at all. The way these stories mirror one other and resonate is beautiful, with a balance so finely tuned that the book almost feels like a novel. Echoes ring through stages of life: aging parents and new-born babies; young women's coming of age and the newfound, somewhat bewildering sexual power that accompanies it; generational gaps and unexpected deliveries of strange new leases on life; mystery and wonder at a life lived or a future waiting to unfold. *To Be a Man* illuminates with a fierce, unwavering light the forces driving human existence: sex, power, violence, passion, self-discovery, growing older. Profound, poignant, and brilliant, Krauss's stories are at once startling and deeply moving, but always revealing of all-too-human weakness and strength.

Reading this book will make you less sure of yourself—and that's a good thing. In *The Invisible Gorilla*, Christopher Chabris and Daniel Simons, creators of one of psychology's most famous experiments, use remarkable stories and counterintuitive scientific findings to demonstrate an important truth: Our minds don't work the way we think they do. We think we see ourselves and the world as they really are, but we're actually missing a whole lot. Chabris and Simons combine the work of other researchers with their own findings on attention, perception, memory, and reasoning to reveal how faulty intuitions often get us into trouble. In the process, they explain: • Why a company would spend billions to launch a product that its own analysts know will fail • How a police officer could run right past a brutal assault without seeing it • Why award-winning movies are full of editing mistakes • What criminals have in common with chess masters • Why measles and other childhood diseases are making a comeback • Why money managers could learn a lot from

weather forecasters Again and again, we think we experience and understand the world as it is, but our thoughts are beset by everyday illusions. We write traffic laws and build criminal cases on the assumption that people will notice when something unusual happens right in front of them. We're sure we know where we were on 9/11, falsely believing that vivid memories are seared into our minds with perfect fidelity. And as a society, we spend billions on devices to train our brains because we're continually tempted by the lure of quick fixes and effortless self-improvement. *The Invisible Gorilla* reveals the myriad ways that our intuitions can deceive us, but it's much more than a catalog of human failings. Chabris and Simons explain why we succumb to these everyday illusions and what we can do to inoculate ourselves against their effects. Ultimately, the book provides a kind of x-ray vision into our own minds, making it possible to pierce the veil of illusions that clouds our thoughts and to think clearly for perhaps the first time.
