Can you really lose twenty pounds in a month? Will you really keep it off this time? With The Rice Diet Solution, you will! The Rice Diet Program has been helping dieters successfully lose weight since 1939. Now in book form, this world-renowned weight-loss method can help you change the way you eat forever. The Rice Diet Program in Durham, North Carolina, was one of the first medical facilities in America to use diet as the primary way to treat disease. On this high-complex-carb, low-fat, and low-sodium whole-foods diet, "Ricers" lose weight faster, more safely, and more effectively than people on any other diet. Men lose on average twenty-eight to thirty pounds and women on average nineteen to twenty pounds per month! The Rice Diet also detoxes your body, ridding it of excess water weight and toxins from processed foods and the environment. The program's results have been documented by extensive studies and confirmed by thousands of

people who report amazing weight loss, as well as immediate improvement in such conditions as heart disease, diabetes, and hypertension. Here's how it works: The Rice Diet strictly limits salt and sodium-rich ingredients. Salt, like refined sugar, is an appetite stimulant, so when you reduce salt intake, you lose water weight and are less inclined to overeat. The Rice Diet also limits saturated fats and instead relies on carbohydrates (fruits, vegetables, grains, and beans) as the main source of nutrition. The fiber cleanses your system and satisfies you so you feel full quickly. The Rice Diet makes it easy to limit calories; when you're eating foods that truly satisfy your hunger, it's a challenge to eat 1,500 calories per day! To make it easy to follow the program, The Rice Diet Solution includes hundreds of tasty, filling, easy-to-prepare recipes—some from the Rice House kitchen, others inspired by major chefs and adapted to Rice Diet standards.

Back to the Basic is an Life Enrichment guide. This book was written to give the reader a guide on how to become aware of their true identity from within. We have all become predisposed to evolving into what our environment, culture, family values and society deemed to be normal or acceptable. In the process of this adaptation we have lost our true-self. This book benefits everyone who has been successful, seeking success or currently having success. It benefits all levels of success because it is not focused on your age, color, creed, sexuality, race, economic or social status. It gives you a basic guide on how to become and maintain true success from within on your own terms and choices. My message to the reader is if you choose to take on the challenge of re-learning yourself, do it with complete and utter transparency. This is specifically for your purpose. This is a personal journey only for you. If done correctly it will benefit those around you and motivate you to the next level of your most true and inner desire. My goal in writing this book comes from my own experiences, successes, trials, tribulations and triumphs. It is a journey still in process because my destination is still unknown. During the interwar years, a proliferation of violence encroached upon the glossy, idealistic world of fashion: from the curiously common appearance of dismembered heads in fashion illustration, to seemingly torturous techniques and devices advertised by beauty imagery, even extending to garments designed to look assaulted and destroyed. *Danger in the Path of Chic* brings this disturbing imagery to light for the first time, proposing new directions for historians of fashion, violence and culture in the interwar years. Concentrating on London, Paris and New York as fashion centres and political allies, the volume explores why horror manifested itself in this way, at this time, and in a sphere that is usually perceived as being built on fantasy and escape. In doing so, *Danger in the Path of Chic* situates fashion within the very real social, psychological, economic and political traumas of the period.
