## REID GOODMAN

*Exploring Theories Against Wearing Them* Krause Publications  
The Grand Touring Prototype (GTP) series began with the Lola T-600 that Brian Redman drove to victory in 1981, breaking Porsche's stranglehold on sports car racing. What followed was some of the most competitive factory involvement in road racing in modern times.

*Stealing Speed* Pearson College Division

For 100 years, the Isle of Man Tourist Trophy races have been the world's most dangerous organized sporting event. As one of thirty thousand fans who attended the annual spectacle, Mark Gardiner harbored no illusions about his own skill or bravery. He was, however, an avid motorcyclist for whom the race represented a boyhood dream. He went home, quit his job, sold everything he owned, and returned to the Island to race there himself. *Riding Man* is the account of an Everyman, struggling to qualify for -- and survive -- the TT races. If you're a dreamer, the lesson in this

book is that the pursuit of any worthwhile goal involves risks, rewards and, almost inevitably some regrets. If you're not a dreamer, the lesson is more important: the deepest regrets are always over risks not taken.

*A German Affair* Lulu.com

The first GSX-R was created in 1985 as a groundbreaking departure from the ponderous sportbikes of the day. That revolutionary motorcycle took a time-honored racing credo to heart: light is right. (And another one: It can never be too fast.) Never before had the performance and design of a race bike been so faithfully carried over to the street. In the seven generations since, Suzuki has remained true to the concept of the original GSX-R: to build the most serious, track-worthy sportbike. What's more, the company's engineers have been relentless in their pursuit to refine and improve the bike.

In the years since Sid Watkins' first bestselling book of Formula One memoirs, *Life at the Limit*, was published the sport has seen enormous changes. The FIA's President, Max Mosley, has

launched a zero option policy with the goal of zero mortality and much research and development has gone into technical changes to the cars, circuit design, safety barrier development and personal protection in the cockpit. The Prof has been intimately involved with this work, and discusses it in detail here, but as he knows only too well, uncertainty and unpredictability provide the thrills both the fans and the drivers crave. In *Beyond the Limit*, Watkins also looks at some of the extraordinary Grands Prix the sport has seen in the last four years, including Schumacher's epic crash at Silverstone in 1999. He also looks back over his twenty or more years in the sport and discusses some of the great drivers he has known. Here, too, is a race-by-race account of the Millenium season offering a completely up-to-date picture of Formula One at the beginning of the 21st century. 'Makes fascinating reading' *Planet F1* 'Lively and entertaining...will make the reader laugh out loud' *F1 Magazine* '[Sid Watkin's] anecdotes are littered with humour and show us that one of the most respected men in F1 is also one of the funniest' *Motorsport News* *Silent Sentinels of Ranthambhore* Simon and Schuster Mashiro, a hermaphrodite high school student, joins a "special" dream class to become completely male but faces obstacles from other students along the way.

Do we really need to wear masks? From the New York Times Bestselling authors of *Plague of Corruption* comes the must-read guide on masks and re-opening following the COVID-19 pandemic. *The Truth About Masks* is the book all America needs to be reading as the COVID-19 pandemic rages on. Written by New York Times bestselling authors Dr. Judy Mikovits and Kent Heckenlively, this book reviews the evidence for and against widespread public masking as provided by the Centers for Disease Control and the Mayo Clinic, as well as top scientific publications such as the *New England Journal of Medicine* and *The Lancet*. This debate needs to take place without fear and paranoia. Important questions raised in this book are the effect of masks on oxygen and carbon dioxide levels, how COVID-19 spreads, the effectiveness of various types of masks, those who are most vulnerable to COVID-19, and what measures should be taken by schools as children continue to return to in-person classes. The authors' previous book, *Plague of Corruption*, was the runaway science bestseller of 2020, and the authors bring that same passion and attention to detail to the mask question. As politicians and bureaucrats of all stripes are weighing in on this question, with some again placing their cities and states under mandatory masking provisions, we need to understand the

science behind their decisions. Are such measures a reasonable response to current circumstances, or is it a dramatic overreach, which in many cases might make the situation even worse? America desperately needs this public conversation to take place with the best science we have available. As Americans have always done during difficult times, we must summon the courage to have these challenging conversations.

An acclaimed photographer introduces the incredible variety of stylish cyclists pedaling through city streets in this stunningly illustrated book. No city boasts of a more fashion-forward population of bicyclists than London. Photographer Horst Friedrichs meets his subjects in their own milieu: zooming around the city's streets on two wheels. There he encounters a dazzling array of style and a surprising amount of substance. In tweeds (both Harris and hipster) and Saville Row suits, in hightops and stilettos, in flowing skirts and the skinniest jeans, wildly tattooed and impeccably manicured, sporting bowler hats and racing caps, London's cyclists are jubilantly exercising their fashion freedom. Whether they're leisurely filling their baskets from market to home or pedaling purposefully to an important meeting, experiencing the city as cycling tourists, or getting from place to place in the most economical way possible, Friedrichs' subjects share a love of the bicycle culture that is sweeping the streets of London and the rest of the world.
