Neuropsychological Assessment
 Lezak Muriel Deutsch Lezak is an American neuropsychologist best known for her book *Neuropsychological Assessment*, widely accepted as the standard in the field. Her work has centred on the research, assessment, and rehabilitation of brain injury. Dr. Lezak is Emeritus Professor of Neurology at the Oregon Health and Science University School of Medicine. Muriel Lezak - Wikipedia

Now in its Fifth Edition, *Neuropsychological Assessment* reviews the major neurobehavioral disorders associated with brain dysfunction and injury. This is the 35th anniversary of the landmark first edition. As with previous editions, this edition provides a comprehensive coverage of the field of adult clinical neuropsychology in a single source. By virtue of the authors' clinical and research specializations, this book provides a broad-based and in-depth coverage of current neuroscience ...

Neuropsychological Assessment: Lezak, Howieson, Bigler ...

The development of standardized metrics sensitive to brain-behavior relationships has shaped the neuropsychological questions we can ask, our understanding of discrete brain functions, and has informed the detection and treatment of neurological disorders. We identify key turning points and innovations in neuropsychological assessment over the past 40–50 years that highlight how the tools used in common practice today came to be.

Neuropsychological Assessment: Past and Future | Journal ...

Neuropsychological assessment was traditionally carried out to assess the

extent of impairment to a particular skill and to attempt to determine the area of the brain which may have been damaged following brain injury or neurological illness. With the advent of neuroimaging techniques, location of space-occupying lesions can now be more accurately determined through this method, so the focus has now moved on to the assessment of cognition and behaviour, including examining the effects of any brain injury.
