A member of the unique generation of African writers and intellectuals who came of age in the last days of colonialism, Wole Soyinka has witnessed the promise of independence and lived through postcolonial failure. He deeply comprehends the pressing problems of Africa, and, an irrepressible essayist and a staunch critic of the oppressive boot, he unhesitatingly speaks out. In this magnificent new work, Soyinka offers a wide-ranging inquiry into Africa's culture, religion, history, imagination, and identity. He seeks to understand how the continent's history is entwined with the histories of others, while exploring Africa's truest assets: "its humanity, the quality and valuation of its own existence, and modes of managing its environment—both physical and intangible (which includes the spiritual)." Fully grasping the extent of Africa's most challenging issues, Soyinka nevertheless refuses defeatism. With eloquence he analyzes problems ranging from the meaning of the past to the threat of theocracy. He asks hard questions about racial attitudes, inter-ethnic and religious violence, the viability of nations whose boundaries were laid out by outsiders, African identity on the continent and among displaced Africans, and more. Soyinka's exploration of Africa relocates the continent in the reader's imagination and maps a course toward an African

future of peace and affirmation.

### Noble Words Apress

Java's pilgrimage culture is a dense, batik-like pattern of contradictions: seriousness collides with laughter; curiosity with bewilderment; piety with scepticism; intense spirituality with, in some places, the joy of shopping. The pilgrimage culture on the island of Java in Indonesia – the world's largest Muslim country – is a rebuke to the conservative orthodoxy that has been gaining ground in Indonesia's religious landscape since the 1980s. In the rhetoric of this orthodoxy the "real" Islam is pure and exclusive. Piety comes from obedience to religious authority and its rules. Local pilgrimage is anything but pure and exclusive or rigidly authoritarian. It is powerfully Islamic but it fuses Islam with local history, the ancient power of place and a pastiche of devotional practices with roots deep in the pre-Islamic past. Quietly but tenaciously – just outside the great echo chamber of public space – it is growing as fast as the higher profile neo-orthodoxy. *Bandit Saints of Java* delves deep under the surface of modern Indonesia, exploring personalities and stories in the weird world of local pilgrimage, where Middle Eastern Islam wrestles with the ancient power of Javanese civilisation. It paints an astonishing portrait of Islam as it is practised today – largely invisible to journalists, scholars and tourists – by many of Java's 130 million people.

### The Book Of Remembrances Deepublish

#1 New York Times Bestseller Over 10 million copies sold In this

generation-defining self-help guide, a superstar blogger cuts through the crap to show us how to stop trying to be "positive" all the time so that we can truly become better, happier people. For decades, we've been told that positive thinking is the key to a happy, rich life. "F\*\*k positivity," Mark Manson says. "Let's be honest, shit is f\*\*ked and we have to live with it." In his wildly popular Internet blog, Manson doesn't sugarcoat or equivocate. He tells it like it is—a dose of raw, refreshing, honest truth that is sorely lacking today. The Subtle Art of Not Giving a F\*\*k is his antidote to the coddling, let's-all-feel-good mindset that has infected American society and spoiled a generation, rewarding them with gold medals just for showing up. Manson makes the argument, backed both by academic research and well-timed poop jokes, that improving our lives hinges not on our ability to turn lemons into lemonade, but on learning to stomach lemons better. Human beings are flawed and limited—"not everybody can be extraordinary, there are winners and losers in society, and some of it is not fair or your fault." Manson advises us to get to know our limitations and accept them. Once we embrace our fears, faults, and uncertainties, once we stop running and avoiding and start confronting painful truths, we can begin to find the courage, perseverance, honesty, responsibility, curiosity, and forgiveness we seek. There are only so many things we can give a f\*\*k about so we need to figure out which ones really matter, Manson makes clear. While money is nice, caring about what you do with your life is better, because true wealth is about experience. A much-needed grab-you-by-the-shoulders-and-look-you-in-the-eye moment of real-talk, filled with entertaining stories and profane, ruthless humor, *The Subtle Art of Not Giving a F\*\*k* is a refreshing slap for a generation to help them lead contented, grounded lives.

*The Book Of Remembrances [Kitab al-Adhkar]* – By Imam Yahya ibn Sharaf an-Nawawi *Kitab al-Adhkar* is the definitive compilation of words of remembrance and glorification of (dhikr), and supplicatory prayer to (du'a), the Lord of the Universe, as related from His final Emissary, the Prophet Muhammad (may Allah bless and exalt him). Dhikr and du'a lie at the very heart of the din, the relationship between creature and Creator. As part of the Sunna or Prophetic Way, they are a divinely appointed means of approaching Allah Most High for all our needs, and of making use of all the moments of daily life to strengthen our tawhid, the existential and cognitive Unity that is the hallmark of Muslim spirituality. Also covered are the vital principles of speaking only what is good and avoiding the sins of the tongue. The author, Muhy al-Din Yahya ibn Sharaf al-Nawawi (631-676/123-1277) devoted his entire life to the pursuit of sacred knowledge. He is revered throughout the Sunni world as one of its greatest authorities. Among his most famous writings are the *Arba'in*, a collection of forty Hadiths; a commentary on the *Sahih* of Imam Muslim; and *Kitab al-Adhkar*. Designed as a reference guide and a source of inspiration, this volume presents a clear and elegant English translation of Imam al-Nawawi's classic, together with the text of every single prayer and invocation, both in Arabic letters and in romanisation. Also included are all the authors statements about those Hadiths which he related personally from his own teachers, and his guidance on the correct spelling and meanings of rare words and names. Finally, al-Nawawi's comments on the sources of Hadiths are supplemented by further scholarly notes. *Animation: The Mechanics of Motion* "O'Reilly Media, Inc." Home to approximately one-fifth of the world's Muslim population, Indonesia and Malaysia are often overlooked or misrepresented in media discourses about Islam. Islam is a religion but there is also a popular culture, or popular cultures of Islam that are mass mediated, commercialized, pleasure-filled, humorous, and

representative of large segments of society. During the last forty years, popular forms of Islam, targeted largely towards urbanized youth, have played a key role in the Islamisation of Indonesia and Malaysia. This book focuses on these forms and the accompanying practices of production, circulation, marketing, and consumption of Islam. Dispelling the notion that Islam is monolithic, militaristic, and primarily Middle Eastern, the book emphasizes its dynamic, contested, and performative nature in contemporary South East Asia. Written by leading scholars alongside media figures, such as Rhoma Irama and Ishadi SK, the case studies although not focused on theology per se, illuminate how Muslims (and non-Muslims) in Indonesia and Malaysia make sense of their lives within an increasingly pervasive culture of Islamic images, texts, film, songs, and narratives.

The mystery of the Sufis, in the ancient usage of the word, is the experience of self-realization taught by traditional schools of

"mysticism." In English, too, the word "mystery" also stands for an art or craft, a skill; and this sense is also preserved in the Sufic usage of the word "Work," or science of the Sufi: "Knowledge without action is like wax without honey." The Sufi Mystery brings together writings by Ameer Ali, the Islamic historian; Professor E. G. Browne, the Orientalist; Sir Richard Burton; Robert Graves; Idries Shah; and many others. It deals with authentic and mutated schools and orders and their literature over a very wide area of geography and belief. Sufi theories and practices are examined, visits to Sufi centers are described, the relationships of master and disciple investigated, and links with other systems noted.

Investigating Sufi-inspired spirituality in the modern world, this interdisciplinary text combines cultural study with solid data to provide a comprehensive look at how the teachings of Ibn 'Arabi have been adopted and adapted by Muslims and non-Muslims. At the heart of this movement is the Beshara School in Scotland, founded in the 1960s, and now a center of international scholarship. Using the school as a case study, the discussion describes its emergence and evolution, its approach to spiritual education, the origins of its spiritual teacher, its major teachings and practices, and its projection of Ibn 'Arabi. Both rigorous and very timely, this effort points to areas of cultural exchange between East and West and highlights commonalities in the various historical changes both societies have undergone.

The Spring framework is growing. It has always been about choice. Java EE focused on a few technologies, largely to the detriment of alternative, better solutions. When the Spring framework debuted, few would have agreed that Java EE represented the best-in-breed architectures of the day. Spring debuted to great fanfare, because it sought to simplify Java EE. Each release since marks the introduction of new features designed to both simplify and enable solutions. With version 2.0 and later, the Spring framework started targeting multiple platforms. The framework provided services on top of existing platforms, as always, but was decoupled from the underlying platform wherever possible. Java EE is still a major reference point, but it's not the only target. OSGi (a promising technology for modular architectures) has been a big part of the SpringSource strategy here. Additionally, the Spring framework runs on Google App Engine. With the introduction of annotation-centric frameworks and XML schemas, SpringSource has built frameworks that effectively model the domain of a specific problem, in effect creating domain-specific languages (DSLs). Frameworks built on top of the Spring framework have emerged supporting application integration, batch processing, Flex and Flash integration, GWT, OSGi, and much more.
