Teaching U.S. History Beyond the Textbook Lifepac

From Christina Soontornvat, the visionary and versatile author of two 2021 Newbery Honor Books, comes a high-seas adventure set in a Thai-inspired fantasy world. In a fantasy adventure every bit as compelling and confident in its world building as her Newbery Honor Book *A Wish in the Dark*, Christina Soontornvat explores a young woman's struggle to unburden herself of the past and chart her own destiny in a world of secrets. As assistant to Mangkon's most celebrated mapmaker, twelve-year-old Sai plays the part of a well-bred young lady with a glittering future. In reality, her father is a conman—and in a kingdom where the status of one's ancestors dictates their social position, the truth could ruin her. Sai seizes the chance to join an expedition to chart the southern seas, but she isn't the only one aboard with secrets. When Sai learns that the ship might be heading for the fabled

Sunderlands—a land of dragons, dangers, and riches beyond imagining—she must weigh the cost of her dreams. Vivid, suspenseful, and thought-provoking, this tale of identity and integrity is as beautiful and intricate as the maps of old.

In the debut middle grade novel from #1 New York Times bestselling author Gayle Forman comes a poignant and powerful coming-of-age story that follows a young girl and her new friend as they learn about family, friendship, allyship, and finding your way in a complicated world. It's the summer of 1987, and all ten-year-old Bug wants to do is go to the beach with her older brother and hang out with the locals on the boardwalk. But Danny wants to be with his own friends, and Bug's mom is too busy, so Bug is stuck with their neighbor Philip's nephew, Frankie. Bug's not too excited about hanging out with a kid she's never met, but they soon find some common ground. And as the summer unfolds, they find themselves learning some important lessons about each other, and the world. Like what it means to be your true self and how to be a good ally for others. That family can be the people you're related to, but also the people you choose to have around you. And that even though life isn't always fair, we can all do our part to make it more just.

Produced for the Council of Europe project " Learning and teaching about the history of Europe in the 20th century", this book concentrates on the how rather than the what of teaching. Besides a study of selected themes and topics, it covers the teaching of sensitive issues, the reading of visual archives, analysing history on television and the Internet and assessing new technologies. Some of these new sources have not been made part of standard teacher training, yet they have a powerful role in the way young people perceive the past. The author is a Senior Research Fellow at Leirsinn Research Centre, University
