Constitutional History of India and National Movement Including the Comp. Study of the Modern Indian Constitution Constitutional Development & National Movemen in India

The history of the Indian national movement deserves to be better studied and known than has been the case so far. It was marked by a great deal of heroism and sacrifice on the part of the Indian people. The fifteen essays included in this book deal with the problems of the national movement, constitutional development and political unity in India during the period of British rule. They bring out the uniqueness both of the Indian challenge and the British response to it.

Constitutional Development & National Movemen in IndiaS. Chand Publishing

Towards India's Freedom and Partition ICFAI Books

"How did the founders of the most populous democratic nation in the world meet the problem of establishing a democracy after the departure of foreign rule? The justification for British imperial rule had stressed the impossibility of Indian self-government. At the heart of India's founding moment, in which constitution-making and democratization occurred simultaneously, lay the question of how to implement democracy in an environment regarded as unqualified for its existence. India's founders met this challenge in direct terms-the people, they acknowledged, had to be educated to create democratic citizens. But the path to education lay not in being ruled by a superior class of men but rather in the very creation of a self-sustaining politics. Universal suffrage was instituted amidst poverty, illiteracy, social heterogeneity, and centuries of tradition. Under the guidance of B. R. Ambedkar, Indian lawmakers crafted a constitutional system that could respond to the problem of democratization under the most inhospitable of conditions. On January 26, 1950, the Indian constitution-the longest in the world-came into effect. More than half of the world's constitutions have been written in the past three decades. Unlike the constitutional revolutions of the late-eighteenth century, these contemporary revolutions have occurred in countries that are characterized by low levels of economic growth and education; are divided by race, religion, and ethnicity; and have democratized at once, rather than gradually. The Indian founding is a natural reference point for such constitutional moments-when democracy, constitutionalism, and modernity occur simultaneously"--

**Echos of Indian National Movement in America** books catalog

Covers the history of Bihar during the Afghan rule in India.

**(Including the comparative study of the modern Indian constitution)** Routledge

First published in 1930, this book sought to explain to western readers the vital necessity of approaching the 'Indian problem' from the emerging national standpoint in India, and of appreciating its ideals. The author relates this necessity directly to the task undertaken by the Simon Commission in 1928 to make a survey of India and the resultant suggestions for constitutional changes in their report in early 1930. This work represents an attempt to bridge the gulf between India and Britain, one which appeared to be widening at the time of the report. This book will be of interest to students of colonialism and colonial India, especially as a prelude to its independence in 1947.
