Based on the first half of

the longtime market-

leader BUSINESS LAW:

TEXT AND CASES by

Clarkson/Miller/Cross, this

paperback text offers an

affordable solution for the

first course in a business

law series, often a requirement for business majors. It delivers an ideal blend of classic black letter law and contemporary cases. The text's strong student orientation makes the law accessible, interesting, and relevant, with cases that represent the latest developments. Important Notice: Media content referenced within the product description or the product text may not be available in the ebook version.

Course Dundurn

Electric and Hybrid

Vehicles: Power Sources,

Models, Sustainability,

Infrastructure and the

Market reviews the

performance, cost, safety,

and sustainability of

battery systems for hybrid

electric vehicles (HEVs)

and electric vehicles

(EVs), including nickel-

metal hydride batteries

and Li-ion batteries.

Throughout this book,

especially in the first

chapters, alternative

vehicles with different

power trains are

compared in terms of

lifetime cost, fuel

consumption, and environmental impact.

The emissions of greenhouse gases are particularly dealt with.

The improvement of the battery, or fuel cell,

performance and

governmental incentives

will play a fundamental

role in determining how

far and how substantial

alternative vehicles will

penetrate into the market.

An adequate recharging

infrastructure is of

paramount importance for

the diffusion of vehicles

powered by batteries and

fuel cells, as it may

contribute to overcome

the so-called range

anxiety." Thus, proposed

battery charging

techniques are

summarized and

hydrogen refueling

stations are described.

The final chapter reviews

the state of the art of the

current models of hybrid

and electric vehicles

along with the powertrain

solutions adopted by the

major automakers.

Contributions from the

worlds leading industry

and research experts

Executive summaries of

specific case studies

Information on basic

research and application

approaches

Lemon-Aid Used Cars and Trucks 2009-2010 Elsevier

Presents the latest safety ratings, dealer prices, fuel economy, insurance premiums, maintenance costs, and tires of new model automobiles.

Consumer Guide Books Pub

Reviews of more than 190 automobiles, four-wheel drive vehicles, and compact vans are accompanied by specification data, the latest prices, and recommendations, as well as lists of warranties, and tips on financing and insurance.

Consumer Reports New Car Buying Guide 2001

Dundurn

"Dr. Phil," Canada's best-known automotive expert, invites another driver to come aboard. After forty-six years and almost two million copies sold, Phil Edmonston is joined by a co-pilot for the Lemon-Aid Guide — George Iny, along with the editors of the Automobile Protection Association. The 2017 Lemon-Aid has everything: an encyclopedic lineup of the best and worst cars, trucks, and SUVs sold since 2007; secret warranties and tips on the "art of complaining" to help you get your money

back; and new-car buying tips that will save you tons of money by revealing the inflated cost of fancy and frivolous add-ons. Lemon-Aid is an essential guide for careful buyers and long-time gear-heads who don't know as much as they think.

New Cars and Trucks 2002 Dundurn

For the first time in one volume, Phil Edmonston, Canada's automotive "Dr. Phil," covers all used vehicles, packing this guide with insider tips to help the consumer make the safest and cheapest choice possible from cars and trucks of the past 25 years.

Books

Industrial Applications of Batteries looks at both the applications and the batteries and covers the relevant scientific and technological features. Presenting large batteries for stationary applications, e.g. energy storage, and also batteries for hybrid vehicles or different tools. The important aerospace field is covered both in connection with satellites and space missions. Examples of applications include, telecommunications, uninterruptible power supplies, systems for safety/alarms, car accessories, toll collection, asset tracking systems, medical equipment, and oil drilling. The first chapter on applications deals with

electric and hybrid vehicles. Four chapters are devoted to stationary applications, i.e. energy storage (from the electric grid or solar/wind energy), load levelling, telecommunications, uninterruptible power supplies, back-up for safety/alarms. Battery management by intelligent systems and prediction of battery life are dealt with in a dedicated chapter. The topic of used battery collection and recycling, with the description of specific treatments for the different systems, is also extensively treated in view of its environmental relevance. Finally, the world market of these batteries is presented, with detailed figures for the various applications. * Updated and full overview of the power sources for industries * Written by leading scientists in their fields * Well balanced in terms of scientific and technical information

America's Other Automakers Dundurn
 "Leadership is not for everyone. It requires bold, gutsy individuals. If you accept that premise, you will find his [Bob Herbold's] book rewarding reading." —Harvey Schachter, *The Globe and Mail* Quit hiding from

tough decisions and learn to confront them head-on Why do managers at all levels sacrifice corporate success by shying away from making the tough decisions? *What's Holding You Back?* reveals exactly why managers often hesitate to confront difficult issues-whether it's the absence of a perfect solution, the knowledge that no decision will please everyone, etc.-and, most importantly, how they can overcome these common managerial obstacles to maximize their company's success. *What's Holding You Back?* elucidates the ten core principles of confident leadership, outlining proven tactics by which managers can confront their inner wimp and highlight their inner courage. Features dynamic real-world examples from Apple, Microsoft, Porsche, IBM, Merck, Canon, Sony, Whirlpool, IDEO, Tesco, P&G, Target, 3M, and more Pinpoints the corporate failures that can result from hesitant or self-conscious organizations, and what managers can do to avoid them Clearly delineates how managers can cultivate and deliver accountable and decisive leadership, even during

the toughest dilemmas *What's Holding You Back?* proves that practicing gutsy leadership is the key to operational and innovative excellence in the workplace

This useful text unpicks the challenges of e-Marketing for many types of business. It uses topical case studies and accompanying web material to provide an up-to-date study of effective marketing strategies.

Annual Index/Abstracts of SAE Technical Papers, 2006 John Wiley & Sons
Lemon-Aid Used Cars and Trucks 20102011 shows buyers how to pick the cheapest and most reliable vehicles from the past 30 years of production. This book offers an exposé of gas consumption lies, a do-it-yourself service manual, an archive of service bulletins granting free repairs, and more.

History, Impacts, and Prospects Zestar

Corporation

In 2018 almost half of all vehicles made in North America were produced at foreign-owned plants, and the sector was on track to monopolize the market. Despite this, the industry has been overlooked compared with its domestic counterpart, both in scholarship and popular memory. Redressing this neglect, *America's Other Automakers* provides a new history of the

foreign-owned auto sector, the first to extensively draw on archival sources and to articulate the human agency of participants, including workers, managers, and industry recruiters. Timothy J. Minchin challenges the view that the industry's growth primarily reflected incentives, stressing human agency and the complexity of individual stories instead. Deeply human in its approach, the book also explores the industry's impact on grassroots communities, showing that it had more costs than supporters acknowledged. Drawing on a wide range of primary and secondary sources, *America's Other Automakers* uncovers significant tensions over unionization, reports of discriminatory hiring, and unease about the industry's rapid growth, critically exploring seven large assembly facilities and their impact on the communities in which they were built.

Oversight Field Hearing Before the Subcommittee on Energy and Mineral Resources of the Committee on Resources, U.S. House of Representatives, One Hundred Seventh

Congress, First Session, May 14, 2001, in New Orleans,

Based on tests conducted by Consumers Union, this guide rates new cars based on performance, handling, comfort, convenience, reliability, and fuel economy, and includes advice on options and safety statistics.

Consumer Reports New Car Buying Guide 2002 Psychology Press

Profiles and reviews more than one hundred cars and compact vans, offering discount price lists, complete ratings and specifications, and information on changes in the new model year
The Car Book 2003 Dundurn

As Toyota skids into an ocean of problems and uncertainty continues in the U.S. automotive industry, *Lemon-Aid Used Cars and Trucks 20112012* shows buyers how to pick the cheapest and most reliable vehicles from the past 30 years. *Lemon-Aid* guides are unlike any other car and truck books on the market. Phil Edmonston, Canada's automotive Dr. Phil for 40 years, pulls no punches. Like five books in one, *Lemon-Aid Used Cars and Trucks* is an

expos of car scams and gas consumption lies; a do-it-yourself service manual; an independent guide that covers beaters, lemons, and collectibles; an archive of secret service bulletins granting

free repairs; and a legal primer that even lawyers cant beat! Phil delivers the goods on free fixes for Chrysler, Ford, and GM engine, transmission, brake, and paint defects; lets you know about Corvette and Mustang

tops that fly off; gives the lowdown on Honda, Hyundai, and Toyota engines and transmissions; and provides the latest information on computer module glitches.
