This eighth edition retains all of the classic features that have contributed to the book's success: clarity of expression, the focus on the accounting equation, student activities and real-life commentaries running through each chapter, and the inclusion of the Safe and Sure Annual Report as an example of a listed company. Written by an expert teacher in Accounting, the eighth edition of this well-respected text retains all the features that have contributed to the book's popularity: focus on the accounting equation, an even greater range of student activities throughout each chapter, a clear and accessible writing style, and extensive use of real-world case studies. With a strong emphasis on the 2018 Conceptual Framework of the International Accounting Standards Board, *Financial & Management Accounting: An Introduction* guides students in understanding the 'why' and not just the 'what' of financial and management accounting. Key features: Definitions and terminology are aligned with the 2018 IASB Conceptual Framework Fully up-to-date with the International Financial Reporting Standards (IFRS) New case studies giving examples from real-world companies Activities aligned to each section of a chapter to encourage students to explore and consider issues from different angles Expanded for this edition, experience-driven conversations between two managers are included throughout, updated with an even more practical emphasis Coverage on fair value throughout Exploration of the Strategic Report and Directors' Report Focuses on specific knowledge outcomes, with end-of-chapter self-evaluation Questions are graded according to difficulty to test student understanding *Financial & Management Accounting: An Introduction* is a core textbook for undergraduates on Business Studies degrees, undergraduates on Accounting courses, students studying accounting for MBA and postgraduate courses, and professional courses where accounting is introduced for the first time. General Intelligence and Test of Reasoning owes its existence to comprehensive research and strategic planning. A thorough coverage of the reasoning section of various competitive examinations has been achieved after an in-depth research and proper analysis of original papers of the UPSC, SSC, banking services, B-school tests and tests by other central and state-level recruitment bodies. A unique aspect of this book is the approach it adopts in explaining the concepts of verbal analysis, non-verbal analysis, critical reasoning and data interpretation. Each chapter starts with a brief introduction to the various formats of questions asked in competitive examinations, followed by topic-specific tests, which provide numerous multiple-choice questions that involve students in an interactive way to improve their accuracy level. The last chapter provides scientifically structured and exam-oriented test papers to familiarize candidates with current trends and types of questions. These test papers and self-scoring tables will help students assess their own level of preparation.
