This practical guide focuses on managing the risks of spray drift and includes information on appropriate handling practices to ensure a safe workplace.

Truman's Scientific Guide to Pest Control Operations UCANR Publications

The North Carolina Agricultural Chemicals Manual provides extension specialists and agents, researchers, and professionals in the agriculture industry with information on the selection, application, and safe and proper use of agricultural chemicals. The manual is revised annually offering a wealth of up-to-date and reliable information covering pesticides, fertilizers, application equipment, specimen identification, growth regulators, and the control of insects, diseases, weeds, and animals. It is available digitally free of charge in a PDF format at the following url: content.ces.ncsu.edu/north-carolina-agricultural-chemicals-manual/.

Turfgrass Pests ASTM International

This is a complete guide to using pesticides safely in turf, landscape, and interior scape situations ranging from parks and golf courses to indoor malls. Designed for professionals working in the public or private sector, it focuses especially on pesticide handling and application procedures of importance. More than 200 photos, line drawings, graphs, and sidebars illustrate key concepts and procedures. Review questions similar to those on the exams are included at the end of each chapter to help you as you study. This is recommended study material for Landscape Maintenance Pest Control and Maintenance Gardener categories of the California Department of Pesticide Regulation's Qualified Pesticide Applicator License (QAL) and Qualified Pesticide Applicator Certificate (QAC) exams.

Principles, Strategies and Supporting Information Food & Agriculture Org.

Abstract: This guide is for the non-commercial pesticide applicator who seeks Minnesota state certification in Food Processing Pest Control, In-plant application of "restricted-use" pesticides, including fumigants and In-plant application of fumigants only. The manual focuses on chemical and nonchemical prevention, control, removal and eradication of: insect; animal and bird; mold and fungus; bacterial; and weed pests. Formulations for insecticides, acaricides, herbicides, fungicides, bactericides, nematicides, rodenticides, avicides and fumigants are given. Safe use, pesticide label warnings and toxicity levels and dangers are stressed. Pesticide application and equipment are covered.

Aquatic Plant Control NC State Extension

2022 Pest Control for Professional Turfgrass Managers contains the latest information on pesticides used to control turfgrass pests. This volume covers a wide array of topics including commercial turf

insects; chemical weed control; tolerance of established cool-season and warm-season turfgrasses to herbicides; controlling broadleaf weeds; turfgrass diseases; nematicides for turf; growth regulators; aquatic weed control; and integrated pest management. Updated annually, this is a valuable resource for the North Carolina turfgrass industry, extension agents, and other professionals who maintain athletic fields, golf courses, lawns, parks, and other landscapes that feature turfgrass.

Certification and Licensing in Florida Independently Published

If you oversee a lake, pond, or other aquatic environment—natural or man-made—this guide is for you! This easy-to-use reference manual and study guide covers diverse aquatic environments including natural marshes, wetlands, and deltas; irrigation canals and levees; ornamental ponds in parks and golf courses; hatcheries and recreational waters; and municipal water supplies and drinking water reservoirs. Chapters include information on: • Identifying weeds in the aquatic environment • Methods of controlling aquatic weeds • Identifying and controlling other pests in the aquatic environment • Laws regulating aquatic environments, pesticide use, and protected species • Reading and understanding pesticide labels • Mixing and applying pesticides safely • Selecting and calibrating aquatic herbicide application equipment • How to recognize and prevent pesticide poisoning • How to handle pesticide emergencies Profusely illustrated with 54 illustrations and over 100 photographs, this reference manual also has 8 tables and 31 sidebars that expand on important points and provide calculation formulas. A helpful glossary and thorough index round out this study tool. This is the recommended study guide for the California Department of Pesticide Regulation (DPR) exams in the Aquatic Pest Control category.

Canadian Pesticide Education Program UCANR Publications

A reference from what I studied to pass the Branch 2 Field Rep examination. I took the test twice and I brought questions I recall from the tests it back for this study template. It should be that other materials are provided to study and learn to pass the examination, but there really is not one reference to learning the answers of 4 test choices with 150 questions on each adding to a possible 600 possible questions you need to know. I have provided 200 of the questions in this book.
